The Oklahoma State Regents for Higher Education in compliance with Titles VI and VII of the Civil Rights Act of 1964, Executive Order 11236 as amended, Title IX of the Education Amendments of 1972, Americans with Disabilities Act of 1990 and other federal laws do not discriminate on the basis of race, color, national origin, sex, age, religion, handicap or status as a veteran in any of its policies, practices, or procedures. This includes but is not limited to admissions, employment, financial aid, and educational services.

This publication, duplicated by the State Regents' central services, is issued by the Oklahoma State Regents for Higher Education as authorized by 70 O.S. 2001, Section 3206. Copies have been prepared and distributed internally. Copies have been deposited with the Publications Clearinghouse of the Oklahoma Department of Libraries.

Oklahoma State Regents for Higher Education Student Data Report 2003-04

Introduction

The Student Data Report for 2003-04 is the 22nd annual comprehensive publication of student data derived from the Oklahoma State Regents' Unitized Data System (UDS), which has been in place since 1977. Over time, the Student Data Report has developed into a useful policy and planning tool. Each semester, approximately 75 data elements are gathered for each student (a person who enrolled, had a class/grade action, and paid fees) in Oklahoma higher education. From these data, the UDS constructs state and federal reports and State Regents' studies.

The annual Student Data Report uses the UDS to produce many of the primary measures of student involvement in higher education such as movement into college, enrollments, student transfer, persistence, and semester credit hours. The enclosed tables and figures are intended for use by public officials, institutional administrators, faculty, staff, and regents in the development of higher education plans and programs.

In 2003-04, there were 30 data reporting entities, institutions, and branch campuses in The Oklahoma State System for Higher Education. The University of Oklahoma Health Sciences Center and Oklahoma State University's Center for Health Sciences in Tulsa, Technical Branch in Okmulgee, and OSU-Oklahoma City are reported as individual institutions. The enrollments for all other entities were reported with the parent institution. Students and courses located at the Ardmore Higher Education Program, Greater Oklahoma City Downtown Consortium, OSU-Tulsa, as well as other learning sites were reported with the institution of record or the institution that taught the courses. In 2003-04, some of the private institutions did not participate in the UDS, thus grand totals including private institutions are not complete.

The enclosed tables and figures are summaries of more comprehensive and detailed data reports. For example, most of this information can be provided by race and gender. Thus, the Student Data Report also serves as an index to sources of additional data for further study that are available upon request. Since the UDS is continuously edited, reports generated at different times or using different computer programs may produce slightly different populations. If comparisons between tables are made, it is recommended that the user check the grand totals as well as table headings and footnotes before making specific comparisons.

DEFINITIONS

<u>Athletically-Related Student Aid</u>: any scholarship, grant, or other form of financial assistance, offered by an institution, the terms of which require the recipient to participate in a program of intercollegiate athletics at the institution in order to be eligible to receive such assistance. If a student receives athletically-related student aid for more than one sport, that student is counted only once using the following hierarchy: football, basketball, cross-country/track, all other sports.

<u>CIP (Classification of Instructional Programs)</u>: a classification of program terms and descriptions reflecting the manner in which institutional instructional program data are organized, collected, and reported. Developed by the U.S. Department of Education's National Center for Education Statistics (NCES). Used to report by field of study.

FTE (Full-Time-Equivalent) Enrollment: The numerator used to compute full-time equivalent (FTE) enrollment is the total semester hours (either full-year or semester) in which all applicable students are enrolled. The denominator is the number of semester credit hours a full-time student needs to earn in one year. The annual FTE denominator for undergraduate enrollment is 30, based on the estimate that it takes a full-time student 30 hours per year to complete a 120-hour baccalaureate degree program in 4 years. Graduate students are expected to take 12 credit hours per semester or 24 credit hours per year.

<u>Fall Cohort</u>: includes students who enrolled full-time, were degree/certificate-seeking, and were classified as first-time freshmen at an institution during the fall term. Academic activity of the cohort group is tracked for years to determine persistence rates and graduation rates.

<u>First-Time Freshman</u>: an entering freshman who has never attended any college. Includes students enrolled in the fall term who attended college for the first time in the prior summer term. Also includes students who entered with advanced standing (college credits earned before graduation from high school).

<u>Full-Time Student</u>: at the undergraduate level, a student enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more contact hours a week each term.

<u>Graduation Rate</u>: the percentage of students from the original fall cohort who completed a degree program within 150 percent of the normal time. If the degree program normally takes four years to complete, a student would be counted as a completer if he/she received a degree within six years.

Non-Credit Course: a course or activity having no credit applicable toward a degree, diploma, certificate, or other formal award.

<u>Number of Enrollments</u>: This is the cumulative headcount of students enrolled during each semester of the year. It is a duplicated headcount; that is, a student enrolled for the summer, fall, and spring semesters would be counted three times.

Persistence Rate: the percentage of students from the original cohort group who are enrolled during the following year.

<u>Unclassified Student</u>: a student who is enrolled for credit, but not pursuing a degree or formal award.

<u>Unduplicated Headcount</u>: In the unduplicated headcount, a student is counted only once for the full-year time period or for the fall semester. Headcount is unduplicated only within the institution. Consequently, a student who takes courses at two separate institutions would be counted at both institutions. During the time period under consideration, students are assigned to the class level in which they enrolled during their last active semester (freshman/sophomore-lower division, junior/senior-upper division, graduate, and professional).

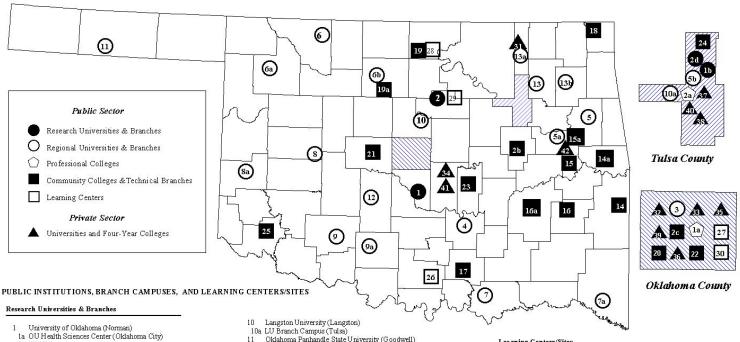

Oklahoma State Regents for Higher Education Student Data Report 2003-04

Section I: Oklahoma Higher Education

Higher Education in Oklahoma

- There are 25 public higher education institutions, 20 branch campuses, and 5 learning centers in Oklahoma.
- Oklahoma has 12 private higher education institutions that are regionally accredited.

HIGHER EDUCATION IN OKLAHOMA

- 1b OU-Tulsa
- 2 Oklahoma State University (Stillwater)
- 2a OSU Center for Health Sciences (Tulsa)
- 2b OSU Technical Branch Okmulgee
- 2c OSU Oklahoma City
- 2d OSU Tulsa

Regional Universities & Branches

- University of Central Oklahoma (Edmond)
- East Central University (Ada)
- Northeastern State University (Tahlequah)
- 5a NSU Branch Campus (Muskogee)
- 5b NSU Branch Campus (Broken Arrow)
- 6 Northwestern Oklahoma State University (Alva) 6a NWOSU Branch Campus (Woodward)
- 6b NWOSU Branch Campus (Enid)
- 7 Southeastern Oklahoma State University (Durant) 7a SEOSU Branch Campus (McCurtain County)
- 8 Southwestern Oklahoma State University (Weatherford)
- 8a SWOSU Branch Campus (Sayre)
- 9 Cameron University (Lawton)
- 9a CU Branch Campus (Duncan)

- University of Science & Arts of Oklahoma (Chickasa)
- Rogers State University (Claremore) 13a Rogers State University Bartlesville Facility
- 13b Rogers State University Pryor Facility

Community Colleges & Branches

- 14 Carl Albert State College (Poteau)
- 14a CASC Branch Campus (Sallisaw)
- 15 Connors State College (Warner) 15a Connors Branch Campus (Muskogee)
- 16 Eastern Oklahoma State College (Wilburton)
- 16a EOSC Branch Campus (McAlester)
- Murray State College (Tishomizo)
 Northeastern Oklahoma A &M College (Miami)
- Northern Oklahoma College (Tonkawa)
- 19a NOC Branch Campus (Enid)
- 20 Oklahoma City Community College (Oklahoma City)
- Redlands Community College (El Reno)
- Rose State College (Midwest City) 23 Seminole State College (Seminole)
- Tulsa Community College (Tulsa)
- Western Oklahoma State College (Altus)

Learning Centers/Sites

- 26 Ardmore Higher Education Program (Ardmore)
- Langston University (Oklahoma City)
- Northern Oklahoma College (Ponca City)
- Northern Oklahoma College (Stillwater)
- Greater Oklahoma City Downtown Consortium (Oklahoma City)

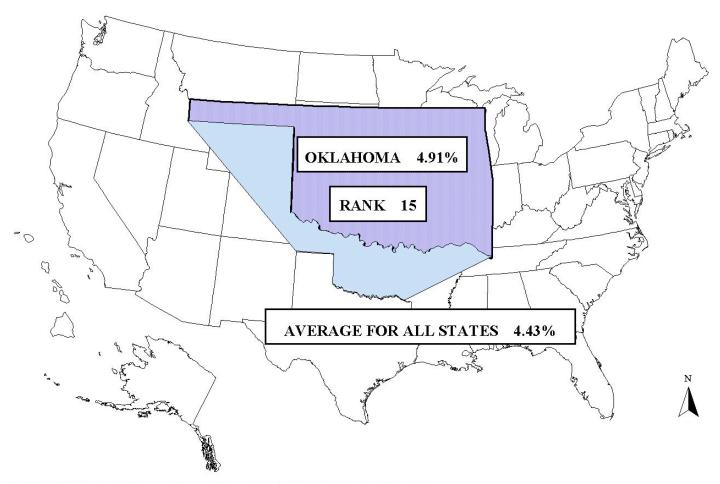

PRIVATE UNIVERSITIES & COLLEGES

Universities & Four-Year Colleges

- 31 Oklahoma Wesleyan University (Bartlesville)
- Southern Nazarene University (Bethany)
- 33 Mid-America Bible College (Oklahoma City)
 34 Oklahoma Baptist University (Shawnee)
- Oklahoma Christian University (Oklahoma City) 🛘
- Oklahoma City University (Oklahoma City)
- 37 Oral Roberts University (Tulsa)
- 38 Phillips Theological Seminary (Tulsa)
- Southwestern Christian University (Bethany)
- 40 The University of Tulsa (Tulsa)
- St. Gregory's University (Shawnee)
- 42 Bacone College (Muskogee)

Map prepared by Oklahoma State Regents for Higher Education: June 2005

PUBLIC HIGHER EDUCATION ENROLLMENT AS A PERCENTAGE OF TOTAL POPULATION: FALL 2002

SOURCE: U.S. Department of Commerce, Bureau of Census, State Population Estimates, Annual Time Series, December 2004. U.S. Department of Education, National Center for Education Statistics, Enrollment in Postsecondary Institutions Fall 2002, January 2005.

Public Enrollments and State Population

The following tables and graphs are based on the most recent national data available, fall 2002.

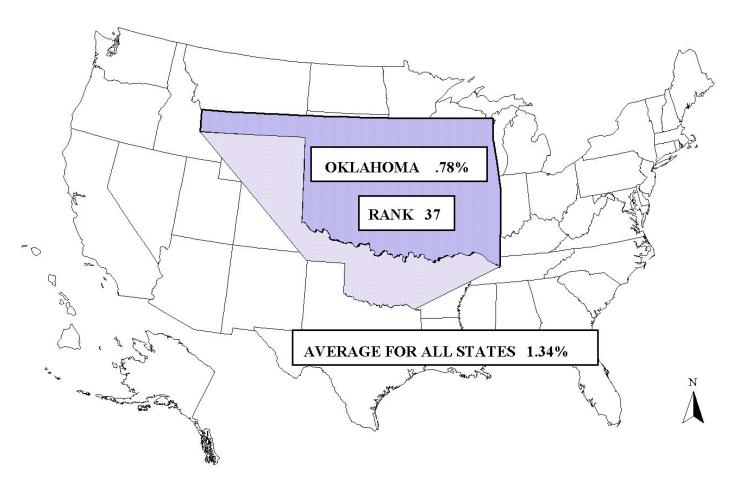

- In fall 2002, Oklahoma had 4.91 percent of the state population enrolled in public higher education. This compares to 4.71 percent in fall 2001, and 4.45 percent in fall 2000.
- Compared to other states, Oklahoma ranked 15th in the nation. This compares to 14th in fall 2001, and 17th in fall 2000.

PUBLIC HIGHER EDUCATION INSTITUTION ENROLLMENTS AS A PERCENTAGE OF STATE POPULATION RANKED BY STATE: FALL 2002

PRIVATE HIGHER EDUCATION ENROLLMENT AS A PERCENTAGE OF TOTAL POPULATION: FALL 2002

SOURCE: U.S. Department of Commerce, Bureau of Census, State Population Estimates, Annual Time Series, December 2004. U.S. Department of Education, National Center for Education Statistics, Enrollment in Postsecondary Institutions Fall 2002, January 2005.

Private Enrollments and State Population

The following tables and graphs are based on the most recent national data available, fall 2002.

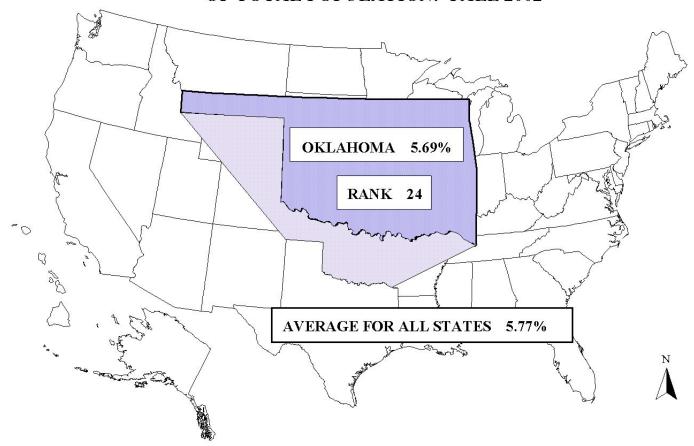

- In fall 2002, Oklahoma had 0.78 percent of the state population enrolled in private higher education. This compares to 0.76 percent in fall 2001 and 0.70 percent in fall 2000.
- Compared to other states, Oklahoma ranked 37th in the nation. Oklahoma ranked 39th in fall 2001 and 40th in fall 2000.

PRIVATE HIGHER EDUCATION INSTITUTION ENROLLMENTS AS A PERCENTAGE OF STATE POPULATION RANKED BY STATE: FALL 2002

Public and Private Enrollments and State Population

The following tables and graphs are based on the most recent national data available, fall 2002.

- In fall 2002, Oklahoma had 5.69 percent of the state population enrolled in higher education. This compares to 5.47 percent in fall 2001 and 5.15 percent in fall 2000.
- Compared to other states, Oklahoma ranked 24th in the nation. Oklahoma ranked 25th in fall 2001, and ranked 28th in fall 2000.

Enrollments in Higher Education by Race

The following is based on the most recent national data available, fall 2002.

• In Oklahoma, Native Americans had the highest minority percentage of higher education enrollment (9.3 percent). Nationally, Blacks had the highest minority percentage of higher education enrollment (11.2 percent). Oklahoma is below the national percentages in Black, Asian, and Hispanic minority enrollments.

PERCENT OF STUDENT ENROLLMENTS BY RACE IN OKLAHOMA AND THE UNITED STATES FALL 2002

NOTE: In previous years of the Student Data Report, this chart compared enrollments to population by race. Due to changes in census data, this comparison is no longer possible.

Oklahoma State Regents for Higher Education Student Data Report 2003-04

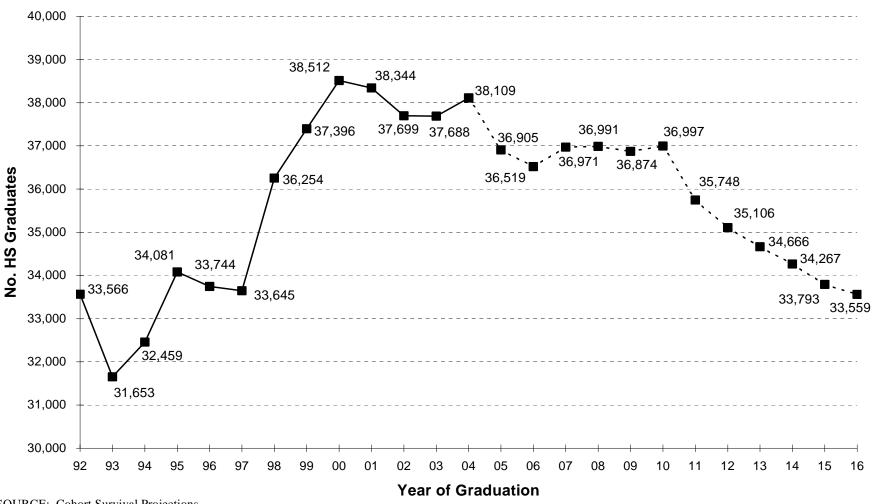

Section II: Student Preparation

Oklahoma High School Graduates 1991-92 through 2014-16

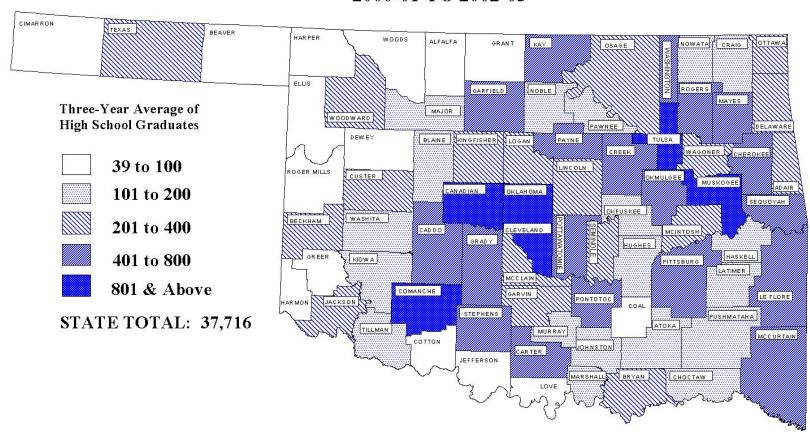

This graph shows Oklahoma public and private high school graduates from 1991-92 to 2015-16. From 1991-92 through 2003-04, the actual number of graduates is shown. The projected period is 2004-05 through 2015-16. On the whole, this projection method yields a gradual decline from 38,109 in 2003-04 to 36,519 in 2005-06, followed by a peak of 36,997 in 2009-10, then a steeper decline to 33,559 in 2015-16.

This cohort-survival method projects enrollments and graduates based on the retention or survival of class cohorts from one grade level to the next. Historical data were collected for elementary enrollments, secondary enrollments, and high school graduates for the period 1991-92 through 2003-04. The survival of each cohort, from first grade through graduation, is measured by progression ratios: the change between the number of students enrolled in a grade for a single year and those students who continue to the next grade the following year, (e.g., 2nd Graders 2004 / 1st Graders 2003 = Progression Ratio 2004 [P.R.2004]). Historical Progression Ratios were averaged and a continuous average was applied to each subsequent <u>projected</u> year and class, (e.g., P.R. 1992 + P.R. 1993....+ P.R. 2004 / 11 = P.R. 2005). <u>Projected</u> student enrollment numbers for successive grades are then calculated by multiplying enrollments per grade by the Progression Ratio, (e.g., 1st Graders 2004 [actual] x P.R. 2005 = 2nd Graders 2005 [projected]).

ACT Scores by Race and Curriculum

- In 2001, Oklahoma was 0.5 of a point below the national ACT mean scores. In 2002, Oklahoma narrowed the gap to 0.3 of a point below the national ACT score. In 2004, Oklahoma remained 0.3 of a point below the national ACT score.
- In Oklahoma, those students taking the core curriculum have consistently scored higher on the ACT than those who did not take the core curriculum. This relationship holds true across the different races.

Oklahoma State Regents for Higher Education Student Data Report 2003-04

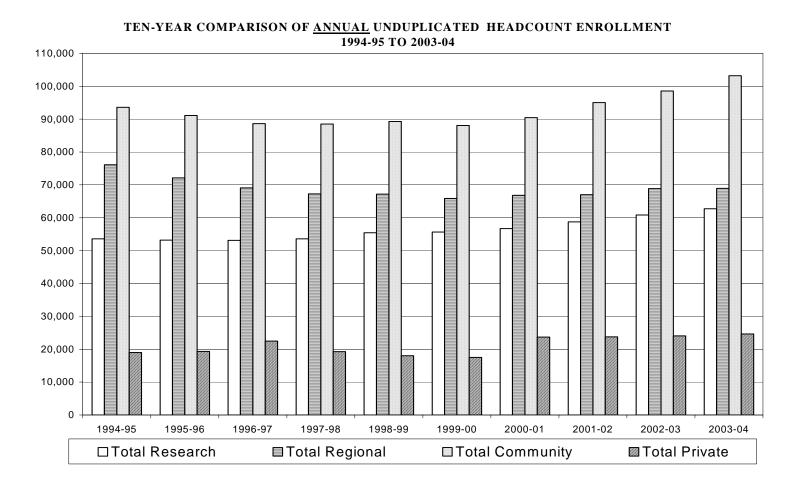

Section III: Enrollments

Ten-Year Comparison of Annual Unduplicated Headcount Enrollment

The following tables show the total number of unduplicated students enrolled in 41 of the 42 Oklahoma higher education institutions in 2003-04. One private institution did not report.

This table and graph compare <u>annual</u> unduplicated headcount for both public and private institutions for ten years. An <u>annual</u> unduplicated headcount counts each student only once for the academic year (summer, fall, and spring).

- Public higher education unduplicated headcount enrollment decreased from 223,280 in 1994-95 to 209,371 in 1997-98, then generally increased to 234,873 in 2003-04.
- Public higher education enrollment increased 5.2 percent overall during the 1994-95 to 2003-04 ten-year time period.

²RSU began offering bachelor's degrees in fall 2000.

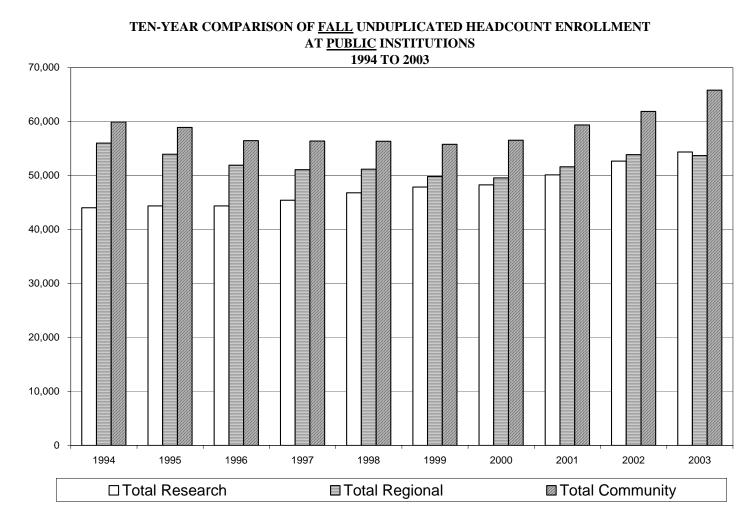

Ten-Year Comparison of Fall Unduplicated Headcount Enrollment at Public Institutions

The table and graph show 10 years of <u>fall</u> unduplicated headcount enrollment for the <u>public</u> institutions by research universities, regional universities, and community colleges. Students enrolled in more than one institution are attributed to only one institution.

• From fall 1994 to fall 2003, enrollments in the <u>public</u> institutions increased by 8.7 percent.

32

• Fall enrollments at research universities increased 23.5 percent over the ten-year timeframe. The regional universities decreased 4.1 percent. The community colleges increased 9.8 percent.

SOURCE: OCR 2300-2.3 Fall 2003, 5/26/05. OSU-CHS did not report Fall 2001 data; data are from Fall 2000. RSU began offering bachelor's degrees in fall 2000.

Annual Unduplicated Headcount Enrollment by Gender and Class Level

Annual Public Unduplicated Headcount Enrollment By Class Level

Senior

Graduate

Unclassified

Professional

The table and graph show the total number of unduplicated students enrolled in 41 of the 42 Oklahoma higher education institutions in 2003-04, distributed by class level and by gender. One private institution did not report.

- At the <u>public</u> institutions, the freshman class consisted of 77,293 students or 32.9 percent of the <u>public annual</u> unduplicated headcount in 2003-04, the sophomore class consisted of 58,953 students or 25.1 percent, the junior class consisted of 20,612 or 8.8 percent, and the senior class consisted of 37,775 students or 16.1 percent.
- At the <u>public</u> institutions, the graduate and professional class levels consisted of 19,653 students or 8.4 percent and 3,426 students or 1.5 percent, respectively.
- At the <u>public</u> institutions, females outnumbered males in 2003-04 by 57 percent to 43 percent. In 1962, males outnumbered females in Oklahoma higher education by 65 percent to 35 percent. In the fall of 1972, males outnumbered females by 60 percent to 40 percent.

Annual Headcount and FTE Enrollment by Division

The table and graph show headcount and full-time equivalent (FTE) enrollment for 2003-04 by division of study (lower, upper, graduate, and professional). The annual full-time equivalent undergraduate enrollment is calculated by dividing the total number of credit hours enrolled in by undergraduate students by 30 and dividing the total number of credit hours enrolled in by graduate and professional students by 24. The reason for using 30 and 24 is that a full-time undergraduate student must take 15 credit hours per semester or 30 credit hours per year to complete a bachelor's degree in four years. Graduate and professional students must take 12 credit hours per semester or 24 per year to complete most degrees on schedule.

- In 2003-04, <u>public</u> and <u>private</u> institutions had 259,505 students and 158,256 FTEs.
- Total <u>public</u> institutional headcount consisted of 147,145 (63 percent) lower division students, 61,627 (26 percent) upper division students, 22,675 (10 percent) graduate students, and 3,426 (2 percent) professional students.
- Total <u>public</u> institutional FTE consisted of 79,181 (57 percent) lower division FTEs, 43,725 (31 percent) upper division FTEs, 11,139 (8 percent) graduate FTEs, and 5,211 (4 percent) professional FTEs.

$\frac{\text{ANNUAL PUBLIC}}{\text{PUBLIC}} \text{ AND } \frac{\text{PRIVATE}}{\text{ENDERORS MADE PRIVATE}} \text{ HEADCOUNT AND FTE ENROLLMENT BY DIVISION } 2003-04$

NOTE: May contain unclassified students and concurrent high school enrollments.

^{*} Full-time equivalent (FTE): An annual FTE is calculated for an undergraduate by dividing the total number of credit hours enrolled by all undergraduate students by 30.

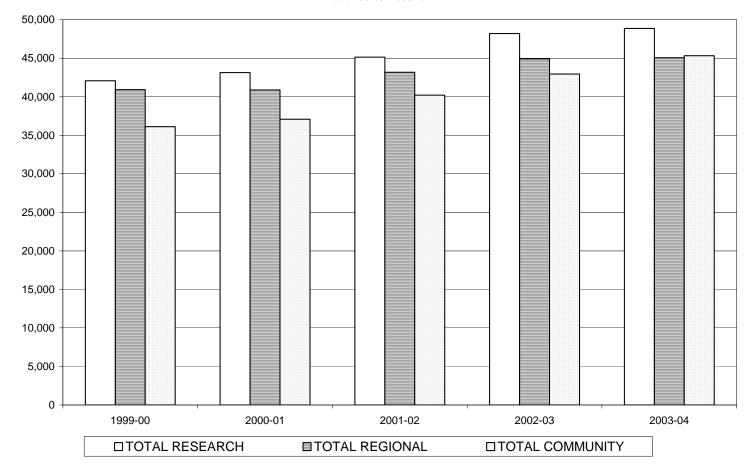

The graduate and professional FTE is calculated by dividing the total number of credit hours enrolled by all graduate and professional students by 24. Totals may not equal sums of columns due to rounding of calculations.

Five-Year Comparison of Annual Full-Time Equivalent (FTE) Enrollments

The table and graph show a five-year history with year-to-year comparisons of the annual FTE of all institutions.

- The <u>public</u> sector institutions have shown a 16.9 percent increase in <u>annual</u> FTE enrollments from 1999-00 to 2003-04 and a 2.3 percent increase from 2002-03 to 2003-04.
- The research universities had a 16.1 percent FTE increase from 1999-00 to 2003-04. Regional universities increased 10.1 percent and community colleges increased 25.5 percent.

The graduate and professional FTE is calculated by dividing the total number of credit hours enrolled by all graduate and professional students by 24. Totals may not equal sums of columns due to rounding of calculations.

 $^{^{2}}$ Did not report for 2001-02, data are from 2000-01.

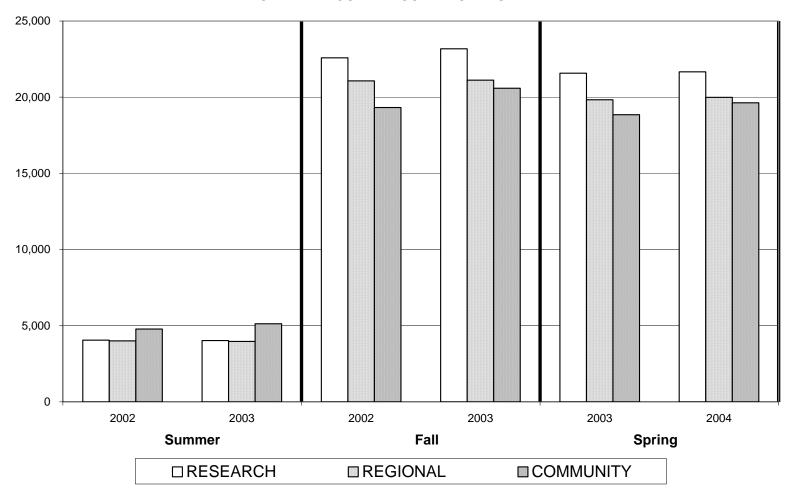

³ RSU began offering bachelor's degrees in fall 2000.

Annualized FTE at Public Institutions 2002-03 Compared to 2001-02

This table compares the <u>annualized</u> FTE enrollments in the <u>public</u> institutions in 2003-04 with the FTE enrollments in 2002-03 by semester and for the academic year.

• The public FTE for each semester during 2003-04 increased from 2002-03 levels. Public FTE increased 3,192 (2.3 percent) for the full-year 2003-04.

ANNUALIZED FTE BY SEMESTER AT <u>PUBLIC</u> INSTITUTIONS ONE-YEAR COMPARISON BY SEMESTER

NOTE: May contain concurrent high school enrollments.

¹ Full-time equivalent (FTE): An annual FTE is calculated for an undergraduate by dividing the total number of credit hours enrolled by all undergraduate students by 30.

The graduate and professional FTE is calculated by dividing the total number of credit hours enrolled by all graduate and professional students by 24. Totals may not equal sums of columns due to rounding of calculations.

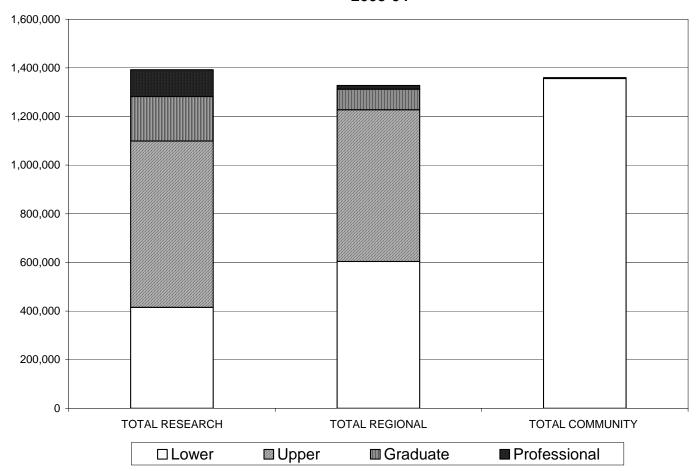

² Did not report for 2001-02, data are from 2000-01.

Annual Student Credit Hours by Division

The following graph and table describe <u>annual</u> student credit hours by the division in which the student is classified. For example, the lower division number reflects the number of credit hours in which freshman and sophomore students enrolled.

• Of the 4,079,585 total student credit hours produced in 2003-04 at <u>public</u> institutions, 2,375,438 (58.2 percent) were taken by lower division students, 1,311,745 (32.2 percent) were taken by upper division students, 267,332 (6.6 percent) were taken by graduate students, and 125,070 (3.1 percent) were taken by professional students.

¹ Division is the level at which the student is classified; may not be the level at which the credit hour was generated.

Unduplicated Fall Headcount Enrollment by Level, Division, and Credit Hours

The following graphs and tables describe the fall 2003 unduplicated headcount enrollment by undergraduate and graduate level and by credit hours. Undergraduate level is further disaggregated by lower and upper division.

• The largest percentage of undergraduates at the <u>public</u> institutions (30.3 percent) enrolled in 13 to 15 credit hours in fall 2003: 47.6 percent of the research university students, 35.2 percent of the regional university students, and 16.4 percent of the community college students. The highest percentage (23.9 percent) of community college students enrolled in 10 to 12 credit hours.

At the graduate level, more students at the research universities (31.6 percent) and at the regional universities (34.8 percent) enrolled in 4 to 6 credit hours.

Annual Unduplicated Enrollment by Field of Study and Class Level

The following tables describe the number of unduplicated headcount enrollments in higher education institutions in 2003-04 by field of study and by class level.

- At the public institutions, Business Management was the most popular field of study in 2003-04 with 26,171 (11.1 percent) students enrolled. Education was second with 23,604 (10.1 percent) students enrolled. In 2002-03 and 2001-02, Business Management also was first and Education was second. These have been the top two fields since the first Student Data Report was published in 1982-83.
- At the private institutions, Business Management was the most popular field of study in 2003-04 with 5,355 (21.7 percent) students enrolled. Education was second with 2,227 (9.0 percent) students enrolled. It was the same in 2002-03 and 2001-02, and these have been the top two fields since the first Student Data Report was published in 1982-83.

Unduplicated Headcount Enrollments at Public Institutions 2003-04 Compared to 2002-03

This table compares 2003-04 and 2002-03 unduplicated headcount enrollments at the <u>public</u> institutions by semester.

- In 2003-04, all three semesters experienced increases from the previous year, resulting in a State System increase of 6,624 students (2.9 percent) for the year. Over the past five years, public enrollment has increased 12.1 percent.
- Three public institutions with the largest increases were Oklahoma City Community College (1,687 students, 9.4 percent), Rose State College (1,194, 9.5 percent), and the University of Oklahoma (1,104 students, 3.6 percent).
- The University of Central Oklahoma had the largest decrease in enrollment, with 757 fewer students than the previous year.
- From 2002-03 to 2003-04, research universities' enrollment increased by a total of 1,892 students (3.1 percent); regional universities' enrollment increased by a total of 78 students (0.1 percent); and community colleges increased by a total of 4,654 (4.7 percent).

Concurrent High School Enrollment at Public Institutions

This table contains data from <u>public</u> higher education institutions authorized to concurrently enroll high school students in higher education. These students also are included in the other enrollment tables.

- In 2003-04, 3,994 high school students were reported as concurrently enrolled in at least one college course. These students enrolled for a total of 26,960 credit hours or 899 FTEs.
- In 2002-03, 3,667 high school students were concurrently enrolled for a total of 23,887 credit hours or 796 FTEs.

SOURCE: UDSENR11, 6/6/05.

NOTE: FTE may not total due to rounding of calculated values.

^{**} Did not report.

^{***} Full-year is unduplicated between semesters.

^{*} Full-time equivalent (FTE): An annual FTE is calculated for an undergraduate by dividing the total number of credit hours enrolled by all undergraduate students by 30.

Five-Year Comparison of Full-Time and Part-Time Enrollments

This table shows a five-year history of fall semester full-time and part-time enrollments at all public institutions. In the fall semester, an undergraduate student must be enrolled in at least 12 credit hours and a graduate student must be enrolled in at least 9 credit hours to be classified as full-time.

• Full-time enrollment at public institutions increased from 91,483 in fall 1999 to 108,855 in fall 2003, or 19 percent. Part-time enrollment increased from 61,340 in fall 1999 to 65,077 in fall 2003, or 6 percent.

² RSU began offering bachelor's degrees fall 2000.

Five-Year Comparison of Full-Time and Part-Time Percentages

This table shows a five-year history of fall semester full-time and part-time enrollment percentages at all public institutions. In the fall semester, an undergraduate student must be enrolled in at least 12 credit hours and a graduate student must be enrolled in at least 9 credit hours to be classified as full-time.

• The full-time enrollment percentage at public institutions increased from 59.9 percent in fall 1999 to 62.6 percent in fall 2003. The part-time enrollment percentage decreased from 40.1 percent in fall 1999 to 37.4 percent in fall 2003.

² RSU began offering bachelor's degrees fall 2000.

Non-Credit Activity

The following tables describe the nature and level of non-credit activity provided by Oklahoma <u>public</u> colleges and universities that reported offering non-credit activities. The information provided indicates a range of activities and groups served. Participant contacts indicate the number of participants recorded as attending and participating in non-credit activities; therefore, an individual citizen may be counted in more than one activity. In some activities, participant contacts may be estimated, as in large lectures. Non-credit courses and activities are provided on a self-supporting basis and are not reported for state funding.

- During 2003-04, 23 public institutions reported participant contacts totaling 253,925 in non-credit activities at 2 research universities, 9 regional universities, and 12 community colleges. This compares to 17 public institutions reporting 252,058 participant contacts for 1999-00.
- Between 2001-02 and 2003-04, non-credit activity participants decreased 88,492 (41.0 percent) at the research universities and 21,929 (28.9 percent) at the community colleges. Non-credit activity participants increased 19,778 (37.5 percent) at the regional universities.
- The <u>Group Served</u> table reflects the reporting institution's determination of the group to which an activity was primarily directed. According to the table, the major groups served were the government, educational institutions, and community agencies. These were also among the major groups served during 2001-02 and 2002-03. Government, Education, Military, Labor, and Community Agency groups experienced increases in non-credit activity from 2001-02 to 2003-04.
- The <u>Format</u> table shows that workshops and courses are the most common formats for non-credit activities. During 2003-04, workshops decreased 6.9 percent from 2001-02, while courses increased 1.1 percent, although both remained among the three most popular formats.
- The four counties where the most participation took place were Cleveland, Oklahoma, Commanche, and Tulsa counties. From 2001-02, Cleveland county decreased 58.1 percent, Oklahoma county decreased 15.6 percent, Commanche county increased 108.3 percent, and Tulsa county declined 19.8 percent.
- The <u>Major Focus of Activity</u> table reflects the reporting institution's determination of the primary focus of the activity. According to the table, most non-credit activity was focused toward education, health and safety, upgrading skills, and arts and humanities.
- The Method of Delivery table indicates that 95.7 percent of non-credit activity participants were traditionally enrolled, while 1.3 percent participated in computer-based courses.

Oklahoma State Regents for Higher Education Student Data Report 2003-04

Section IV: Access to Higher Education

Geographic Origin of Students in Public and Private Institutions

The following three tables describe the geographic origin of students enrolled in Oklahoma higher education.

- Tulsa, Oklahoma, and Cleveland counties were the top three counties of origin for public institutions.
- Tulsa, Oklahoma, and Pottawatomie counties were the top three counties of origin for private institutions.
- For public institutions, Texas, Kansas, Arkansas, Missouri, and California were the top five states of origin for out-of-state students.
- For private institutions, Texas, Kansas, Missouri, Arkansas, and California were the top five states of origin for out-of-state students.
- India, Japan, and China were the top countries of origin for public institutions, while Singapore, India, and Taiwan were the top countries of origin for private institutions.

Direct from High School-to-College-Going Rate

The first-time freshmen who entered college directly from high school are estimated from those students who were 17 to 19 years old and were Oklahoma high school graduates. Each category on the map represents approximately one-third of the 77 counties in Oklahoma.

• For 2001-02 through 2003-04, the statewide average college-going rate direct from high school was 57.5 percent.

SOURCE: Oklahoma High School Indicators Project, High School to College-Going Rate, OSRHE, February 2005.

NOTE: First-time freshmen may not sum to total because the total includes unknown high schools that do not relate back to any particular Oklahoma county. Other slight discrepancies may occur because of rounding.

First-Time Freshman Enrollments at Public Institutions

- The number of new freshmen increased 8.9 percent from 28,184 in fall 2002 to 30,697 in fall 2003.
- Research university fall first-time freshmen increased 2.7 percent from 6,983 to 7,175.
- Regional university fall first-time freshmen increased 1.3 percent from 8,662 to 8,778.
- Community college fall first-time freshmen increased 17.6 percent from 12,539 to 14,744.

^{*} RSU began offering bachelor's degrees in fall 2000.

Enrollment in Public Institutions by Race, Gender, Class Level, and Full-Time/Part-Time Status

- In fall 2003, full-time students comprised 62.6 percent of the total headcount enrollment, and part-time students made up the remaining 37.4 percent.
- Most undergraduate students enrolled as full-time students (65.0 percent) and most graduate students enrolled as part-time students (64.7 percent).
- Both male and female students enrolled more often as full-time students (66.1 percent and 59.9 percent, respectively).
- Women outnumbered men in Black, Native American, Asian, Hispanic, and White enrollments. Women comprised 59.9 percent of the Black enrollments, while 40.1 percent were men. Native American enrollments consisted of 60.4 percent women to 39.6 percent men. Women comprised 52.8 percent of Asian enrollments, while 47.2 percent were men. Women made up 56.5 percent of Hispanic enrollments, and men made up 43.5 percent. Men outnumbered women in the Nonresident Alien category by comprising 59.4 percent of the enrollment.

^{*} Unclassified Student: a student who is enrolled for credit, but not pursuing a degree or formal award.

Unduplicated Headcount Student Enrollments at Public Institutions by Race and Gender

- Overall, there were more women than men enrolled in Oklahoma public institutions for fall 2003. Women held 56.8 percent of the total enrollments, while males held 43.2 percent.
- This holds true for all race categories, except Nonresident Alien.

Percentage of Student Enrollment by Race Within the State System

This table distributes the fall 2003 student enrollments by race among the State System institutions.

- Nonresident Aliens and Asians had the majority of their enrollment in research universities (58.9 percent and 47.0 percent, respectively).
- Native Americans had the largest percentage of their enrollment in the regional tier (40.5 percent).
- For Blacks, Hispanics and Whites, enrollment in community colleges made up the largest percentage of their total enrollments (41.4, 41.6 and 38.8 percent respectively).

Comparison of Fall Headcount Enrollments of Male Students

• There was an increase in enrollment for male students from fall 1994 to fall 2003. The research universities experienced a 14.8 percent increase in male enrollments for this time frame (from 23,546 to 27,025). Enrollment at regional universities decreased approximately 4.4 percent while community colleges have seen an increase of 5.2 percent.

Ten-Year Comparison of Fall Headcount Enrollments of Male and Female Students

Comparison of Fall Headcount Enrollments of Female Students

• Female participation in higher education has shown an increase since 1994. Between fall 1994 and fall 2003, headcount enrollments for females increased from 88,551 to 98,747. The regional institutions showed the only decline in enrollments (female enrollments have declined from 32,833 in fall 1994 to 31,564 in fall 2003).

Comparison of Fall Headcount Enrollments for Native American Students

• Native American enrollments at the research and community college tiers increased every year from fall 1994 to fall 2003. Native American enrollments at the regional tier experienced a slight decline in 1995 and 1996, but have generally increased over the tenyear period. The net increase for all public institutions was 5,415 students.

<u>Ten-year History of the Mean Age of Students Enrolled in Oklahoma Public Institutions by Gender, Race, Class Level, and Status</u>

This table is a ten-year history of the mean age of students enrolled in the public system. The table tracks the mean age of students enrolled in higher education by race, gender, class level and attendance status.

- The mean age of students decreased in all race categories except non-resident alien with an overall decrease of 1.25 years from 27.72 to 26.47 during the ten-year period.
- The mean age of females and males decreased from 28.60 to 27.17 and 26.63 to 25.56, respectively. In fall 2003, the average age of females enrolled was 1.61 years higher than that of males.
- The greatest increase by class level was in the freshman category where the mean age increased slightly from fall 1994 to fall 2003. All other levels decreased.

NOTE: May contain first-time unclassified students and concurrent high school enrollments.

Percent First-Time Freshmen in Public Institutions by Age

• This graph provides the percent of first-time freshmen in public institutions by age for fall 2003. This information used in conjunction with the cohort-survival projections may be useful for institutions like The University of Oklahoma which had approximately 98 percent of its first-time freshmen between 17 and 19 years of age in fall 2003. Community colleges would find these projections less useful since a smaller percentage of their first-time freshmen were between 17 and 19 years of age in fall 2003.

PERCENT OF FIRST-TIME FRESHMEN IN <u>PUBLIC</u> INSTITUTIONS BY AGE FALL 2003

Five-year History of Students Receiving Financial Aid

This table reflects the unduplicated recipients for each financial aid category as a percentage of the total unduplicated headcount enrollment at public institutions for five twelve-month time periods.

- In 1999-00, 50.9 percent of all unduplicated students received at least one form of financial aid. By 2003-04, this percentage rose to 56.8, which indicates that more than half of the unduplicated students received some form of financial aid. All categories of financial aid increased in unduplicated recipients since 1950.
- In 2003-04, grants were the most common form of financial aid received (39.0 percent), followed by loans and scholarships (29.7 and 13.0 percent, respectively).

PERCENT OF TOTAL UNDUPLICATED STUDENTS IN <u>PUBLIC</u> INSTITUTIONS RECEIVING FINANCIAL AID BY CATEGORY OVER FIVE YEARS

TYPE OF AID	1999-00	2000-01	2001-02	2002-03	2003-04
GRANTS	36.0%	35.8%	37.1%	37.7%	39.0%
LOANS	25.1%	24.8%	25.8%	25.6%	29.7%
SCHOLARSHIPS	12.0%	12.4%	12.4%	12.9%	13.0%
EMPLOYMENT	8.0%	8.1%	7.7%	6.7%	7.9%
ALL AID	50.9%	54.2%	52.9%	54.6%	56.8%

Financial Aid Recipients Compared to Enrollment

This table shows unduplicated financial aid recipients as a percentage of unduplicated headcount enrollment for each public institution. It also shows the percentage of total public system financial aid recipients per institution and percentage of total public system enrollment per institution.

• Community colleges have the smallest percentage of their student body receiving aid (45.3 percent) while contributing the largest percentage of students enrolled in the State System. Research universities have the largest percentage of students receiving financial aid (68.6 percent) followed by regional universities (67.4 percent). All tiers have a higher proportion of students receiving aid than the proportion of total students enrolled in the State System.

Transfer Activity of Degree-Seeking Students in the Oklahoma State System

The following information describes a cohort flow methodology that tracks first-time, degree-seeking freshmen (full-time and part-time) from the fall semester of one academic year into the next full academic year. Students who are considered first-time transfers include immediate transfers and those who delay transfer for only one year.

- <u>Immediate transfer</u> a student who was enrolled the previous academic year at another Oklahoma institution of higher education and transferred without a break in enrollment to the current institution.
- <u>Delay transfer</u> a student who was not enrolled the previous academic year, but transferred hours from another institution.

Transfer of Degree-Seeking Students by Race and Gender

- Both males and females had similar transfer patterns; males transferred from two-year to four-year institutions at a rate of 30 percent, while females transferred at a rate of 29 percent. Both males and females transferred from four-year to two-year institutions at a rate of 27 percent.
- The Non-resident Alien, Asian, and White categories had the highest percentage of student transfers from two-year to four-year institutions (79 percent, 45 percent, and 30 percent, respectively). Native American and Hispanic categories had the highest percentage of transfers from four-year to two-year institutions (31 percent and 29 percent, respectively).

Transfer of Community College Degree-Seeking Students to Public Research or Regional Universities

- From 1999-00 to 2003-04, the percentage of students who began as degree-seeking freshmen in community colleges and transferred to a public research or regional institution within six years increased from 30.6 percent to 35.3 percent.
- The percentage of public two-year to four-year transfer students who earned a bachelor's degree within six years increased from 17.8 percent to 18.0 percent from 1999-00 to 2003-04.

Student Transfer Activity

The following graph and table describe the transfer of the fall 2001 degree-seeking freshman cohort as of spring 2004. Additional tables by full-time/part-time status, race, and gender are available upon request.

• For fifteen of the public institutions, more students transferred "from other public institutions" than "to other public institutions" which would be considered a net gain for those institutions.

Oklahoma State Regents for Higher Education Student Data Report 2003-04

Section V: Outcomes

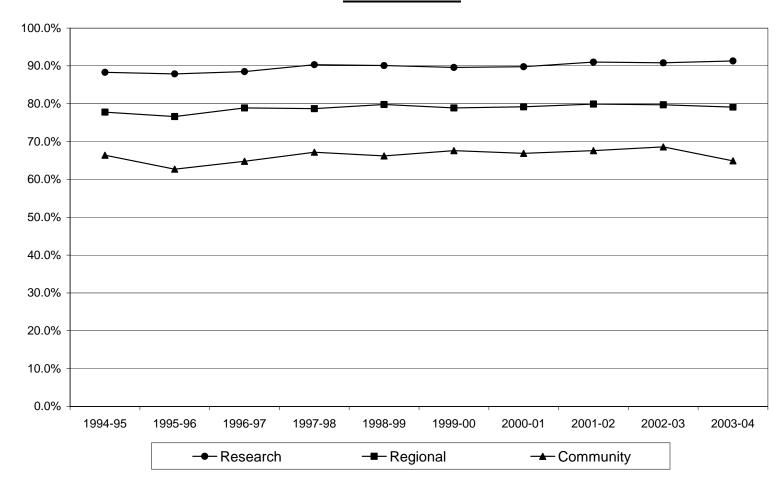

<u>First-Year Persistence Rates First-Time Full-Time Freshmen Within the State</u>

110

The following graph and table show a 10-year summary of persistence rates for the fall cohorts within the state, that is, new freshmen who enrolled at the same or another Oklahoma higher education institution the following year.

• From 1994-95 to 2003-04, persistence rates (within the state) for new freshmen increased from 88.3 to 91.3 percent at the research universities, increased from 77.8 percent to 79.1 percent at the regional universities, and decreased from 66.4 to 64.9 percent at the community colleges. Generally, persistence rates have increased after a low point in 1995-96.

SOURCE: 1995-96 and 1996-97 rates from OSRHE Unitized Data System (UDS); rates since 1997-98 from

 $\hbox{U.S. Department of Education IPEDS Graduation Rate Survey}.$

N/A: Data not available

NOTE: The tier graduation rates are calculated by dividing the total number of graduates by the total number of fall first-time, full-time degree-seeking students at all of the institutions in the tier.

^{*} Institution began offering 4-year degrees fall 2000.

Graduation Rates of Athletic Scholarship Students

The following tables show a summary of graduation rates for the fall <u>athletic</u> cohorts within the institution, that is, new freshmen receiving athletic assistance who graduated from the Oklahoma higher education institution where they began their education. The graduation rates are six-year rates for research and regional universities, and three-year rates for community colleges. Tables for all athletes, male athletes, and female athletes are included.

- From 2001-02 to 2003-04, six-year graduation rates for all athletes in all sports increased from 57.6 percent to 63.2 percent at the research universities, and decreased from 45.4 percent to 33.8 percent at the regional universities. At community colleges, three-year graduation rates for all freshman athletes in all sports increased from 32.0 percent to 34.4 percent.
- From 2001-02 to 2003-04, six-year graduation rates for male athletes in all sports increased from 49.4 percent to 61.7 percent at the research universities, and decreased from 28.8 percent to 27.8 percent at the regional universities. At community colleges, three-year graduation rates for male freshman athletes in all sports increased from 23.5 percent to 32.8 percent.
- From 2001-02 to 2003-04, six-year graduation rates for female athletes in all sports decreased from 72.3 percent to 65.4 percent at the research universities, and increased from 43.6 percent to 44.1 percent at the regional universities. At community colleges, three-year graduation rates for female athletes in all sports decreased from 37.1 percent to 36.4 percent.
