# Oklahoma State Regents for Higher Education Student Data Report 2005-06 

## Introduction

The Student Data Report for 2005-06 is the 24th annual comprehensive publication of student data derived from the Oklahoma State Regents' Unitized Data System (UDS), which has been in place since 1977. Over time, the Student Data Report has developed into a useful policy and planning tool. Each semester, approximately 75 data elements are gathered for each student (a person who enrolled, had a class/grade action, and paid fees) in Oklahoma higher education. From these data, the UDS constructs state and federal reports and State Regents’ studies.

The annual Student Data Report uses the UDS to produce many of the primary measures of student involvement in higher education such as movement into college, enrollments, student transfer, persistence, and semester credit hours. The enclosed tables and figures are intended for use by public officials, institutional administrators, faculty, staff, and regents in the development of higher education plans and programs.

In 2005-06, there were 30 data reporting entities, institutions, and branch campuses in The Oklahoma State System for Higher Education. The University of Oklahoma Health Sciences Center and Oklahoma State University's Center for Health Sciences in Tulsa, Technical Branch in Okmulgee, and OSUOklahoma City are reported as individual institutions. The enrollments for all other entities were reported with the parent institution. Students and courses located at the Ardmore Higher Education Program, Greater Oklahoma City Downtown Consortium, OSU-Tulsa, as well as other learning sites were reported with the institution of record or the institution that taught the courses. In 2005-06, some of the private institutions did not participate in the UDS, thus grand totals including private institutions are not complete.

The enclosed tables and figures are summaries of more comprehensive and detailed data reports. For example, most of this information can be provided by race and gender. Thus, the Student Data Report also serves as an index to sources of additional data for further study that are available upon request. Since the UDS is continuously edited, reports generated at different times or using different computer programs may produce slightly different populations. If comparisons between tables are made, it is recommended that the user check the grand totals as well as table headings and footnotes before making specific comparisons.

## DEFINITIONS

Athletically-Related Student Aid: any scholarship, grant, or other form of financial assistance, offered by an institution, the terms of which require the recipient to participate in a program of intercollegiate athletics at the institution in order to be eligible to receive such assistance. If a student receives athletically-related student aid for more than one sport, that student is counted only once using the following hierarchy: football, basketball, baseball, cross-country/track, all other sports.

CIP (Classification of Instructional Programs): a classification of program terms and descriptions reflecting the manner in which institutional instructional program data are organized, collected, and reported. Developed by the U.S. Department of Education's National Center for Education Statistics (NCES). Used to report by field of study.

FTE (Full-Time-Equivalent) Enrollment: The numerator used to compute full-time equivalent (FTE) enrollment is the total semester hours (either fullyear or semester) in which all applicable students are enrolled. The denominator is the number of semester credit hours a full-time student needs to earn in one year. The annual FTE denominator for undergraduate enrollment is 30 , based on the estimate that it takes a full-time student 30 hours per year to complete a 120-hour baccalaureate degree program in 4 years. Graduate students are expected to take 12 credit hours per semester or 24 credit hours per year.

Fall Cohort: includes students who enrolled full-time, were degree/certificate-seeking, and were classified as first-time freshmen at an institution during the fall term. Academic activity of the cohort group is tracked for years to determine persistence rates and graduation rates.

First-Time Freshman: an entering freshman who has never attended any college. Includes students enrolled in the fall term who attended college for the first time in the prior summer term. Also includes students who entered with advanced standing (college credits earned before graduation from high school).

Full-Time Student: at the undergraduate level, a student enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more contact hours a week each term.

Graduation Rate: the percentage of students from the original fall cohort who completed a degree program within 150 percent of the normal time. If the degree program normally takes four years to complete, a student would be counted as a completer if he/she received a degree within six years.

Non-Credit Course: a course or activity having no credit applicable toward a degree, diploma, certificate, or other formal award.
Number of Enrollments: This is the cumulative headcount of students enrolled during each semester of the year. It is a duplicated headcount; that is, a student enrolled for the summer, fall, and spring semesters would be counted three times.

Persistence Rate: the percentage of students from the original cohort group who are enrolled during the following year.
Unclassified Student: a student who is enrolled for credit, but not pursuing a degree or formal award.

Unduplicated Headcount: In the unduplicated headcount, a student is counted only once for the full-year time period or for the fall semester. Headcount is unduplicated only within the institution. Consequently, a student who takes courses at two separate institutions would be counted at both institutions. During the time period under consideration, students are assigned to the class level in which they enrolled during their last active semester (freshman/sophomore-lower division, junior/senior-upper division, graduate, and professional).

Oklahoma State Regents for Higher Education
Student Data Report
2005-06

## Section I: Oklahoma Higher Education

- There are 25 public higher education institutions, 20 branch campuses, and 5 learning centers in Oklahoma.
- Oklahoma has 12 private higher education institutions that are regionally accredited.

## HIGHER EDUCATION IN OKLAHOMA

PUBLIC HIGHER EDUCATION ENROLLMENT AS A PERCENTAGE OF TOTAL POPULATION: FALL 2003

## Public Enrollments and State Population

The following tables and graphs are based on the most recent national data available, fall 2003.

- In fall 2003, Oklahoma had 5.10 percent of the state population enrolled in public higher education. This compares to 4.91 percent in fall 2002, and 4.71 percent in fall 2001.
- Compared to other states, Oklahoma ranked $10^{\text {th }}$ in the nation. This compares to $15^{\text {th }}$ in fall 2002 , and $14^{\text {th }}$ in fall 2001.

## PUBLIC HIGHER EDUCATION INSTITUTION ENROLLMENTS AS A PERCENTAGE OF STATE POPULATION RANKED BY STATE FALL 2003

## Private Enrollments and State Population

The following tables and graphs are based on the most recent national data available, fall 2003.

- In fall 2003, Oklahoma had 0.83 percent of the state population enrolled in private higher education. This compares to 0.78 percent in fall 2002 and 0.76 percent in fall 2001.
- Compared to other states, Oklahoma ranked $37^{\text {th }}$ in the nation. Oklahoma ranked $37^{\text {th }}$ in fall 2002 and $39^{\text {th }}$ in fall 2001.

## PRIVATE HIGHER EDUCATION INSTITUTION ENROLLMENTS AS A PERCENTAGE OF STATE POPULATION RANKED BY STATE <br> FALL 2003

TOTAL HIGHER EDUCATION ENROLLMENT AS A PERCENTAGE OF TOTAL POPULATION: FALL 2003

## Public and Private Enrollments and State Population

The following tables and graphs are based on the most recent national data available, fall 2003.

- In fall 2003, Oklahoma had 5.93 percent of the state population enrolled in higher education. This compares to 5.69 percent in fall 2002 and 5.47 percent in fall 2001.
- Compared to other states, Oklahoma ranked $22^{\text {nd }}$ in the nation. Oklahoma ranked $24^{\text {th }}$ in fall 2002 , and ranked $25^{\text {th }}$ in fall 2001.

## PUBLIC AND PRIVATE HIGHER EDUCATION INSTITUTION ENROLLMENTS AS A PERCENTAGE OF STATE POPULATION RANKED BY STATE <br> FALL 2003

## Enrollments in Higher Education by Race

The following is based on the most recent national data available, fall 2003.

- In Oklahoma, Native Americans had the highest minority percentage of higher education enrollment (9.7 percent). Nationally, Blacks had the highest minority percentage of higher education enrollment (11.6 percent). Oklahoma is below the national percentages in Black, Asian, and Hispanic minority enrollments.

## PERCENT OF STUDENT ENROLLMENTS BY RACE IN OKLHOMA AND THE UNITED STATES FALL 2003

NOTE: In previous years of the Student Data Report, this chart compared enrollments to population by race. Due to changes in census data, this comparison is no longer possible.

Oklahoma State Regents for Higher Education
Student Data Report
2004-05

## Section II: Student Preparation

## Oklahoma High School Graduates 1993-94 through 2017-18

- This graph shows Oklahoma public and private high school graduates from 1993-94 to 2017-18. From 1993-94 through 2005-06, the actual number of graduates is shown. The projected period is 2006-07 through 2017-18. On the whole, this projection of high school graduates shows a gradual decline from 37,940 in 2005-06 to 37,896 in 2009-10, a steep decline to 35,321 in 2013-14, then a sharp rise to 37,269 in 2015-16.

This cohort-survival method projects enrollments and graduates based on the retention or survival of class cohorts from one grade level to the next. Historical data were collected for elementary enrollments, secondary enrollments, and high school graduates for the period 1993-94 through 2005-06. The survival of each cohort, from first grade through graduation, is measured by progression ratios: the change between the number of students enrolled in a grade for a single year and those students who continue to the next grade the following year, (e.g., 2nd Graders 2004 / 1st Graders 2003 = Progression Ratio 2004 [P.R.2004]). Historical Progression Ratios were averaged and a continuous average was applied to each subsequent projected year and class, (e.g., P.R. 1992 + P.R. 1993.... P.R. 2004 / 11 = P.R. 2005). Projected student enrollment numbers for successive grades are then calculated by multiplying enrollments per grade by the Progression Ratio, (e.g., 1st Graders 2004 [actual] x P.R. 2005 = 2nd Graders 2005 [projected] ).

ACT MEAN SCORE RELATIVE TO ACT CORE CURRICULUM HIGH SCHOOL SENIORS 2001-2006

## ACT Scores by Race and Curriculum

- From 2001 to 2006 Oklahoma students’ ACT score averaged 0.42 percentage points below the national ACT score. In 2006, Oklahoma was 0.6 of a point below the national ACT score.
- In Oklahoma, those students taking the core curriculum have consistently scored higher on the ACT than those who did not take the core curriculum. This relationship holds true across the different races.

Oklahoma State Regents for Higher Education
Student Data Report
2005-06

## Section III: Enrollments

## Ten-Year Comparison of Annual Unduplicated Headcount Enrollment

The following tables show the total number of unduplicated students enrolled in 40 of the 41 Oklahoma higher education institutions in 2005-06. One private institution did not report.

This table and graph compare annual unduplicated headcount for both public and private institutions for ten years. An annual unduplicated headcount counts each student only once for the academic year (summer, fall, and spring).

- Public higher education unduplicated headcount enrollment decreased from 210,823 in 1996-97 to 209,371 in 1997-98, then generally increased to 235,730 in 2005-06.
- Public higher education enrollment increased 11.8 percent overall during the 1996-97 to 2005-06 ten-year time period.

## Ten-Year Comparison of Fall Unduplicated Headcount Enrollment at Public Institutions

The table and graph show 10 years of fall unduplicated headcount enrollment for the public institutions by research universities, regional universities, and community colleges. Students enrolled in more than one institution are attributed to only one institution.

- From fall 1996 to fall 2005, enrollments in the public institutions increased by 14.6 percent.
- Fall enrollments at research universities increased 21.4 percent over the ten-year timeframe. The regional universities increased 7.6 percent. The community colleges increased 15.6 percent.

SOURCE: OCR 2300-2.3 Fall 2005, 1/22/07. ${ }^{1}$ OSU-CHS did not report Fall 2001 data; data are from Fall 2000. ${ }^{2}$ RSU began offering bachelor's degrees in fall 2000 .
NOTE: Includes first-time freshmen from summer who continued in fall and includes nonresident aliens; does not contain concurrent high school enrollment.

The table and graph show the total number of unduplicated students enrolled in 40 of the 41 Oklahoma higher education institutions in 2005-06, distributed by class level and by gender. One private institution did not report.

- At the public institutions, the freshman class consisted of 76,988 students or 32.7 percent of the public annual unduplicated headcount in 2005-06, the sophomore class consisted of 58,028 students or 24.6 percent, the junior class consisted of 21,572 or 9.2 percent, and the senior class consisted of 40.273 students or 17.1 percent.
- At the public institutions, the graduate and professional class levels consisted of 19,368 students or 8.27 percent and 3,462 students or 1.5 percent, respectively.
- At the public institutions, females outnumbered males in 2005-06 by 57.4 percent to 42.6 percent. In 1962, males outnumbered females in Oklahoma higher education by 65 percent to 35 percent. In the fall of 1972, males outnumbered females by 60 percent to 40 percent.

NOTE: Unduplicated within the institution between semesters. *May contain first-time unclassified students and concurrent enrollments. **Did not report.

## Annual Headcount and FTE Enrollment by Division

The table and graph show headcount and full-time equivalent (FTE) enrollment for 2005-06 by division of study (lower, upper, graduate, and professional). The annual full-time equivalent undergraduate enrollment is calculated by dividing the total number of credit hours enrolled in by undergraduate students by 30 and dividing the total number of credit hours enrolled in by graduate and professional students by 24 . The reason for using 30 and 24 is that a full-time undergraduate student must take 15 credit hours per semester or 30 credit hours per year to complete a bachelor's degree in four years. Graduate and professional students must take 12 credit hours per semester or 24 per year to complete most degrees on schedule.

- In 2005-06, public and private institutions had 259,790 students and 159,307 FTEs.
- Total public institutional headcount consisted of 144,881 (61.5 percent) lower division students, 65,141 ( 27.6 percent) upper division students, 22,246 ( 9.4 percent) graduate students, and 3,462 (1.5 percent) professional students.
- Total public institutional FTE consisted of 78,450 (55.6 percent) lower division FTEs, 46,190 (32.7 percent) upper division FTEs, 10,616 (7.5 percent) graduate FTEs, and 5,783 (4.1 percent) professional FTEs.

and
The graduate and professional FTE is calculated by dividing the total number of credit hours enrolled by all graduate and professional students by 24 . Totals may not equal sums of columns due to rounding of calculations.

## Five-Year Comparison of Annual Full-Time Equivalent (FTE) Enrollments

The table and graph show a five-year history with year-to-year comparisons of the annual FTE of all institutions.

- The public sector institutions have shown a 9.7 percent increase in annual FTE enrollments from 2001-02 to 2005-06 and a 0.9 percent decrease from 2004-05 to 2005-06.
- The research universities had an 8.9 percent FTE increase from 2000-01 to 2004-05. Regional universities increased 7.3 percent and community colleges increased 13.3 percent.

## Annualized FTE at Public Institutions 2005-06 Compared to 2004-05

This table compares the annualized FTE enrollments in the public institutions in 2005-06 with the FTE enrollments in 2004-05 by semester and for the academic year.

- The public FTE for each semester during 2005-06 decreased from 2004-05 levels. Public FTE decreased 1,294 ( 0.09 percent) for the full-year 2005-06.

NOTE: May contain concurrent high school enrollments
${ }^{1}$ Full-time equivalent (FTE): An annual FTE is calculated for an undergraduate by dividing the total number of credit hours enrolled by all undergraduate students by 30 .
The graduate and professional FTE is calculated by dividing the total number of credit hours enrolled by all graduate and professional students by 24 . Totals may not equal
sums of columns due to rounding of calculations.

## Annual Student Credit Hours by Division

The following graph and table describe annual student credit hours by the division in which the student is classified. For example, the lower division number reflects the number of credit hours in which freshman and sophomore students enrolled.

- Of the 4,132,776 total student credit hours produced in 2005-06 at public institutions, 2,353,493 ( 56.9 percent) were taken by lower division students, 1,385,709 ( 33.5 percent) were taken by upper division students, 254,777 ( 6.2 percent) were taken by graduate students, and 138,797 ( 3.4 percent) were taken by professional students.

2005-06

COMPARISON OF ANNUAL STUDENT CREDIT HOURS BY DIVISION ${ }^{1}$
2005-06

SOURCE: UDSENR11 1/2207
NOTE: May contain concurrent high school enrollments. ** Did not report.
${ }^{1}$ Division is the level at which the student is classified; may not be the level at which the credit hour was generated.

The following graphs and tables describe the fall 2005 unduplicated headcount enrollment by undergraduate and graduate level and by credit hours. Undergraduate level is further disaggregated by lower and upper division.

- The largest percentage of undergraduates at the public institutions ( 30.7 percent) enrolled in 13 to 15 credit hours in fall 2005: 47.7 percent of the research university students, 35.4 percent of the regional university students, and 17.1 percent of the community college students. The highest percentage ( 24.3 percent) of community college students enrolled in 10 to 12 credit hours.

At the graduate level, more students at the research universities ( 33.4 percent) and at the regional universities ( 36.7 percent) enrolled in 4 to 6 credit hours.

## Annual Unduplicated Enrollment by Field of Study and Class Level

The following tables describe the number of unduplicated headcount enrollments in higher education institutions in 2005-06 by field of study and by class level.

- At the public institutions, Education was the most popular field of study in 2005-06 with 24,369 ( 10.3 percent) students enrolled. Business Management was second with 22,021 ( 9.3 percent) students enrolled. It was the same in 2004-05. In 2003-04 and 2002-03, Business Management was first and Education was second. These have been the top two fields since the first Student Data Report was published in 1982-83.
- At the private institutions, Business Management was the most popular field of study in 2005-06 with 4,894 (20.3 percent) students enrolled. Education was second with 1,770 ( 7.4 percent) students enrolled. It was the same in 2004-05, 2003-04 and 2002-03, and these have been the top two fields since the first Student Data Report was published in 1982-83.

## Unduplicated Headcount Enrollments at Public Institutions 2005-06 Compared to 2004-05

This table compares 2005-06 and 2004-05 unduplicated headcount enrollments at the public institutions by semester.

- In 2005-06, the summer semester experienced an increase from the previous year, while the fall and spring semesters had a decrease resulting in a State System decrease of 2,515 students ( 1.1 percent) for the year. Over the past five years, public enrollment has increased 10.2 percent.
- Three public institutions with the largest increases were the Northern Oklahoma College ( 613 students, 10.2 percent), the University of Central Oklahoma (247, 1.3 percent), and the University of Oklahoma Health Sciences Center ( 216 students, 6.0 percent).
- The University of Oklahoma had the largest decrease in enrollment, with 1,403 fewer students than the previous year.
- From 2004-05 to 2005-06, research universities' enrollment decreased by a total of 1,404 students ( 2.2 percent); regional universities’ enrollment decreased by a total of 96 students ( 0.1 of a percent); and community colleges decreased by a total of 1,015 ( 0.1 of a percent).

NOTE: May contain first-time unclassified students and concurrent high school enrollments.

This table contains data from public higher education institutions authorized to concurrently enroll high school students in higher education. These students also are included in the other enrollment tables.

- In 2005-06, 5,803 high school students were reported as concurrently enrolled in at least one college course. These students enrolled for a total of 39,758 credit hours or 1,325 FTEs.
- In 2004-05, 4,229 high school students were concurrently enrolled for a total of 29,156 credit hours or 972 FTEs.

NOTE: FTE may not total due to rounding of calculated values. ** Did not report. *** Full-year is unduplicated between semesters.

* Full-time equivalent (FTE): An annual FTE is calculated for an undergraduate by dividing the total number of credit hours enrolled by all undergraduate students by 30 .

The graduate and professional FTE is calculated by dividing the total number of credit hours enrolled by all graduate and professional students by 24 .

## Five-Year Comparison of Full-Time and Part-Time Enrollments

This table shows a five-year history of fall semester full-time and part-time enrollments at all public institutions. In the fall semester, an undergraduate student must be enrolled in at least 12 credit hours and a graduate student must be enrolled in at least 9 credit hours to be classified as full-time.

- Full-time enrollment at public institutions increased from 99,225 in fall 2001 to 110,822 in fall 2005, or 11.7 percent. Part-time enrollment increased from 61,956 in fall 2001 to 64,275 in fall 2005, or 3.7 percent.

## Five-Year Comparison of Full-Time and Part-Time Percentages

This table shows a five-year history of fall semester full-time and part-time enrollment percentages at all public institutions. In the fall semester, an undergraduate student must be enrolled in at least 12 credit hours and a graduate student must be enrolled in at least 9 credit hours to be classified as full-time.

- The full-time enrollment percentage at public institutions increased from 61.6 percent in fall 2001 to 63.3 percent in fall 2005. The part-time enrollment percentage decreased from 38.4 percent in fall 2001 to 36.7 percent in fall 2005.

## Non-Credit Activity

The following tables describe the nature and level of non-credit activity provided by Oklahoma public colleges and universities that reported offering noncredit activities. The information provided indicates a range of activities and groups served. Participant contacts indicate the number of participants recorded as attending and participating in non-credit activities; therefore, an individual citizen may be counted in more than one activity. In some activities, participant contacts may be estimated, as in large lectures. Non-credit courses and activities are provided on a self-supporting basis and are not reported for state funding.

- During 2005-06, 23 public institutions reported participant contacts totaling 675,348 in non-credit activities at two research universities, nine regional universities, and 12 community colleges. This compares to 344,568 participant contacts for 2001-02.
- Between 2001-02 and 2005-06, non-credit activity participants averaged 435,656 for the state system. At the research universities non-credit activity averaged 314,354 participants; the regional universities, 61,084 ; and the community colleges, 60,218 . Non-credit activity fluctuates widely from year to year.
- The Group Served table reflects the reporting institution's determination of the group to which an activity was primarily directed. According to the table, the major groups served were education; arts, sports and media; healthcare; and protective services.
- The Format table shows that courses and special training programs are the most common formats for non-credit activities.
- The four counties where the most participation took place were Cleveland, Oklahoma, Tulsa and Comanche counties.
- The Major Focus of Activity table reflects the reporting institution's determination of the primary focus of the activity. According to the table, most non-credit activity was focused toward education; healthcare; arts, entertainment and recreation; and other services.
- The Method of Delivery table indicates that 98.1 percent of non-credit activity participants were traditionally enrolled, while 0.4 percent participated in courses online.

The first-time freshmen who entered college directly from high school are estimated from those students who were 17 to 19 years old and were Oklahoma high school graduates. Each category on the map represents approximately one-third of the 77 counties in Oklahoma.

- For 2003-04 through 2005-06, the statewide average college-going rate direct from high school was 52.9 percent.

NOTE: Includes first-time enrollments from Summer Term who continued in the Fall; may contain concurrent high school enrollments.

## Five-Year Comparison of First-Time Freshman Enrollments at Public Institutions

- The number of new freshmen increased 8.7 percent from 37,024 in 2001-02 to 40,243 in 2005-06.
- The number of new freshmen decreased one of the past five years; the largest percentage increase (9.4 percent) was between 2002-03 and 2003-04.
- From 2001-02 to 2005-06 the number of new freshmen at the research institutions decreased 3.8 percent, while at the regional universities and community colleges the number of new freshmen increased 3.3 percent and 16 percent, respectively.

[^1]NOTE: Includes first-ime enrollments from Summer Term who continued in the Fall; may contain concurrent high school enrollments .

- In fall 2005, full-time students comprised 63.3 percent of the total headcount enrollment, and part-time students made up the remaining 36.7 percent.
- Most undergraduate students enrolled as full-time students (65.9 percent) and most graduate students enrolled as part-time students (67.3 percent).
- Both male and female students enrolled more often as full-time students ( 66.9 percent and 60.6 percent, respectively).
- Women outnumbered men in Black, Native American, Asian, Hispanic, and White enrollments. Women comprised 59.4 percent of the Black enrollments, while 40.6 percent were men. Native American enrollments consisted of 60.8 percent women to 39.2 percent men. Women comprised 54.6 percent of Asian enrollments, while 45.4 percent were men. Women made up 57.1 percent of Hispanic enrollments, and men made up 42.9 percent. Men outnumbered women in the Nonresident Alien category by comprising 54.7 percent of the enrollment. White women outnumbered white males 57.3 to 42.7 percent.

## Percentage of Student Enrollment by Race Within the State System

This table distributes the fall 2005 student enrollments by race among the State System institutions.

- Nonresident Aliens and Asians had the majority of their enrollment in research universities ( 53.7 percent and 41.8 percent, respectively).
- Blacks and Native Americans had the largest percentage of their enrollment in the regional tier ( 42.2 percent and 41.3 percent, respectively).
- For Hispanics and Whites, enrollment in community colleges made up the largest percentage of their total enrollments (42.0 and 37.7 percent respectively).

## Comparison of Fall Headcount Enrollments of Male Students

- There was an increase in enrollment for male students from fall 1996 to fall 2005 The research universities experienced a 14.1 percent increase in male enrollments for this time frame (from 23,501 to 26,803). Enrollment at regional universities increased approximately 2.5 percent while community colleges have seen an increase of 7.0 percent.

## Ten Year History of the Mean Age of Students Enrolled in Oklahoma Public Institutions by Gender, Race, Class Level, and Status

This table is a ten year history of the mean age of students enrolled in the public system. The table tracks the mean age of students enrolled in higher education by race, gender, class level and attendance status.

- The mean age of students in all race categories except non-resident alien experienced an overall decrease of 1.17 years from 27.35 to 26.18 during the ten year period.
- The mean age of females and males decreased from 28.13 to 26.94 and 26.39 to 25.15 , respectively. In fall 2005 , the average age of females enrolled was 1.79 years higher than that of males.
- The mean age of students in all class levels decreased from fall 1996 to fall 2005.

## Intentionally Blank

## Percent First-Time Freshmen in Public Institutions by Age

- This graph provides the percent of first-time freshmen in public institutions by age for fall 2005. This information used in conjunction with the cohort-survival projections may be useful for institutions like The University of Oklahoma which had approximately 98 percent of its first-time freshmen between 17 and 19 years of age in fall 2005. Community colleges would find these projections less useful since a smaller percentage of their first-time freshmen were between 17 and 19 years of age in fall 2005.

PERCENT OF FIRST-TIME FRESHMEN IN PUBLIC INSTITUTIONS BY AGE FALL 2005

This table reflects the unduplicated recipients for each financial aid category as a percentage of the total unduplicated headcount enrollment at public institutions for five twelve-month time periods.

- In 2001-02, 52.9 percent of all unduplicated students received at least one form of financial aid. By 2005-06, this percentage rose to 56.6, which indicates that more than half of the unduplicated students received some form of financial aid. All categories of financial aid increased in unduplicated recipients since 1950 .
- In 2005-06, grants were the most common form of financial aid received (42.4 percent), followed by loans and scholarships ( 32.1 and 16.7 percent, respectively).
- From 2004-05 to 2005-06, the percent of all unduplicated student receiving loans and/or scholarships increased 2.2 percentage points for each category.

PERCENT OF TOTAL UNDUPLICATED STUDENTS
IN PUBLIC INSTITUTIONS RECEIVING FINANCIAL AID BY CATERGORY OVER FIVE YEARS

2001-02 TO 2005-06

| TYPE OF AID | $\mathbf{2 0 0 1 - 0 2}$ | $\mathbf{2 0 0 2 - 0 3}$ | $\mathbf{2 0 0 3 - 0 4}$ | $\mathbf{2 0 0 4 - 0 5}$ | $\mathbf{2 0 0 5 - 0 6}$ |
| :--- | :---: | :---: | :---: | :---: | :---: |
| GRANTS | $37.1 \%$ | $37.7 \%$ | $39.0 \%$ | $42.6 \%$ | $42.4 \%$ |
| LOANS | $25.8 \%$ | $25.6 \%$ | $29.7 \%$ | $30.9 \%$ | $32.1 \%$ |

| EMPLOYMENT | $7.7 \%$ | $6.7 \%$ | $7.9 \%$ | $8.1 \%$ | $8.4 \%$ |
| ALL AID | $\mathbf{5 2 . 9} \%$ | $\mathbf{5 4 . 6} \%$ | $\mathbf{5 6 . 8} \%$ | $\mathbf{5 6 . 7} \%$ | $\mathbf{6 0 . 3} \%$ |

[^4]
## Financial Aid Recipients Compared to Enrollment

This table shows unduplicated financial aid recipients as a percentage of unduplicated headcount enrollment for each public institution. It also shows the percentage of total public system financial aid recipients per institution and percentage of total public system enrollment per institution.

- Community colleges have the smallest percentage of their student body receiving aid (47.1 percent). Research universities have the largest percentage of students receiving financial aid (70.0 percent) followed by regional universities ( 70.6 percent).

## UNDUPLICATED STUDENTS IN PUBLIC INSTITUTIONS COMPARED TO UNDUPLICATED FINANCIAL AID RECIPIENTS 2005-06

## Transfer Activity of Degree-Seeking Students in the Oklahoma State System

The following information describes a cohort flow methodology that tracks first-time, degree-seeking freshmen (full-time and part-time) from the fall semester of one academic year into the next full academic year. Students who are considered first-time transfers include immediate transfers and those who delay transfer for only one year.

- Immediate transfer - a student who was enrolled the previous academic year at another Oklahoma institution of higher education and transferred without a break in enrollment to the current institution.
- Delay transfer - a student who was not enrolled the previous academic year, but transferred hours from another institution.

## Transfer of Degree-Seeking Students by Race and Gender

- Both males and females had similar transfer patterns. Males transferred from two-year to four-year institutions at a rate of 29 percent, three percentage points higher than females. Females transferred between four-year institutions at a rate of 25 percent, three percentage points higher than males.
- The Non-resident Alien and Asian categories had the highest percentage of student transfers from two-year to four-year institutions (56 percent and 40 percent, respectively). Hispanics had the highest percentage of transfers from four-year to two-year institutions (39 percent).

## TRANSFER PATTERN OF DEGREE-SEEKING STUDENTS WITHIN OKLAHOMA FROM PUBLIC AND PRIVATE INTITUTIONS TO PUBLIC INSTITUTIONS BY RACE AND GENDER <br> AS OF SPRING 2006 FOR THE 2003-04 COHORT

|  | PERCENT TRANSFER |  |  |  | Total |

[^6]
## Transfer of Community College Degree-Seeking Students to Public Research or Regional Universities

- From 2001-02 to 2005-06, the percentage of students who began as degree-seeking freshmen in community colleges and transferred to a public research or regional institution within six years increased from 32.7 percent to 34.0 percent.
- The percentage of public two-year to four-year transfer students who earned a bachelor's degree within six years decreased from 18.4 percent to 17.8 percent from 2000-01 to 2004-05.

## Student Transfer Activity

The following graph and table describe the transfer of the fall 2003 degree-seeking freshman cohort as of spring 2006. Additional tables by full-time/part-time status, race, and gender are available upon request.

- For seventeen of the public institutions, more students transferred "from other public institutions" than "to other public institutions" which would be considered a net gain for those institutions.

TRANSFER PATTERN OF DEGREE-SEEKING STUDENTS WITHIN PUBLIC INSTITUTIONS AS OF SPRING 2006 FOR THE 2003-04 COHORT

## Oklahoma State Regents for Higher Education

Student Data Report
2005-06

## Section V: Outcomes

## First-Year Persistence Rates First-Time Full-Time Freshmen Within the State

The following graph and table show a 10 -year summary of persistence rates for the fall cohorts within the state, that is, new freshmen who enrolled at the same or another Oklahoma higher education institution the following year.

- From 1996-97 to 2005-06, persistence rates (within the state) for new freshmen increased from 88.5 to 90.8 percent at the research universities, decreased from 78.9 percent to 77.9 percent at the regional universities, and increased from 64.8 to 67.3 percent at the community colleges.

## First-Year Persistence Rates First-Time Full-Time Freshmen Within the Institution

The following graph and table show a 10-year summary of persistence rates for the fall cohorts within the institution, that is, new freshmen who enrolled at the same institution during the following year.

- From 1996-97 to 2005-06, persistence rates (within the institution) for new freshmen increased from 75.4 to 82.8 percent at the research universities, from 62.7 to 65.6 percent at the regional universities, and from 52.6 to 60.6 percent at the community colleges.

## Graduation Rates First-Time Full-Time Freshmen Within the State

The following graph and table show a summary of graduation rates for the fall cohorts within the state, that is, new freshmen who graduated in the same or another Oklahoma higher education institution. The graduation rates are six-year rates for research and regional universities, and three-year for community colleges.

- From 1996-97 to 2005-06, six-year graduation rates (within the state) for new freshmen increased from 50.7 to 65.1 percent at the research universities and increased from 35.4 to 40.5 percent at the regional universities. At community colleges, three-year graduation rates (within the state) for new freshmen increased from 16.5 to 20.2 percent.

## Graduation Rates First-Time Full-Time Freshmen Within the Institution

The following graph and table show a summary of graduation rates for the fall cohorts within the institution, that is, new freshmen who graduated from the Oklahoma higher education institution where they began their education. The graduation rates are six-year rates for research and regional universities, and three-year rates for community colleges.

- From 1996-97 to 2005-06, six-year graduation rates (within the institution) for new freshmen increased from 44.8 to 59.0 percent at the research universities and increased from 27.8 to 34.2 percent at the regional universities. At community colleges, three-year graduation rates (within the institution) for new freshmen increased from 14.4 to 19.8 percent.

U.S. Department of Education IPEDS Graduation Rate Survey.

* Institution began offering 4 -year degrees fall 2000.

N/A: Data not available
NOTE: The tier graduation rates are calculated by dividing the total number of graduates by the total number of fal
first-time, full-time degree-seeking students at all of the institutions in the tier.
Oklahoma State Regents for Higher Education - June 28, 2007

## Graduation Rates of Athletic Scholarship Students

The following tables show a summary of graduation rates for the fall athletic cohorts within the institution, that is, new freshmen receiving athletic assistance who graduated from the Oklahoma higher education institution where they began their education. The graduation rates are six-year rates for research and regional universities, and three-year rates for community colleges. Tables for all athletes, male athletes, and female athletes are included.

- From 2003-04 to 2005-06, six-year graduation rates for all athletes in all sports decreased from 63.2 percent to 54.2 percent at the research universities, and increased from 33.8 percent to 42.8 percent at the regional universities. At community colleges, three-year graduation rates for all freshman athletes in all sports increased from 34.4 percent to 38.0 percent.
- From 2003-04 to 2005-06, six-year graduation rates for male athletes in all sports decreased from 61.7 percent to 46.2 percent at the research universities, and increased from 27.8 percent to 41.2 percent at the regional universities. At community colleges, three-year graduation rates for male freshman athletes in all sports creased from 32.8 percent to 34.5 percent.
- From 2003-04 to 2005-06, six-year graduation rates for female athletes in all sports increased from 65.4 percent to 66.0 percent at the research universities, and increased from 44.1 percent to 46.1 percent at the regional universities. At community colleges, three-year graduation rates for female athletes in all sports increased from 36.4 percent to 42.0 percent.
