Paul G. Risser Chancellor

The Oklahoma State Regents for Higher Education in compliance with Titles VI and VII of the Civil Rights Act of 1964, Executive Order 11236 as amended, Title IX of the Education Amendments of 1972, Americans with Disabilities Act of 1990 and other federal laws do not discriminate on the basis of race, color, national origin, sex, age, religion, handicap or status as a veteran in any of its policies, practices, or procedures. This includes but is not limited to admissions, employment, financial aid, and educational services.

This publication, duplicated by the State Regents' central services, is issued by the Oklahoma State Regents for Higher Education as authorized by 70 O.S. 2001, Section 3206. Copies have been prepared and distributed internally. Copies have been deposited with the Publications Clearinghouse of the Oklahoma Department of Libraries.

Oklahoma State Regents for Higher Education Student Data Report 2001-02

Introduction

The Student Data Report for 2001-02 is the 20th annual comprehensive publication of student data derived from the Oklahoma State Regents' Unitized Data System (UDS), which has been in place since 1977. Over time, the Student Data Report has developed into a useful policy and planning tool. Each semester, approximately 75 data elements are gathered for each student (a person who enrolled, had a class/grade action, and paid fees) in Oklahoma higher education. From these data, the UDS constructs state and federal reports and State Regents' studies.

The annual Student Data Report uses the UDS to produce many of the primary measures of student involvement in higher education such as movement into college, enrollments, student transfer, persistence, and semester credit hours. The enclosed tables and figures are intended for use by public officials, institutional administrators, faculty, staff, and regents in the development of higher education plans and programs.

In 2001-02, there were 30 data reporting entities, institutions, and branch campuses in The Oklahoma State System for Higher Education. The University of Oklahoma Health Sciences Center and Oklahoma State University's Center for Health Sciences in Tulsa, Technical Branch in Okmulgee, and OSU-Oklahoma City are reported as individual institutions. The enrollments for all other entities were reported with the parent institution. Students and courses located at the McCurtain County Higher Education Program, Ardmore Higher Education Program, OSU-Tulsa, as well as other learning sites were reported with the institution of record or the institution that taught the courses. In 2001-02, some of the private institutions did not participate in the UDS, thus grand totals including private institutions are not complete.

The enclosed tables and figures are summaries of more comprehensive and detailed data reports. For example, most of this information can be provided by race and gender. Thus, the Student Data Report also serves as an index to sources of additional data for further study that are available upon request. Since the UDS is continuously edited, reports generated at different times or using different computer programs may produce slightly different populations. If comparisons between tables are made, it is recommended that the user check the grand totals as well as table headings and footnotes before making specific comparisons.

DEFINITIONS

Athletically-Related Student Aid: any scholarship, grant, or other form of financial assistance, offered by an institution, the terms of which require the recipient to participate in a program of intercollegiate athletics at the institution in order to be eligible to receive such assistance. If a student receives athletically-related student aid for more than one sport, that student is counted only once using the following hierarchy: football, basketball, baseball, cross-country/track, all other sports.

<u>CIP (Classification of Instructional Programs)</u>: a classification of program terms and descriptions reflecting the manner in which institutional instructional program data are organized, collected, and reported. Developed by the U.S. Department of Education's National Center for Education Statistics (NCES). Used to report by field of study.

FTE (Full-Time-Equivalent) Enrollment: The numerator used to compute full-time equivalent (FTE) enrollment is the total semester hours (either full-year or semester) in which all applicable students are enrolled. The denominator is the number of semester credit hours a full-time student needs to earn in one year. The annual FTE denominator for undergraduate enrollment is 30, based on the estimate that it takes a full-time student 30 hours per year to complete a 120-hour baccalaureate degree program in 4 years. Graduate students are expected to take 12 credit hours per semester or 24 credit hours per year.

<u>Fall Cohort</u>: includes students who enrolled full-time, were degree/certificate-seeking, and were classified as first-time freshmen at an institution during the fall term. Academic activity of the cohort group is tracked for years to determine persistence rates and graduation rates.

<u>First-Time Freshman</u>: an entering freshman who has never attended any college. Includes students enrolled in the fall term who attended college for the first time in the prior summer term. Also includes students who entered with advanced standing (college credits earned before graduation from high school).

<u>Full-Time Student</u>: at the undergraduate level, a student enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more contact hours a week each term.

<u>Graduation Rate</u>: the percentage of students from the original fall cohort who completed a degree program within 150 percent of the normal time. If the degree program normally takes four years to complete, a student would be counted as a completer if he/she received a degree within six years.

Non-Credit Course: a course or activity having no credit applicable toward a degree, diploma, certificate, or other formal award.

<u>Number of Enrollments</u>: This is the cumulative headcount of students enrolled during each semester of the year. It is a duplicated headcount; that is, a student enrolled for the summer, fall, and spring semesters would be counted three times.

<u>Persistence Rate</u>: the percentage of students from the original cohort group who are enrolled during the following year.

<u>Unclassified Student</u>: a student who is enrolled for credit, but not pursuing a degree or formal award.

<u>Unduplicated Headcount</u>: In the unduplicated headcount, a student is counted only once for the full-year time period or for the fall semester. Headcount is unduplicated only within the institution. Consequently, a student who takes courses at two separate institutions would be counted at both institutions. During the time period under consideration, students are assigned to the class level in which they enrolled during their last active semester (freshman/sophomore-lower division, junior/senior-upper division, graduate, and professional).

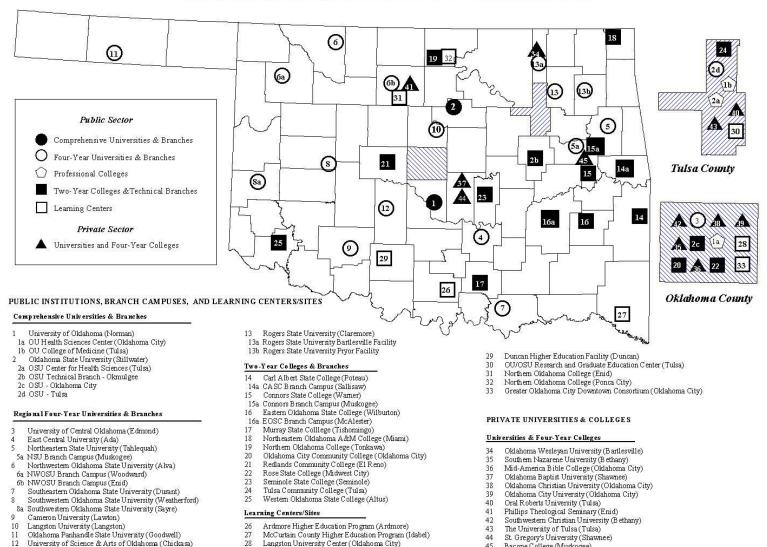

Oklahoma State Regents for Higher Education Student Data Report 2001-02

Section I: Oklahoma Higher Education

Higher Education in Oklahoma

- There are 25 public higher education institutions, 15 branch campuses, and 8 learning centers in Oklahoma.
- Oklahoma has 12 private higher education institutions that are regionally accredited.

Public Enrollments and State Population

The following tables and graphs are based on the most recent national data available, fall 2000.

- In fall 2000, Oklahoma had 4.45 percent of the state population enrolled in public higher education. This compares to 4.63 percent in fall 1999, and 4.67 percent in fall 1998.
- Compared to other states, Oklahoma ranked 17th in the nation. This compares to 16th in fall 1999. Oklahoma had remained steady at 13th for the three years prior to 1999.

Private Enrollments and State Population

The following tables and graphs are based on the most recent national data available, fall 2000.

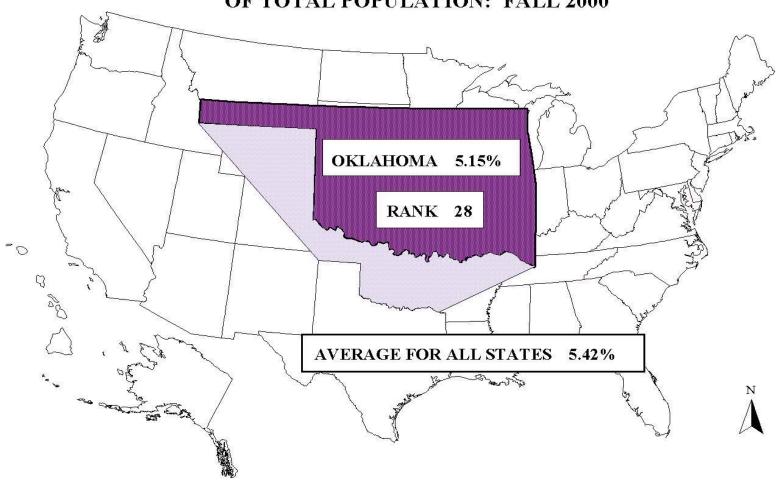

- In fall 2000, Oklahoma had 0.70 percent of the state population enrolled in private higher education. This compares to 0.71 percent in fall 1999 and 0.68 percent in fall 1998.
- Compared to other states, Oklahoma ranked 40th in the nation. Oklahoma also ranked 40th in fall 1999 and fall 1998.

Enrollments in Higher Education by Race

The following is based on the most recent national data available, fall 2000.

• In Oklahoma, Native Americans had the highest minority percentage of higher education enrollment (8.9 percent). Nationally, Blacks had the highest minority percentage of higher education enrollment (11.3 percent). Oklahoma is below the national percentages in Black, Asian, and Hispanic minority enrollments.

PERCENT OF STUDENT ENROLLMENTS BY RACE IN OKLAHOMA AND THE UNITED STATES FALL 2000

NOTE: In previous years of the Student Data Report, this cahrt compared enrollments to population by race. Due to changes in census data, this comparison is no longer possible.

Oklahoma State Regents for Higher Education Student Data Report 2001-02

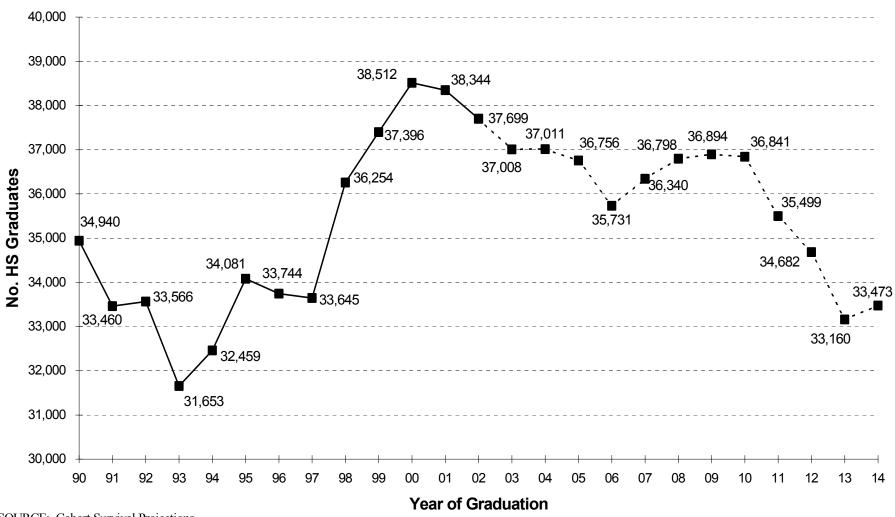

Section II: Student Preparation

Oklahoma High School Graduates 1989-90 through 2013-14

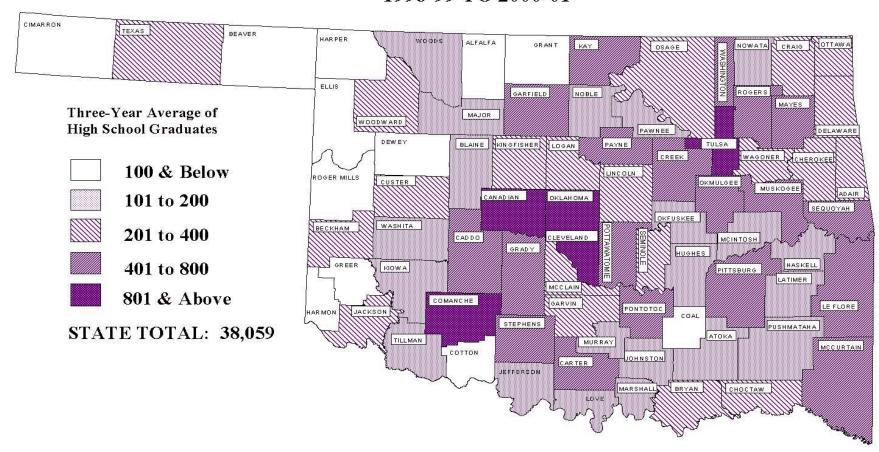

This graph shows Oklahoma public and private high school graduates from 1989-90 to 2013-14. From 1989-90 through 2001-02, the actual number of graduates is shown. The projected period is 2002-03 through 2013-14. On the whole, this projection method yields a gradual decline from 37,699 in 2001-02 to 35,731 in 2005-06, followed by a peak of 36,894 in 2008-09, then a steeper decline to 33,160 in 2012-13.

This cohort-survival method projects enrollments and graduates based on the retention or survival of class cohorts from one grade level to the next. Historical data were collected for elementary enrollments, secondary enrollments, and high school graduates for the period 1989-90 through 2001-02. The survival of each cohort, from first grade through graduation, is measured by progression ratios: the change between the number of students enrolled in a grade for a single year and those students who continue to the next grade the following year, (e.g., 2nd Graders 2002 / 1st Graders 2001 = Progression Ratio 2002 [P.R.2002]). Historical Progression Ratios were averaged and a continuous average was applied to each subsequent <u>projected</u> year and class, (e.g., P.R. 1990 + P.R. 1991....+ P.R. 2002 / 11 = P.R. 2003). <u>Projected</u> student enrollment numbers for successive grades are then calculated by multiplying enrollments per grade by the Progression Ratio, (e.g., 1st Graders 2002 [actual] x P.R. 2003 = 2nd Graders 2003 [projected]).

ACT Scores by Race and Curriculum

- From 1998 to 1999, Oklahoma remained 0.4 to 0.5 of a point below the national ACT mean scores. In 2000, Oklahoma narrowed the gap to 0.2 of a point below the national ACT score. In 2002, Oklahoma was 0.3 of a point below the national ACT score.
- In Oklahoma, those students taking the core curriculum have consistently scored higher on the ACT than those who did not take the core curriculum. This relationship holds true across the different races.

Oklahoma State Regents for Higher Education Student Data Report 2001-02

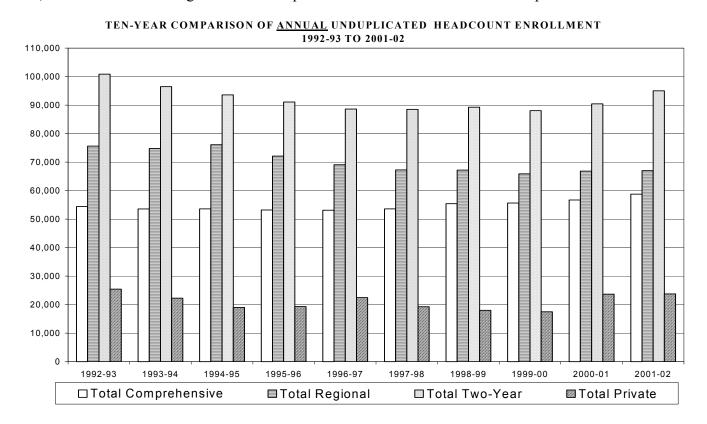

Section III: Enrollments

Ten-Year Comparison of Annual Unduplicated Headcount Enrollment

The following tables show the total number of unduplicated students enrolled in 41 of the 42 Oklahoma higher education institutions in 2001-02. One private institution did not report.

This table and graph compare <u>annual</u> unduplicated headcount for both public and private institutions for ten years. An <u>annual</u> unduplicated headcount counts each student only once for the academic year (summer, fall, and spring).

- Public higher education unduplicated headcount enrollment decreased from 230,917 in 1992-93 to 209,371 in 1997-98, then generally increased to 220,768 in 2001-02.
- Public higher education enrollment decreased 4.4 percent overall during the 1992-93 to 2001-02 ten-year time period.
- In 1992-93, enrollment was the largest since first reported in the 1983-84 Student Data Report.

A TEN-YEAR COMPARISON OF <u>ANNUAL</u> UNDUPLICATED HEADCOUNT ENROLLMENT 1992-93 TO 2001-02

SOURCE: UDSENR14, 1/29/03. Did not report for 2001-02, data are from 2000-01. RSU began offering bachelor's degrees in fall 2000.

Ten-Year Comparison of Fall Unduplicated Headcount Enrollment at Public Institutions

The table and graph show 10 years of <u>fall</u> unduplicated headcount enrollment for the <u>public</u> institutions by comprehensive universities, regional universities, and two-year colleges. Students enrolled in more than one institution are attributed to only one institution.

- From fall 1992 to fall 2001, enrollments in the <u>public</u> institutions decreased by 1.7 percent.
- Fall enrollments at comprehensive universities increased 12.2 percent over the ten-year timeframe. The regional universities decreased 7.7 percent. The two-year colleges decreased 6.2 percent.

SOURCE: OCR 2300-2.3 Fall 2001, 6/12/02. *RSU began offering bachelor's degrees in fall 2000.

^{**}OSU-CHS did not report Fall 2001 data; data are from Fall 2000.

Annual Unduplicated Headcount Enrollment by Gender and Class Level

The table and graph show the total number of unduplicated students enrolled in 41 of the 42 Oklahoma higher education institutions in 2001-02, distributed by class level and by gender. One private institution did not report.

- At the <u>public</u> institutions, the freshman class consisted of 71,385 students or 32.3 percent of the <u>public annual</u> unduplicated headcount in 2001-02, the sophomore class consisted of 54,686 students or 24.8 percent, the junior class consisted of 19,334 or 8.8 percent, and the senior class consisted of 32,863 students or 14.9 percent.
- At the <u>public</u> institutions, the graduate and professional class levels consisted of 20,950 students or 9.5 percent and 3,011 students or 1.4 percent, respectively.
- At the <u>public</u> institutions, females outnumbered males in 2001-02 by a ratio of 56 to 44. In 1962, males outnumbered females in Oklahoma higher education by a ratio of 65 to 35. In the fall of 1972, males outnumbered females by a ratio of 60 to 40.

SOURCE: UDSENR14, 1/29/03. Did not report for 2001-02, data are from 2000-01.

Annual Headcount and FTE Enrollment by Division

The table and graph show headcount and full-time equivalent (FTE) enrollment for 2001-02 by division of study (lower, upper, graduate, and professional). The annual full-time equivalent undergraduate enrollment is calculated by dividing the total number of credit hours enrolled in by undergraduate students by 30 and dividing the total number of credit hours enrolled in by graduate and professional students by 24. The reason for using 30 and 24 is that a full-time undergraduate student must take 15 credit hours per semester or 30 credit hours per year to complete a bachelor's degree in four years. Graduate and professional students must take 12 credit hours per semester or 24 per year to complete most degrees on schedule.

- In 2001-02, <u>public</u> and <u>private</u> institutions had 244,529 students and 146,276 FTEs.
- Total <u>public</u> institutional headcount consisted of 138,744 (63 percent) lower division students, 55,008 (25 percent) upper division students, 24,005 (11 percent) graduate students, and 3,011 (1 percent) professional students.
- Total <u>public</u> institutional FTE consisted of 73,286 (57 percent) lower division FTEs, 39,098 (30 percent) upper division FTEs, 11,442 (9 percent) graduate FTEs, and 4,703 (4 percent) professional FTEs.

NOTE: May contain unclassified students and concurrent high school enrollments. **Did not report for Fall 2001, data are from Fall 2000.

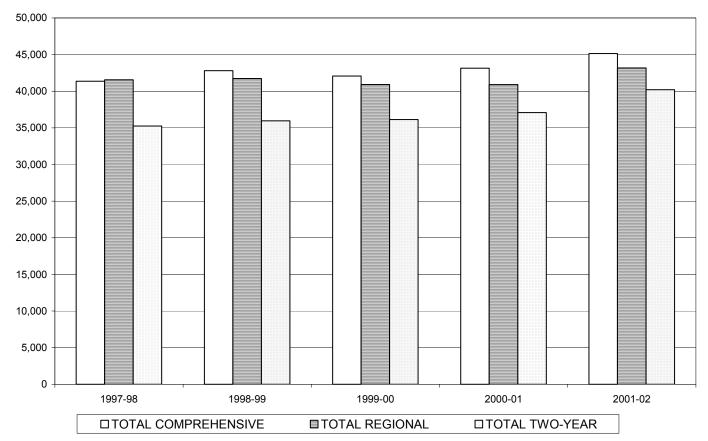

^{*} Full-time equivalent (FTE): An annual FTE is calculated for an undergraduate by dividing the total number of credit hours enrolled by all undergraduate students by 30. The graduate and professional FTE is calculated by dividing the total number of credit hours enrolled by all graduate and professional students by 24. Totals may not equal sums of columns due to rounding of calculations.

Five-Year Comparison of Annual Full-Time Equivalent (FTE) Enrollments

The table and graph show a five-year history with year-to-year comparisons of the annual FTE of all institutions.

- The <u>public</u> sector institutions have shown a 8.8 percent increase in <u>annual</u> FTE enrollments from 1997-98 to 2001-02 and a 6.1 percent increase from 2000-01 to 2001-02.
- The comprehensive universities had a 9.1 percent FTE increase from 1997-98 to 2001-02. Regional universities increased 3.9 percent and two-year colleges increased 14.1 percent.

³ RSU began offering bachelor's degrees in fall 2000.

Annualized FTE at Public Institutions 2001-02 Compared to 2000-01

This table compares the <u>annualized</u> FTE enrollments in the <u>public</u> institutions in 2001-02 with the FTE enrollments in 2000-01 by semester and for the academic year.

• The public FTE for each semester during 2001-02 increased from 2000-01 levels. Public FTE increased 7,417 (6.1 percent) for the full-year 2001-02.

ANNUALIZED FTE BY SEMESTER AT <u>PUBLIC</u> INSTITUTIONS ONE-YEAR COMPARISON BY SEMESTER

Annual Student Credit Hours by Division

The following graph and table describe <u>annual</u> student credit hours by the division in which the student is classified. For example, the lower division number reflects the number of credit hours in which freshman and sophomore students enrolled.

• Of the 3,758,968 total student credit hours produced in 2001-02 at <u>public</u> institutions, 2,198,572 (58.5 percent) were taken by lower division students, 1,172,934 (31.2 percent) were taken by upper division students, 274,612 (7.3 percent) were taken by graduate students, and 112,850 (3.0 percent) were taken by professional students.

SOURCE: UDSENR11, 1/29/03.

NOTE: May contain concurrent High School Enrollments. ** Did not report.

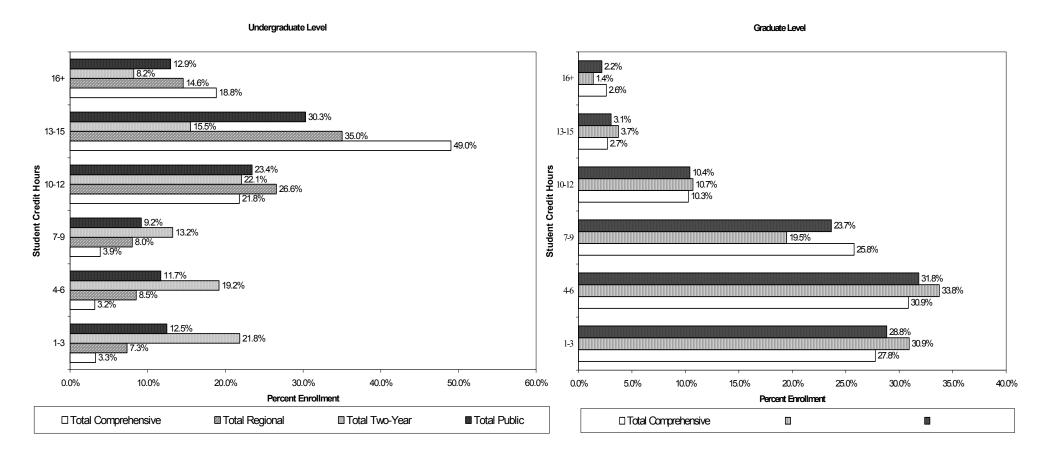

¹ Division is the level at which the student is classified; may not be the level at which the credit hour was generated.
² Did not report for 2001-02, data are from previous year.

Unduplicated Fall Headcount Enrollment by Level, Division, and Credit Hours

The following graphs and tables describe the fall 2001 unduplicated headcount enrollment by undergraduate and graduate level and by credit hours. Undergraduate level is further disaggregated by lower and upper division.

• The largest percentage of undergraduates at the <u>public</u> institutions (30.3 percent) enrolled in 13 to 15 credit hours in fall 2001: 49.0 percent of the comprehensive university students, 35.0 percent of the regional university students, and 15.5 percent of the two-year college students. The highest percentage (22.1 percent) of two-year college students enrolled in 10 to 12 credit hours.

At the graduate level, more students at the comprehensive universities (30.9 percent) and at the regional universities (33.8 percent) enrolled in 4 to 6 credit hours.

PERCENTAGE OF <u>FALL</u> UNDUPLICATED STUDENT HEADCOUNT ENROLLMENT BY LEVEL AND CREDIT HOURS FALL 2001

^{*} Percentages equal 100 percent within each division.

Annual Unduplicated Enrollment by Field of Study and Class Level

The following tables describe the number of unduplicated headcount enrollments in higher education institutions in 2001-02 by field of study and by class level.

- At the public institutions, Business Management was the most popular field of study in 2001-02 with 29,304 (13.3 percent) students enrolled. Education was second with 25,587 (11.6 percent) students enrolled. In 2000-01 and 1999-00, Business Management also was first and Education was second. These have been the top two fields since the first Student Data Report was published in 1982-83.
- At the private institutions, Business Management was the most popular field of study in 2001-02 with 5,260 (22.1 percent) students enrolled. Education was second with 2,328 (9.8 percent) students enrolled. It was the same in 1999-00 and 2000-01, and these have been the top two fields since the first Student Data Report was published in 1982-83.

NOTE: Unduplicated within the institution between semesters.

Unduplicated Headcount Enrollments at Public Institutions 2001-02 Compared to 2000-01

This table compares 2001-02 and 2000-01 unduplicated headcount enrollments at the <u>public</u> institutions by semester.

- In 2001-02, all three semesters experienced increases from the previous year, resulting in a State System increase of 6,796 students (3.2 percent) for the year. Over the past five years, public enrollment has increased 5.4 percent.
- Three public institutions with the largest increases were Oklahoma City Community College (1,933 students, 12.4 percent), Oklahoma State University (1,124, 4.5 percent), and the University of Oklahoma (836 students, 2.9 percent).
- The University of Central Oklahoma had the largest decrease in enrollment, with 1,421 fewer students than the previous year.
- From 2000-01 to 2001-02, comprehensive universities' enrollment increased by a total of 2,046 students (3.6 percent); regional universities' enrollment increased by a total of 183 students (0.3 percent); and two-year colleges increased by a total of 4,567 (5.0 percent).

Concurrent High School Enrollment at Public Institutions

This table contains data from <u>public</u> higher education institutions authorized to concurrently enroll high school students in higher education. These students also are included in the other enrollment tables.

- In 2001-02, 3,507 high school students were reported as concurrently enrolled in at least one college course. These students enrolled for a total of 22,088 credit hours or 736 FTEs.
- In 2000-01, 3,551 high school students were concurrently enrolled for a total of 24,788 credit hours or 826 FTEs.

SOURCE: UDSENR11, 1/29/03.

NOTE: FTE may not total due to rounding of calculated values.

^{**} Did not report.

^{***} Full-year is unduplicated between semesters.

^{*} Full-time equivalent (FTE): An annual FTE is calculated for an undergraduate by dividing the total number of credit hours enrolled by all undergraduate students by 30. The graduate and professional FTE is calculated by dividing the total number of credit hours enrolled by all graduate and professional students by 24. Totals may not equal sums of columns due to rounding of calculations.

Five-Year Comparison of Full-Time and Part-Time Enrollments

This table shows a five-year history of fall semester full-time and part-time enrollments at all public institutions. In the fall semester, an undergraduate student must be enrolled in at least 12 credit hours and a graduate student must be enrolled in at least 9 credit hours to be classified as full-time.

• Full-time enrollment at public institutions increased from 89,719 in fall 1997 to 99,225 in fall 2001, or 10.6 percent. Part-time enrollment decreased from 63,253 in fall 1997 to 61,956 in fall 2001, or 2.1 percent.

Five-Year Comparison of Full-Time and Part-Time Percentages

This table shows a five-year history of fall semester full-time and part-time enrollment percentages at all public institutions. In the fall semester, an undergraduate student must be enrolled in at least 12 credit hours and a graduate student must be enrolled in at least 9 credit hours to be classified as full-time.

• The full-time enrollment percentage at public institutions increased from 58.7 percent in fall 1997 to 61.6 percent in fall 2001. The part-time enrollment percentage decreased from 41.3 percent in fall 1997 to 38.4 percent in fall 2001.

¹ Did not report for 2001-02, data are from previous year.

Non-Credit Activity

The following tables describe the nature and level of non-credit activity provided by Oklahoma <u>public</u> colleges and universities that reported offering non-credit activities. The information provided indicates a range of activities and groups served. Participant contacts indicate the number of participants recorded as attending and participating in non-credit activities; therefore, an individual citizen may be counted in more than one activity. In some activities, participant contacts may be estimated, as in large lectures. Non-credit courses and activities are provided on a self-supporting basis and are not reported for state funding.

- During 2001-02, 20 public institutions reported participant contacts totaling 344,568 in non-credit activities at 2 comprehensive universities, 9 regional universities, and 9 two-year colleges. This compares to 23 public institutions reporting 319,692 participant contacts for 2000-01 and 15 public institutions reporting 252,250 participant contacts for 1998-99.
- Between 1999-00 and 2001-02, non-credit activity participants increased 98,116 (83.3 percent) at the comprehensive universities and 16,135 (44.0 percent) at the regional universities. Non-credit activity participants decreased 21,741 (22.3 percent) at the two-year colleges.
- The <u>Group Served</u> table reflects the reporting institution's determination of the group to which an activity was primarily directed. According to the table, the major groups served were the general public, government, educational institutions, business and industry, and community agencies. These were also the major groups served during 2000-01 and 1999-00. Business and Industry, Health and Human Services, Community Agency, and General Public groups experienced increases in non-credit activity from 2000-01 to 2001-02.
- The <u>Format</u> table shows that courses, workshops, and conferences are the most common formats for non-credit activities. During 2001-02, workshops increased 74.2 percent from 1999-00, while courses declined 12.6 percent and conferences declined 6.9 percent.
- The three counties where the most participation took place were Oklahoma, Cleveland, and Tulsa counties. From 1999-00, Tulsa county increased 38.5 percent, and Oklahoma county declined 25.0 percent. Cleveland county more than tripled in participation numbers from 1999-00 to 2001-02.

Oklahoma State Regents for Higher Education Student Data Report 2001-02

Section IV: Access to Higher Education

Geographic Origin of Students in Public and Private Institutions

The following three tables describe the geographic origin of students enrolled in Oklahoma higher education.

- Oklahoma, Tulsa, and Cleveland counties were the top three counties of origin for public institutions.
- Oklahoma, Tulsa, and Pottawatomie counties were the top three counties of origin for private institutions.
- For public institutions, Texas, Kansas, Arkansas, California, and Missouri were the top five states of origin for out-of-state students.
- For private institutions, Texas, Kansas, Missouri, Arkansas, and California were the top five states of origin for out-of-state students.
- India, Japan, and China were the top countries of origin for public institutions, while India, China, and Taiwan were the top countries of origin for private institutions.

¹ Did not report for 2001-02; data are from fall 2000.

Direct from High School-to-College-Going Rate

The first-time freshmen who entered college directly from high school are estimated from those students who were 17 to 19 years old and were Oklahoma high school graduates. Each category on the map represents approximately one-third of the 77 counties in Oklahoma.

• For 1999-00 through 2001-02, the statewide average college-going rate direct from high school was 55.9 percent.

NOTE: First-time freshmen may not sum to total because the total includes unknown high schools that do not relate back to any particular Oklahoma county. Other slight discrepancies may occur because of rounding.

First-Time Freshman Enrollments at Public Institutions

- The number of new freshmen increased 9.2 percent from 26,531 in fall 2000 to 28,966 in fall 2001.
- Comprehensive university fall first-time freshmen increased 7.8 percent from 6,341 to 6,834.
- Regional university fall first-time freshmen increased 8.0 percent from 7,837 to 8,464.
- Two-year college fall first-time freshmen increased 10.7 percent from 12,353 to 13,668.

Enrollment in Public Institutions by Race, Gender, Class Level, and Full-Time/Part-Time Status

- In fall 2001, full-time students comprised 61.6 percent of the total headcount enrollment, and part-time students made up the remaining 38.4 percent.
- Most undergraduate students enrolled as full-time students (64.3 percent) and most graduate students enrolled as part-time students (66.1 percent).
- Both male and female students enrolled more often as full-time students (65.0 percent and 58.8 percent, respectively).
- Women outnumbered men in Black, Native American, Asian, Hispanic, and White enrollments. Women comprised 59.0 percent of the Black enrollments, while 41.0 percent were men. Native American enrollments consisted of 59.9 percent women to 40.1 percent men. Women comprised 50.9 percent of Asian enrollments, while 49.1 percent were men. Women made up 53.8 percent of Hispanic enrollments, and men made up 46.2 percent. Men outnumbered women in the Nonresident Alien category by comprising 62.7 percent of the enrollment.

Unduplicated Headcount Student Enrollments at Public Institutions by Race and Gender

- Overall, there were more women than men enrolled in Oklahoma public institutions for fall 2001. Women held 55.9 percent of the total enrollments, while males held 44.1 percent.
- This holds true for all race categories, except Nonresident Alien.

*RSU began offering bachelor's degrees in fall 2000.

¹OSU-CHS did not report Fall 2001, data are for Fall 2000.

NOTE: Includes first-time freshmen from summer who continued in fall and includes nonresident aliens; does not contain concurrent high school enrollment.

Unduplicated Headcount Student Enrollments at Public Institutions by Race

- For the comprehensive tier, Nonresident Aliens had the highest minority enrollment with Native Americans having the second highest.
- For both the regional and two-year tiers, Native Americans had the highest minority enrollment while Blacks had the second highest.

Percentage of Student Enrollment by Race Within the State System

This table distributes the fall 2001 student enrollments by race among the State System institutions.

- Nonresident Aliens and Asians had the majority of their enrollment in comprehensive universities (55.8 percent and 46.6 percent, respectively).
- Blacks and Native Americans had the largest percentage of their enrollment in the regional tier (41.1 and 40.5 percent, respectively).
- For Hispanics and Whites, enrollment at two-year colleges made up the largest percentage of their total enrollments (42.6 percent and 37.9 percent, respectively).

Comparison of Fall Headcount Enrollments of Male Students

• There was a decline in enrollment for male students from fall 1992 to fall 2001. The comprehensive universities experienced a 6.6 percent increase in male enrollments for this time frame (from 23,820 to 25,401); however, the regional universities and two-year colleges had decreases of 7.3 percent and 6.8 percent, respectively.

*RSU began offering bachelor's degrees in fall 2000.

OSU-CHS did not report Fall 2001, data are for Fall 2000.

NOTE: Includes first-time freshmen from summer who continued in fall and includes nonresident aliens; does not contain concurrent high school enrollment.

Ten-Year Comparison of Fall Headcount Enrollments of Male and Female Students

Comparison of Fall Headcount Enrollments of Female Students

• Although female participation increased from fall 2000 to fall 2001, female participation in higher education has shown an overall decline since 1992. Between fall 1992 and fall 2001, headcount enrollments for females declined from 90,960 to 90,052. The comprehensive institutions showed the only increase in enrollments where female enrollments have increased from 20,867 in fall 1992 to 24,740 in fall 2001.

Comparison of Fall Headcount Enrollments for Native American Students

• Native American enrollments at the comprehensive and two-year tier increased every year from fall 1992 to fall 2001. Native American enrollments at the regional tier experienced a slight decline in 1995 and 1996, but have generally increased over the ten-year period. The net increase for all public institutions was 4,445 students.

Enrollment by Gender, Race, Class Level, Age, and Status for Two-Year Colleges

- Although the median age for two-year colleges is in the 20-24 age group, it barely falls into this category.
- Fifty-five percent of the student body was age 24 or less. Thirty-one percent of the student body was age 30 or older.

<u>Ten-year History of the Mean Age of Students Enrolled in Oklahoma Public Institutions by Gender, Race, Class Level, and Status</u>

This table is a ten-year history of the mean age of students enrolled in the public system. The table tracks the mean age of students enrolled in higher education by race, gender, class level and attendance status.

- The mean age of students decreased in most race categories with an overall decrease of 1.39 years from 27.85 to 26.46 during the ten-year period.
- The mean age of females and males decreased from 28.79 to 27.15 and 26.69 to 25.60, respectively. In fall 2001, the average age of females enrolled was 1.55 years higher than that of males.
- The greatest increase by class level was in the unclassified category where the mean age increased from fall 1992 to fall 2001. All other levels decreased.

Percent First-Time Freshmen in Public Institutions by Age

• This graph provides the percent of first-time freshmen in public institutions by age for fall 2001. This information used in conjunction with the cohort-survival projections may be useful for institutions like The University of Oklahoma which had approximately 97 percent of its first-time freshmen between 17 and 19 years of age in fall 2001. Two-year colleges would find these projections less useful since a smaller percentage of their first-time freshmen were between 17 and 19 years of age in fall 2001.

PERCENT OF FIRST-TIME FRESHMEN IN <u>PUBLIC</u> INSTITUTIONS BY AGE FALL 2001

Five-year History of Students Receiving Financial Aid

This table reflects the unduplicated recipients for each financial aid category as a percentage of the total unduplicated headcount enrollment at public institutions for five twelve-month time periods.

- In 1997-98, 50.1 percent of all unduplicated students received at least one form of financial aid. By 2001-02, this percentage rose to 52.9, which indicates that more than half of the unduplicated students received some form of financial aid. All categories of financial aid increased in unduplicated recipients since 1950.
- In 2001-02, grants were the most common form of financial aid received (37.1 percent), followed by loans and scholarships (25.8 and 12.4 percent, respectively).

PERCENT OF TOTAL UNDUPLICATED STUDENTS IN <u>PUBLIC</u> INSTITUTIONS RECEIVING FINANCIAL AID BY CATEGORY OVER FIVE YEARS

TYPE OF AID	1997-98	1998-99	1999-00	2000-01	2001-02
GRANTS	36.2%	38.2%	36.0%	35.8%	37.1%
LOANS	24.2%	24.7%	25.1%	24.8%	25.8%
SCHOLARSHIPS	9.0%	10.2%	12.0%	12.4%	12.4%
EMPLOYMENT	7.4%	7.9%	8.0%	8.1%	7.7%
ALL AID	50.1%	50.5%	50.9%	54.2%	52.9%

SOURCE: OCR 23000-28000 B3, UDSENR14, 1/29/03.

Financial Aid Recipients Compared to Enrollment

This table shows unduplicated financial aid recipients as a percentage of unduplicated headcount enrollment for each public institution. It also shows the percentage of total public system financial aid recipients per institution and percentage of total public system enrollment per institution.

• Two-year colleges have the smallest percentage of their student body receiving aid (39.8 percent) while contributing the largest percentage of students enrolled in the State System. Comprehensive universities have the largest percentage of students receiving financial aid (62.5 percent) followed by regional universities (60.2 percent). Both comprehensive and regional universities have a higher proportion of students receiving aid than the proportion of total students enrolled in the State System.

Transfer Activity of Degree-Seeking Students in the Oklahoma State System

The following information describes a cohort flow methodology that tracks first-time, degree-seeking freshmen (full-time and part-time) from the fall semester of one academic year into the next full academic year. Students who are considered first-time transfers include immediate transfers and those who delay transfer for only one year.

- <u>Immediate transfer</u> a student who was enrolled the previous academic year at another Oklahoma institution of higher education and transferred without a break in enrollment to the current institution.
- <u>Delay transfer</u> a student who was not enrolled the previous academic year, but transferred hours from another institution.

Transfer of Degree-Seeking Students by Race and Gender

- Both males and females had similar transfer patterns: males transferred from two-year to four-year institutions at a rate of 30 percent, while females transferred at a rate of 28 percent. Male and female transfer rates from four-year to two-year institutions were identical to the rates from two-year to four-year institutions.
- The Non-resident Alien, Asian, and White categories had the highest percentage of student transfers from two-year to four-year institutions (76 percent, 50 percent, and 29 percent, respectively). Native American and Black categories had the highest percentage of transfers from four-year to two-year institutions (33 percent and 30 percent, respectively).

TRANSFER PATTERN OF DEGREE-SEEKING STUDENTS WITHIN OKLAHOMA FROM PUBLIC AND PRIVATE INSTITUTIONS TO PUBLIC INSTITUTIONS BY RACE AND GENDER AS OF SPRING 2002 FOR THE 1999-00 COHORT

Transfer of Two-Year College Degree-Seeking Students to Public Comprehensive or Regional Universities

- From 1997-98 to 2001-02, the percentage of students who began as degree-seeking freshmen in two-year colleges and transferred to a public comprehensive or regional institution within six years increased from 32.1 percent to 35.7 percent.
- The percentage of public two-year to four-year transfer students who earned a bachelor's degree within six years decreased from 22.9 percent to 18.2 percent from 1997-98 to 2001-02.

PERCENT OF <u>PUBLIC TWO-YEAR</u> COLLEGE COHORT TRANSFERRING WITHIN A SIX-YEAR PERIOD TO <u>PUBLIC COMPREHENSIVE OR REGIONAL</u> INSTITUTIONS

Transferred by sixth year:

Student Transfer Activity

The following graph and table describe the transfer of the fall 1999 degree-seeking freshman cohort as of spring 2002. Additional tables by full-time/part-time status, race, and gender are available upon request.

• For thirteen of the public institutions, more students transferred "from other public institutions" than "to other public institutions" which would be considered a net gain for those institutions.

Oklahoma State Regents for Higher Education Student Data Report 2001-02

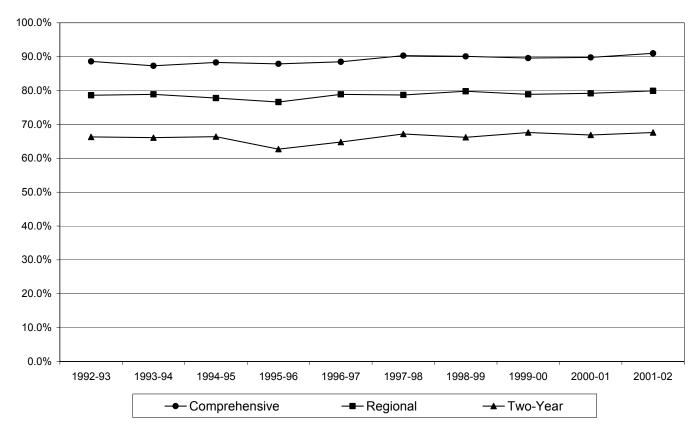

Section V: Outcomes

First-Year Persistence Rates First-Time Full-Time Freshmen Within the State

The following graph and table show a 10-year summary of persistence rates for the fall cohorts within the state, that is, new freshmen who enrolled at the same or another Oklahoma higher education institution the following year.

• From 1992-93 to 2001-02, persistence rates (within the state) for new freshmen increased from 88.6 to 91.0 percent at the comprehensive universities, increased from 78.6 percent to 79.9 percent at the regional universities, and increased from 66.3 to 67.6 percent at the two-year colleges. Generally, persistence rates have increased after a low point in 1995-96.

SOURCE: OSRHE UDS, Cohort2 (April 2003) reports.

^{*} Institution began offering 4-year degrees Fall 2000. N/A: data not available.

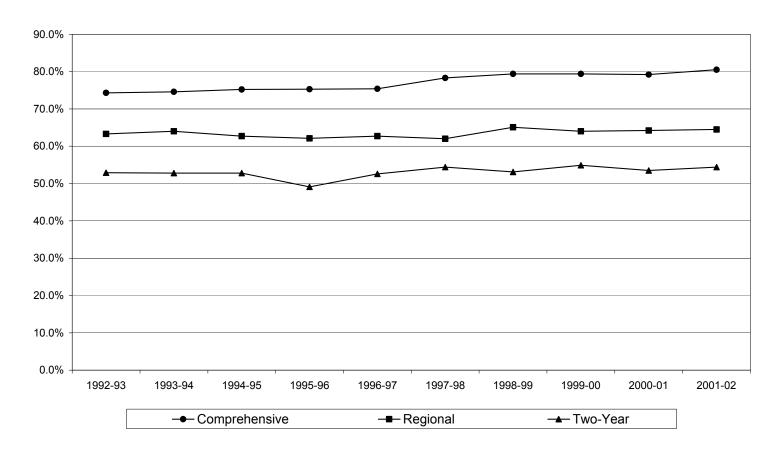

NOTE: The tier persistence rates are calculated by dividing the total number of persisters by the total number of fall first-time, full-time degree-seeking students at all of the institutions in the tier.

First-Year Persistence Rates First-Time Full-Time Freshmen Within the Institution

The following graph and table show a 10-year summary of persistence rates for the fall cohorts within the institution, that is, new freshmen who enrolled at the same institution during the following year.

• From 1992-93 to 2001-02, persistence rates (within the institution) for new freshmen increased from 74.3 to 80.5 percent at the comprehensive universities, increased from 63.3 to 64.5 percent at the regional universities, and increased from 52.9 to 54.4 percent at the two-year colleges.

Graduation Rates First-Time Full-Time Freshmen Within the State

The following graph and table show a summary of graduation rates for the fall cohorts within the state, that is, new freshmen who graduated in the same or another Oklahoma higher education institution. The graduation rates are six-year rates for comprehensive and regional universities, and three-year for two-year colleges.

• From 1995-96 to 2001-02, six-year graduation rates (within the state) for new freshmen increased from 49.9 to 60.1 percent at the comprehensive universities and increased from 34.7 to 37.5 percent at the regional universities. At two-year colleges, three-year graduation rates (within the state) for new freshmen increased from 15.4 to 19.2 percent.

Graduation Rates of Athletic Scholarship Students

The following tables show a summary of graduation rates for the fall <u>athletic</u> cohorts within the institution, that is, new freshmen receiving athletic assistance who graduated from the Oklahoma higher education institution where they began their education. The graduation rates are six-year rates for comprehensive and regional universities, and three-year rates for two-year colleges. Tables for all athletes, male athletes, and female athletes are included.

- From 1999-00 to 2001-02, six-year graduation rates for all athletes in all sports increased from 39.0 percent to 57.6 percent at the comprehensive universities, and increased from 36.5 percent to 45.4 percent at the regional universities. At two-year colleges, three-year graduation rates for all freshman athletes in all sports increased from 30.9 percent to 32.0 percent.
- From 1999-00 to 2001-02, six-year graduation rates for male athletes in all sports increased from 34.6 percent to 49.4 percent at the comprehensive universities, and decreased from 31.2 percent to 28.8 percent at the regional universities. At two-year colleges, three-year graduation rates for male freshman athletes in all sports decreased from 30.9 percent to 28.2 percent.
- From 1999-00 to 2001-02, six-year graduation rates for female athletes in all sports increased from 48.7 percent to 72.3 percent at the comprehensive universities, and decreased from 48.8 percent to 43.6 percent at the regional universities. At two-year colleges, three-year graduation rates for female athletes in all sports increased from 30.9 percent to 37.1 percent.
