Newman Civic Fellowship Awards

The 2020 nomination period for the [NEWMAN CIVIC FELLOWSHIP](#) is open. The Newman Civic Fellowship is a yearlong program that recognizes and supports community-committed students at [Campus Compact member institutions](#). **Campus Compact member presidents and**

chancellors are encouraged to nominate one current student from their institution on the basis of their motivation for community engagement and potential to create long-term social change. The nomination deadline is February 3, 2020. OK Campus Compact will invite all Newman Civic Fellows to be recognized at an Oklahoma State Regents spring meeting, and will award a \$500 scholarship (awards may be prorated, depending on the number of Fellows).

Students may be undergraduate or graduate, but must be currently enrolled with at least one year left in their degree programs (students planning to transfer are acceptable as long as a student will still be enrolled at an educational institution for the following academic year). Only one student may be nominated per institution. Nominations are accepted through the Campus Compact online [nomination form](#). Questions may also be directed to fellows@compact.org.

Member institution presidents, and chief student affairs and academic officers have received this information directly from Campus Compact. See past [Oklahoma Newman Civic Fellows](#).

National Inventory of Institutional Infrastructure for Community Engagement (NIIICE)

Chancellor Glen D. Johnson has sent a communication to each institutional president urging each institution to participate in an annual survey of its community engagement work, and requesting each president to designate someone to lead this endeavor using the National Inventory of Institutional Infrastructure for Community Engagement (NIIICE or NI³CE). Until 2017 [Campus Compact](#) conducted an annual membership survey to assess the current state of campus-based community engagement and to identify emerging trends, however Campus Compact has discontinued its traditional member survey in favor of participation in the NI³CE.

The NI³CE is a free online inventory designed as a tool for collecting data about the inputs an institution has related to community engagement (see [NIIICE Overview](#)). To date nearly 170 institutions have completed the inventory, creating a growing database that allows comparisons with comparable institutions and a “best practice” metric based on the Carnegie Classification for Community Engagement and the professional literature. The NI³CE can inform strategic planning and decision-making. A [PDF version](#) of the entire survey is available for download and reference. Participation in this survey is voluntary and confidential. The data from all surveys will become part of a confidential research database where all institutional identifying information will be

removed. **Additionally, opting to share your submitted data confidentially with Oklahoma Campus Compact (OKCC) through the mechanism provided in the survey online will enable OKCC to produce an aggregate state report for its members (no institutions will be identified.)** All though there is no time limit, collection of data for a state aggregate report will be facilitated if institutions can complete the survey by mid-April. Please contact Ms. Debbie Terlip, Executive Director of Oklahoma Campus Compact, at (405) 225-9128 or dterlip@osrhe.edu, with any questions or concerns.

Campus Compact Impact Awards

Campus Compact is now accepting applications for the [Nadinne Cruz Community Engagement Professional Award](#) and the [Richard Guarasci and Eduardo J. Padrón Awards for Institutional Transformation](#). Applications are due **January 7, 2020**.

- ❖ The Nadinne Cruz Community Engagement Professional Award recognizes an exemplary Community Engagement Professional who has demonstrated collaboration with communities focused on transformative change, a commitment to justice-oriented work, and an impact on the larger movement to build ethical and effective community engagement locally, regionally, nationally, and internationally. The Nadinne Cruz Award celebrates the ethical leadership and advocacy demonstrated by Community Engagement Professionals.

Padrón Awards for Institutional Transformation recognize institution-wide efforts to address issues of public concern by aligning teaching, research, practice, and values in service of the common good. Each year Campus Compact will identify up to six recipients. Both four-year and two-year member institutions will be recognized. The awards are named for higher education leaders whose efforts have transformed their institutions to contribute to the goal of full participation in our communities and our democracy.

2019 All In Democracy Challenge Awards

Big congratulations to **Southwestern Oklahoma State University**, honored for outstanding contributions to improving college democratic engagement in the [ALL IN Campus Democracy Challenge](#), with the **Bronze Seal** for campuses with 20-29% voter participation in the 2018 Midterm Election! democratic engagement. Nationally, more than 550 colleges and universities are participating in the ALL IN Challenge, which is a program of Civic Nation.

The ALL IN Seal Awards are benchmarks in college student voting rates. The Challenge recognizes institutions for their commitment to increasing student voting rates, helping students form the habits of active and informed citizenship, making democratic participation a core value on their campus, and cultivating generations of engaged citizens who are essential to a healthy democracy. Most notably, ALL IN works to recognize participating colleges and universities for making a commitment to increasing student voting rates, which is possible through campus participation in the National Study of
