# Oklahoma State Regents for Higher Education <br> Student Data Report <br> 2002-03 

## Introduction

The Student Data Report for 2002-03 is the $21^{\text {st }}$ annual comprehensive publication of student data derived from the Oklahoma State Regents' Unitized Data System (UDS), which has been in place since 1977. Over time, the Student Data Report has developed into a useful policy and planning tool. Each semester, approximately 75 data elements are gathered for each student (a person who enrolled, had a class/grade action, and paid fees) in Oklahoma higher education. From these data, the UDS constructs state and federal reports and State Regents' studies.

The annual Student Data Report uses the UDS to produce many of the primary measures of student involvement in higher education such as movement into college, enrollments, student transfer, persistence, and semester credit hours. The enclosed tables and figures are intended for use by public officials, institutional administrators, faculty, staff, and regents in the development of higher education plans and programs.

In 2002-03, there were 30 data reporting entities, institutions, and branch campuses in The Oklahoma State System for Higher Education. The University of Oklahoma Health Sciences Center and Oklahoma State University's Center for Health Sciences in Tulsa, Technical Branch in Okmulgee, and OSU-Oklahoma City are reported as individual institutions. The enrollments for all other entities were reported with the parent institution. Students and courses located at the McCurtain County Higher Education Program, Ardmore Higher Education Program, OSU-Tulsa, as well as other learning sites were reported with the institution of record or the institution that taught the courses. In 2002-03, some of the private institutions did not participate in the UDS, thus grand totals including private institutions are not complete.

The enclosed tables and figures are summaries of more comprehensive and detailed data reports. For example, most of this information can be provided by race and gender. Thus, the Student Data Report also serves as an index to sources of additional data for further study that are available upon request. Since the UDS is continuously edited, reports generated at different times or using different computer programs may produce slightly different populations. If comparisons between tables are made, it is recommended that the user check the grand totals as well as table headings and footnotes before making specific comparisons.

## DEFINITIONS

Athletically-Related Student Aid: any scholarship, grant, or other form of financial assistance, offered by an institution, the terms of which require the recipient to participate in a program of intercollegiate athletics at the institution in order to be eligible to receive such assistance. If a student receives athletically-related student aid for more than one sport, that student is counted only once using the following hierarchy: football, basketball, baseball, cross-country/track, all other sports.

CIP (Classification of Instructional Programs): a classification of program terms and descriptions reflecting the manner in which institutional instructional program data are organized, collected, and reported. Developed by the U.S. Department of Education's National Center for Education Statistics (NCES). Used to report by field of study.

FTE (Full-Time-Equivalent) Enrollment: The numerator used to compute full-time equivalent (FTE) enrollment is the total semester hours (either full-year or semester) in which all applicable students are enrolled. The denominator is the number of semester credit hours a full-time student needs to earn in one year. The annual FTE denominator for undergraduate enrollment is 30 , based on the estimate that it takes a full-time student 30 hours per year to complete a 120-hour baccalaureate degree program in 4 years. Graduate students are expected to take 12 credit hours per semester or 24 credit hours per year.

Fall Cohort: includes students who enrolled full-time, were degree/certificate-seeking, and were classified as first-time freshmen at an institution during the fall term. Academic activity of the cohort group is tracked for years to determine persistence rates and graduation rates.

First-Time Freshman: an entering freshman who has never attended any college. Includes students enrolled in the fall term who attended college for the first time in the prior summer term. Also includes students who entered with advanced standing (college credits earned before graduation from high school).

Full-Time Student: at the undergraduate level, a student enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more contact hours a week each term.

Graduation Rate: the percentage of students from the original fall cohort who completed a degree program within 150 percent of the normal time. If the degree program normally takes four years to complete, a student would be counted as a completer if he/she received a degree within six years.

Non-Credit Course: a course or activity having no credit applicable toward a degree, diploma, certificate, or other formal award.

Number of Enrollments: This is the cumulative headcount of students enrolled during each semester of the year. It is a duplicated headcount; that is, a student enrolled for the summer, fall, and spring semesters would be counted three times.

Persistence Rate: the percentage of students from the original cohort group who are enrolled during the following year.
Unclassified Student: a student who is enrolled for credit, but not pursuing a degree or formal award.
Unduplicated Headcount: In the unduplicated headcount, a student is counted only once for the full-year time period or for the fall semester. Headcount is unduplicated only within the institution. Consequently, a student who takes courses at two separate institutions would be counted at both institutions. During the time period under consideration, students are assigned to the class level in which they enrolled during their last active semester (freshman/sophomore-lower division, junior/senior-upper division, graduate, and professional).

## Section I: Oklahoma Higher Education

## Higher Education in Oklahoma

- There are 25 public higher education institutions, 19 branch campuses, and 7 learning centers in Oklahoma.
- Oklahoma has 12 private higher education institutions that are regionally accredited.

HIGHER EDUCATION IN OKLAHOMA

PUBLIC HIGHER EDUCATION ENROLLMENT AS A PERCENTAGE OF TOTAL POPULATION: FALL 2001

SOURCE: U.S. Department of Commerce, Bureau of Census, State Population Estimates, Annual Time Series, December 2003. U.S. Departmert of Education, National Certer for Education Statistics, Digest of Education Statistics 2003, June 2004.

## Public Enrollments and State Population

The following tables and graphs are based on the most recent national data available, fall 2001.

- In fall 2001, Oklahoma had 4.71 percent of the state population enrolled in public higher education. This compares to 4.45 percent in fall 2000, and 4.63 percent in fall 1999.
- Compared to other states, Oklahoma ranked $14^{\text {th }}$ in the nation. This compares to $17^{\text {th }}$ in fall 2000 , and $16^{\text {th }}$ in fall 1999.

## Private Enrollments and State Population

The following tables and graphs are based on the most recent national data available, fall 2001.

- In fall 2001, Oklahoma had 0.76 percent of the state population enrolled in private higher education. This compares to 0.70 percent in fall 2000 and 0.71 percent in fall 1999.
- Compared to other states, Oklahoma ranked $39^{\text {th }}$ in the nation. Oklahoma ranked $40^{\text {th }}$ in fall 2000 and fall 1999.

## Public and Private Enrollments and State Population

The following tables and graphs are based on the most recent national data available, fall 2001.

- In fall 2001, Oklahoma had 5.47 percent of the state population enrolled in higher education. This compares to 5.15 percent in fall 2000 and 5.33 percent in fall 1999 .
- Compared to other states, Oklahoma ranked $25^{\text {th }}$ in the nation. Oklahoma ranked $28^{\text {th }}$ in fall 2000, and ranked $24^{\text {th }}$ in fall 1999.

## Enrollments in Higher Education by Race

The following is based on the most recent national data available, fall 2001.

- In Oklahoma, Native Americans had the highest minority percentage of higher education enrollment (9.2 percent). Nationally, Blacks had the highest minority percentage of higher education enrollment ( 11.7 percent). Oklahoma is below the national percentages in Black, Asian, and Hispanic minority enrollments.

## Section II: Student Preparation

## Oklahoma High School Graduates 1990-91 through 2014-15

This graph shows Oklahoma public and private high school graduates from 1990-91 to 2014-15. From 1990-91 through 2002-03, the actual number of graduates is shown. The projected period is 2003-04 through 2014-15. On the whole, this projection method yields a gradual decline from 37,688 in 2002-03 to 36,411 in 2004-05, followed by a peak of 36,961 in 2009-10, then a steeper decline to 32,979 in 2013-14.

This cohort-survival method projects enrollments and graduates based on the retention or survival of class cohorts from one grade level to the next. Historical data were collected for elementary enrollments, secondary enrollments, and high school graduates for the period 1990-91 through 2002-03. The survival of each cohort, from first grade through graduation, is measured by progression ratios: the change between the number of students enrolled in a grade for a single year and those students who continue to the next grade the following year, (e.g., 2nd Graders 2003 / 1st Graders 2002 = Progression Ratio 2003 [P.R.2003]). Historical Progression Ratios were averaged and a continuous average was applied to each subsequent projected year and class, (e.g., P.R. $1991+$ P.R. 1992.... P.R. 2003 / $11=$ P.R. 2004). Projected student enrollment numbers for successive grades are then calculated by multiplying enrollments per grade by the Progression Ratio, (e.g., 1st Graders 2003 [actual] x P.R. $2004=$ 2nd Graders 2004 [projected] ).

## ACT Scores by Race and Curriculum

- In 1999, Oklahoma remained 0.4 of a point below the national ACT mean scores. In 2000, Oklahoma narrowed the gap to 0.2 of a point below the national ACT score. In 2003, Oklahoma was 0.3 of a point below the national ACT score.
- In Oklahoma, those students taking the core curriculum have consistently scored higher on the ACT than those who did not take the core curriculum. This relationship holds true across the different races.

## Intentionally Blank

Oklahoma State Regents for Higher Education
Student Data Report
2002-03

## Section III: Enrollments

## Ten-Year Comparison of Annual Unduplicated Headcount Enrollment

The following tables show the total number of unduplicated students enrolled in 41 of the 42 Oklahoma higher education institutions in 2002-03. One private institution did not report.

This table and graph compare annual unduplicated headcount for both public and private institutions for ten years. An annual unduplicated headcount counts each student only once for the academic year (summer, fall, and spring).

- Public higher education unduplicated headcount enrollment decreased from 224,829 in 1993-94 to 209,371 in 1997-98, then generally increased to 228,249 in 2002-03.
- Public higher education enrollment increased 1.5 percent overall during the 1993-94 to 2002-03 ten-year time period.

## Ten-Year Comparison of Fall Unduplicated Headcount Enrollment at Public Institutions

The table and graph show 10 years of fall unduplicated headcount enrollment for the public institutions by comprehensive universities, regional universities, and two-year colleges. Students enrolled in more than one institution are attributed to only one institution.

- From fall 1993 to fall 2002, enrollments in the public institutions increased by 5.0 percent.
- Fall enrollments at comprehensive universities increased 19.6 percent over the ten-year timeframe. The regional universities decreased 2.3 percent. The two-year colleges increased 1.1 percent.

SOURCE: OCR 2300-2.3 Fall 2002, 6/15/04. *RSU began offering bachelor's degrees in fall 2000. **OSU-CHS did not report Fall 2001 data; data are from Fall 2000
NOTE: Includes first-time freshmen from summer who continued in fall and includes nonresident aliens; does not contain concurrent high school enrollment.

## Annual Unduplicated Headcount Enrollment by Gender and Class Level

The table and graph show the total number of unduplicated students enrolled in 41 of the 42 Oklahoma higher education institutions in 2002-03, distributed by class level and by gender. One private institution did not report.

- At the public institutions, the freshman class consisted of 74,455 students or 32.6 percent of the public annual unduplicated headcount in 2002-03, the sophomore class consisted of 56,421 students or 24.7 percent, the junior class consisted of 19,948 or 8.7 percent, and the senior class consisted of 35,476 students or 15.5 percent.
- At the public institutions, the graduate and professional class levels consisted of 20,639 students or 9.0 percent and 3,111 students or 1.4 percent, respectively.
- At the public institutions, females outnumbered males in 2002-03 by a ratio of 57 to 43 . In 1962, males outnumbered females in Oklahoma higher education by a ratio of 65 to 35 . In the fall of 1972 , males outnumbered females by a ratio of 60 to 40 .

## Annual Headcount and FTE Enrollment by Division

The table and graph show headcount and full-time equivalent (FTE) enrollment for 2002-03 by division of study (lower, upper, graduate, and professional). The annual full-time equivalent undergraduate enrollment is calculated by dividing the total number of credit hours enrolled in by undergraduate students by 30 and dividing the total number of credit hours enrolled in by graduate and professional students by 24 . The reason for using 30 and 24 is that a full-time undergraduate student must take 15 credit hours per semester or 30 credit hours per year to complete a bachelor's degree in four years. Graduate and professional students must take 12 credit hours per semester or 24 per year to complete most degrees on schedule.

- In 2002-03, public and private institutions had 252,291 students and 154,197 FTEs.
- Total public institutional headcount consisted of 143,120 (63 percent) lower division students, 58,240 (26 percent) upper division students, 23,778 (10 percent) graduate students, and 3,111 (1 percent) professional students.
- Total public institutional FTE consisted of 76,605 (56 percent) lower division FTEs, 41,979 (31 percent) upper division FTEs, 11,713 ( 9 percent) graduate FTEs, and 5,770 (4 percent) professional FTEs.

NOTE: May contain unclassified students and concurrent high school enrollments.

* Full-time equivalent (FTE): An annual FTE is calculated for an undergraduate by dividing the total number of credit hours enrolled by all undergraduate students by 30 .
The graduate and professional FTE is calculated by dividing the total number of credit hours enrolled by all graduate and professional students by 24 . Totals may not equal sums of columns due to rounding of calculations.

## Five-Year Comparison of Annual Full-Time Equivalent (FTE) Enrollments

The table and graph show a five-year history with year-to-year comparisons of the annual FTE of all institutions.

- The public sector institutions have shown a 12.9 percent increase in annual FTE enrollments from 1998-99 to 2002-03 and a 5.9 percent increase from 2001-02 to 2002-03.
- The comprehensive universities had a 12.6 percent FTE increase from 1998-99 to 2002-03. Regional universities increased 7.6 percent and two-year colleges increased 19.4 percent.

${ }^{1}$ Full-time equivalent (FTE): An annual FTE is calculated for an undergraduate by dividing the total number of credit hours enrolled by all undergraduate students by 30
The graduate and professional FTE is calculated by dividing the total number of credit hours enrolled by all graduate and professional students by 24 . Totals may not equal
sums of columns due to rounding of calculations.
Did not report for 2001-02, data are from 2000-01.
RSU began offering bachelor's degrees in fall 2000

## Annualized FTE at Public Institutions 2002-03 Compared to 2001-02

This table compares the annualized FTE enrollments in the public institutions in 2002-03 with the FTE enrollments in 2001-02 by semester and for the academic year.

- The public FTE for each semester during 2002-03 increased from 2001-02 levels. Public FTE increased 7,539 (5.9 percent) for the full-year 2002-03.

## Annual Student Credit Hours by Division

The following graph and table describe annual student credit hours by the division in which the student is classified. For example, the lower division number reflects the number of credit hours in which freshman and sophomore students enrolled.

- Of the $3,977,111$ total student credit hours produced in 2002-03 at public institutions, 2,298,164 ( 57.8 percent) were taken by lower division students, $1,259,364$ ( 31.7 percent) were taken by upper division students, 281,109 ( 7.1 percent) were taken by graduate students, and 138,474 ( 3.5 percent) were taken by professional students.

** Did not report
Division is the levelat which the student is classified; may not be the levelat which the credit hour was generated

## Unduplicated Fall Headcount Enrollment by Level, Division, and Credit Hours

The following graphs and tables describe the fall 2002 unduplicated headcount enrollment by undergraduate and graduate level and by credit hours. Undergraduate level is further disaggregated by lower and upper division.

- The largest percentage of undergraduates at the public institutions ( 30.6 percent) enrolled in 13 to 15 credit hours in fall 2002: 48.5 percent of the comprehensive university students, 35.1 percent of the regional university students, and 16.4 percent of the two-year college students. The highest percentage ( 23.5 percent) of two-year college students enrolled in 10 to 12 credit hours.

At the graduate level, more students at the comprehensive universities ( 31.2 percent) and at the regional universities ( 32.5 percent) enrolled in 4 to 6 credit hours.

## Annual Unduplicated Enrollment by Field of Study and Class Level

The following tables describe the number of unduplicated headcount enrollments in higher education institutions in 2002-03 by field of study and by class level.

- At the public institutions, Business Management was the most popular field of study in 2002-03 with 27,626 (12.1 percent) students enrolled. Education was second with 24,847 ( 10.9 percent) students enrolled. In 2001-02 and 2000-01, Business Management also was first and Education was second. These have been the top two fields since the first Student Data Report was published in 1982-83.
- At the private institutions, Business Management was the most popular field of study in 2002-03 with 5,067 (21.1 percent) students enrolled. Education was second with 2,283 (9.5 percent) students enrolled. It was the same in 2000-01 and 2001-02, and these have been the top two fields since the first Student Data Report was published in 1982-83.

## Unduplicated Headcount Enrollments at Public Institutions 2002-03 Compared to 2001-02

This table compares 2002-03 and 2001-02 unduplicated headcount enrollments at the public institutions by semester.

- In 2002-03, all three semesters experienced increases from the previous year, resulting in a State System increase of 7,481 students ( 3.4 percent) for the year. Over the past five years, public enrollment has increased 7.7 percent.
- Three public institutions with the largest increases were Rose State College ( 1,030 students, 8.9 percent), the University of Oklahoma ( $1,007,3.4$ percent), and Oklahoma State University ( 915 students, 3.5 percent).
- Western Oklahoma State College had the largest decrease in enrollment, with 209 fewer students than the previous year.
- From 2001-02 to 2002-03, comprehensive universities' enrollment increased by a total of 2,080 students ( 3.5 percent); regional universities' enrollment increased by a total of 1,879 students ( 2.8 percent); and two-year colleges increased by a total of 3,522 (3.7 percent).

## Concurrent High School Enrollment at Public Institutions

This table contains data from public higher education institutions authorized to concurrently enroll high school students in higher education. These students also are included in the other enrollment tables.

- In 2002-03, 3,667 high school students were reported as concurrently enrolled in at least one college course. These students enrolled for a total of 23,887 credit hours or 796 FTEs.
- In 2001-02, 3,507 high school students were concurrently enrolled for a total of 22,088 credit hours or 736 FTEs.

[^6]NOTE: FTE may not total due to rounding of calculated values.
** Did not report.
*** Full-year is unduplicated between semesters.

* Full-time equivalent (FTE): An annual FTE is calculated for an undergraduate by dividing the total number of credit hours enrolled by all undergraduate students by 30 . The graduate and professional FTE is calculated by dividing the total number of credit hours enrolled by all graduate and professional students by 24.

## Five-Year Comparison of Full-Time and Part-Time Enrollments

This table shows a five-year history of fall semester full-time and part-time enrollments at all public institutions. In the fall semester, an undergraduate student must be enrolled in at least 12 credit hours and a graduate student must be enrolled in at least 9 credit hours to be classified as full-time.

- Full-time enrollment at public institutions increased from 91,726 in fall 1998 to 105,798 in fall 2002, or 15.3 percent. Part-time enrollment increased from 62,685 in fall 1998 to 62,704 in fall 2002, or .03 percent.

## Five-Year Comparison of Full-Time and Part-Time Percentages

This table shows a five-year history of fall semester full-time and part-time enrollment percentages at all public institutions. In the fall semester, an undergraduate student must be enrolled in at least 12 credit hours and a graduate student must be enrolled in at least 9 credit hours to be classified as full-time.

- The full-time enrollment percentage at public institutions increased from 59.4 percent in fall 1998 to 62.8 percent in fall 2002. The part-time enrollment percentage decreased from 40.6 percent in fall 1998 to 37.2 percent in fall 2002.

## PERCENTAGE OF HEADCOUNT ENROLLMENT AT PUBLIC INSTITUTIONS BY FULL-TIME AND PART-TIME STATUS

## Non-Credit Activity

The following tables describe the nature and level of non-credit activity provided by Oklahoma public colleges and universities that reported offering non-credit activities. The information provided indicates a range of activities and groups served. Participant contacts indicate the number of participants recorded as attending and participating in non-credit activities; therefore, an individual citizen may be counted in more than one activity. In some activities, participant contacts may be estimated, as in large lectures. Non-credit courses and activities are provided on a self-supporting basis and are not reported for state funding.

- During 2002-03, 23 public institutions reported participant contacts totaling 699,122 in non-credit activities at 2 comprehensive universities, 9 regional universities, and 12 two-year colleges. This compares to 15 public institutions reporting 252,250 participant contacts for 1998-99.
- Between 2000-01 and 2002-03, non-credit activity participants increased 381,618 (220.0 percent) at the comprehensive universities and 33,152 ( 89.1 percent) at the regional universities. Non-credit activity participants decreased 35,340 ( 32.4 percent) at the twoyear colleges.
- The Group Served table reflects the reporting institution's determination of the group to which an activity was primarily directed. According to the table, the major groups served were the government, educational institutions, and community agencies. These were also among the major groups served during 2001-02 and 2000-01. Business and Industry, Government, Education, Military, Labor, and Community Agency groups experienced increases in non-credit activity from 2001-02 to 2002-03.
- The Format table shows that workshops and courses are the most common formats for non-credit activities. During 2002-03, workshops increased 80.1 percent from 2000-01, while courses declined 16.1 percent, although they remained among the three most popular formats.
- The four counties where the most participation took place were Cleveland, Oklahoma, Commanche, and Tulsa counties. From 2000-01, Cleveland county increased 355.6 percent, Oklahoma county increased 26.1 percent, Commanche county increased 501.9 percent, and Tulsa county declined 37.3 percent.

## Direct from High School-to-College-Going Rate

The first-time freshmen who entered college directly from high school are estimated from those students who were 17 to 19 years old and were Oklahoma high school graduates. Each category on the map represents approximately one-third of the 77 counties in Oklahoma.

- For 2000-01 through 2002-03, the statewide average college-going rate direct from high school was 56.3 percent.

SOURCE: Oklahoma High School Indicators Project, High School to College-Going Rate, OSRHE, February 2004.
NOTE: First-time freshmen may not sum to total because the total includes unknown high schools that do not relate back to any particular
Oklahoma county. Other slight discrepancies may occur because of rounding.

## First-Time Freshman Enrollments at Public Institutions

- The number of new freshmen decreased 2.7 percent from 28,966 in fall 2001 to 28,184 in fall 2002.
- Comprehensive university fall first-time freshmen increased 2.2 percent from 6,834 to 6,983 .
- Regional university fall first-time freshmen increased 2.3 percent from 8,464 to 8,662.
- Two-year college fall first-time freshmen decreased 8.3 percent from 13,668 to 12,539 .

## Enrollment in Public Institutions by Race, Gender, Class Level, and Full-Time/Part-Time Status

- In fall 2002, full-time students comprised 62.8 percent of the total headcount enrollment, and part-time students made up the remaining 37.2 percent.
- Most undergraduate students enrolled as full-time students ( 65.4 percent) and most graduate students enrolled as part-time students (64.5 percent).
- Both male and female students enrolled more often as full-time students ( 66.4 percent and 60.0 percent, respectively).
- Women outnumbered men in Black, Native American, Asian, Hispanic, and White enrollments. Women comprised 59.3 percent of the Black enrollments, while 40.6 percent were men. Native American enrollments consisted of 60.7 percent women to 39.3 percent men. Women comprised 52.4 percent of Asian enrollments, while 47.6 percent were men. Women made up 55.1 percent of Hispanic enrollments, and men made up 44.9 percent. Men outnumbered women in the Nonresident Alien category by comprising 60.1 percent of the enrollment.

## Percentage of Student Enrollment by Race Within the State System

This table distributes the fall 2002 student enrollments by race among the State System institutions.

- Nonresident Aliens and Asians had the majority of their enrollment in comprehensive universities ( 54.7 percent and 47.0 percent, respectively).
- Blacks and Native Americans had the largest percentage of their enrollment in the regional tier (41.6 percent and 41.5 percent, respectively).
- For Hispanics and Whites, enrollment at two-year colleges made up the largest percentage of their total enrollments (41.8 percent and 37.7 percent, respectively).

## Comparison of Fall Headcount Enrollments of Male Students

- There was an increase in enrollment for male students from fall 1993 to fall 2002. The comprehensive universities experienced a 12.1 percent increase in male enrollments for this time frame (from 23,612 to 26,464 ); however, the regional universities and twoyear colleges had decreases of 3.4 percent and 1.5 percent, respectively.

[^7][^8]Ten-Year Comparison of Fall Headcount Enrollments of Male and Female Students

## Comparison of Fall Headcount Enrollments of Female Students

- Female participation in higher education has shown an increase since 1993. Between fall 1993 and fall 2002, headcount enrollments for females increased from 88,750 to 95,098 . The regional institutions showed the only decline in enrollments (female enrollments have declined from 32,295 in fall 1993 to 31,783 in fall 2002).

SOURCE: OCR 2300-2.3 Fall 2002, 6/15/04. *RSU began offering bachelor's degrees in fall 2000.
NOTE: Includes first-time freshmen from summer who continued in fall and includes nonresident aliens; does not contain concurrent high school enrollment.

## Comparison of Fall Headcount Enrollments for Native American Students

- Native American enrollments at the comprehensive and two-year tier increased every year from fall 1993 to fall 2002. Native American enrollments at the regional tier experienced a slight decline in 1995 and 1996, but have generally increased over the tenyear period. The net increase for all public institutions was 4,906 students.

## Ten-year History of the Mean Age of Students Enrolled in Oklahoma Public Institutions by Gender, Race, Class Level, and Status

This table is a ten-year history of the mean age of students enrolled in the public system. The table tracks the mean age of students enrolled in higher education by race, gender, class level and attendance status.

- The mean age of students decreased in all race categories with an overall decrease of 1.30 years from 27.79 to 26.49 during the ten-year period.
- The mean age of females and males decreased from 28.74 to 27.20 and 26.61 to 25.57 , respectively. In fall 2002, the average age of females enrolled was 1.63 years higher than that of males.
- The greatest increase by class level was in the unclassified category where the mean age increased from fall 1993 to fall 2002. All other levels decreased.

## Percent First-Time Freshmen in Public Institutions by Age

- This graph provides the percent of first-time freshmen in public institutions by age for fall 2002. This information used in conjunction with the cohort-survival projections may be useful for institutions like The University of Oklahoma which had approximately 94 percent of its first-time freshmen between 17 and 19 years of age in fall 2002. Two-year colleges would find these projections less useful since a smaller percentage of their first-time freshmen were between 17 and 19 years of age in fall 2002.

PERCENT OF FIRST-TIME FRESHMEN IN PUBLIC INSTITUTIONS BY AGE

FALL 2002

## Five-year History of Students Receiving Financial Aid

This table reflects the unduplicated recipients for each financial aid category as a percentage of the total unduplicated headcount enrollment at public institutions for five twelve-month time periods.

- In 1998-99, 50.5 percent of all unduplicated students received at least one form of financial aid. By 2002-03, this percentage rose to 54.6 , which indicates that more than half of the unduplicated students received some form of financial aid. All categories of financial aid increased in unduplicated recipients since 1950.
- In 2002-03, grants were the most common form of financial aid received (37.7 percent), followed by loans and scholarships (25.6 and 12.9 percent, respectively).

PERCENT OF TOTAL UNDUPLICATED STUDENTS IN PUBLIC INSTITUTIONS RECEIVING FINANCIAL AID BY CATEGORY OVER FIVE YEARS

## Financial Aid Recipients Compared to Enrollment

This table shows unduplicated financial aid recipients as a percentage of unduplicated headcount enrollment for each public institution. It also shows the percentage of total public system financial aid recipients per institution and percentage of total public system enrollment per institution.

- Two-year colleges have the smallest percentage of their student body receiving aid (41.9 percent) while contributing the largest percentage of students enrolled in the State System. Comprehensive universities have the largest percentage of students receiving financial aid ( 63.5 percent) followed by regional universities ( 63.1 percent). Both comprehensive and regional universities have a higher proportion of students receiving aid than the proportion of total students enrolled in the State System.

## Transfer Activity of Degree-Seeking Students in the Oklahoma State System

The following information describes a cohort flow methodology that tracks first-time, degree-seeking freshmen (full-time and part-time) from the fall semester of one academic year into the next full academic year. Students who are considered first-time transfers include immediate transfers and those who delay transfer for only one year.

- Immediate transfer - a student who was enrolled the previous academic year at another Oklahoma institution of higher education and transferred without a break in enrollment to the current institution.
- Delay transfer - a student who was not enrolled the previous academic year, but transferred hours from another institution.

## Transfer of Degree-Seeking Students by Race and Gender

- Male and female transfer rates were identical in all categories.
- The Non-resident Alien, Asian, and White categories had the highest percentage of student transfers from two-year to four-year institutions ( 63 percent, 48 percent, and 33 percent, respectively). Native American and Hispanic categories had the highest percentage of transfers from four-year to two-year institutions ( 26 percent).

## TRANSFER PATTERN OF DEGREE-SEEKING STUDENTS <br> WITHIN OKLAHOMA <br> FROM PUBLIC AND PRIVATE INSTITUTIONS TO PUBLIC INSTITUTIONS BY RACE AND GENDER AS OF SPRING 2003 FOR THE 2000-01 COHORT

SOURCE: OSRHE, Unitized Data System, 2000-01 Cohort, Student Transfer Matrix

- From 1998-99 to 2002-03, the percentage of students who began as degree-seeking freshmen in two-year colleges and transferred to a public comprehensive or regional institution within six years increased from 33.7 percent to 35.8 percent.
- The percentage of public two-year to four-year transfer students who earned a bachelor's degree within six years decreased from 21.8 percent to 19.8 percent from 1998-99 to 2002-03.

> PERCENT OF PUBLIC TWO-YEAR COLLEGE COHORT TRANSFERRING WITHIN A SIX-YEAR PERIOD TO PUBLIC COMPREHENSIVE OR REGIONAL INSTITUTIONS

| Transferred by sixth year: |  |  |  |  |
| ---: | ---: | ---: | ---: | ---: |
| $1998-99$ | $1999-00$ | $2000-01$ | $2001-02$ | $2002-03$ |

## Student Transfer Activity

The following graph and table describe the transfer of the fall 2000 degree-seeking freshman cohort as of spring 2003. Additional tables by full-time/part-time status, race, and gender are available upon request.

- For twelve of the public institutions, more students transferred "from other public institutions" than "to other public institutions" which would be considered a net gain for those institutions.

Student Data Report
2002-03

## Section V: Outcomes

## First-Year Persistence Rates First-Time Full-Time Freshmen Within the State

The following graph and table show a 10 -year summary of persistence rates for the fall cohorts within the state, that is, new freshmen who enrolled at the same or another Oklahoma higher education institution the following year.

- From 1993-94 to 2002-03, persistence rates (within the state) for new freshmen increased from 87.3 to 90.8 percent at the comprehensive universities, increased from 78.9 percent to 79.7 percent at the regional universities, and increased from 66.1 to 68.6 percent at the two-year colleges. Generally, persistence rates have increased after a low point in 1995-96.

* Institution began offering 4-year degrees fall $2000 . \quad$ N/A: data not available.

NOTE: The tier persistence rates are calculated by dividing the total number of persisters by the total number of fall first-time, full-time degree-seeking students at all of the institutions in the tier.

## Graduation Rates First-Time Full-Time Freshmen Within the State

The following graph and table show a summary of graduation rates for the fall cohorts within the state, that is, new freshmen who graduated in the same or another Oklahoma higher education institution. The graduation rates are six-year rates for comprehensive and regional universities, and three-year for two-year colleges.

- From 1995-96 to 2002-03, six-year graduation rates (within the state) for new freshmen increased from 49.9 to 60.3 percent at the comprehensive universities and increased from 34.7 to 38.3 percent at the regional universities. At two-year colleges, three-year graduation rates (within the state) for new freshmen increased from 15.4 to 19.9 percent.

## Graduation Rates First-Time Full-Time Freshmen Within the Institution

The following graph and table show a summary of graduation rates for the fall cohorts within the institution, that is, new freshmen who graduated from the Oklahoma higher education institution where they began their education. The graduation rates are six-year rates for comprehensive and regional universities, and three-year rates for two-year colleges.

- From 1995-96 to 2002-03, six-year graduation rates (within the institution) for new freshmen increased from 44.0 to 55.8 percent at the comprehensive universities and increased from 27.6 to 31.8 percent at the regional universities. At two-year colleges, threeyear graduation rates (within the institution) for new freshmen increased from 14.3 to 19.4 percent.

## Graduation Rates of Athletic Scholarship Students

The following tables show a summary of graduation rates for the fall athletic cohorts within the institution, that is, new freshmen receiving athletic assistance who graduated from the Oklahoma higher education institution where they began their education. The graduation rates are six-year rates for comprehensive and regional universities, and three-year rates for two-year colleges. Tables for all athletes, male athletes, and female athletes are included.

- From 2000-01 to 2002-03, six-year graduation rates for all athletes in all sports increased from 38.1 percent to 57.4 percent at the comprehensive universities, and decreased from 43.1 percent to 34.2 percent at the regional universities. At two-year colleges, three-year graduation rates for all freshman athletes in all sports increased from 31.5 percent to 34.1 percent.
- From 2000-01 to 2002-03, six-year graduation rates for male athletes in all sports increased from 30.4 percent to 49.3 percent at the comprehensive universities, and decreased from 36.9 percent to 27.3 percent at the regional universities. At two-year colleges, three-year graduation rates for male freshman athletes in all sports increased from 30.9 percent to 32.4 percent.
- From 2000-01 to 2002-03, six-year graduation rates for female athletes in all sports increased from 55.3 percent to 67.9 percent at the comprehensive universities, and decreased from 55.3 percent to 50.7 percent at the regional universities. At two-year colleges, three-year graduation rates for female athletes in all sports decreased from 41.4 percent to 37.2 percent.
