PUBLIC COLLEGES AND UNIVERSITIES

During your college career, you may decide to transfer from one Oklahoma state college or university to another. Information gathered by Oklahoma public colleges and universities indicates that, based on junior- and senior-level grade point averages, transfer students perform comparable to students who stay at the same college or university.

If you decide to transfer to a four-year university with an Associate in Arts or Associate in Science degree (two-year degrees), Oklahoma State Regents for Higher Education policy ensures that these degrees will satisfy all freshman and sophomore general education requirements at the four-year university. If you transfer to another college before you complete an associate degree, your general education courses will be reviewed for matches to those at the college to which you transferred.

If you are seeking an Associate in Arts or Associate in Science degree, you will need to take at least 37 hours of required courses in English, literature, math, science, history, government and the arts. If you are seeking a Bachelor of Arts or Bachelor of Science

degree, you will need to take a minimum of 40 hours of required courses in these subjects.

To help you during the transfer process, course transfer information is posted at www.okcoursetransfer.org. Most state colleges and universities distribute lists of courses that will transfer among and meet degree requirements at Oklahoma's public colleges and universities. In addition, each bachelor's degree granting university lists the requirements for each of its bachelor's degree programs and publicizes those requirements for use by all other colleges and universities.

For more information, see your counselor, visit www.okcoursetransfer.org, call the Student Transfer Hotline at 800.583.5883 (225.9163 in Oklahoma City) or check with the institution to which you plan to eventually transfer.
