The Oklahoma State Regents for Higher Education, in compliance with Titles VI and VII of the Civil Rights Act of 1964, Executive Order 11236 as amended, Title IX of the Education Amendments of 1972, Americans with Disabilities Act of 1990 and other federal laws, do not discriminate on the basis of race, color, national origin, sex, age, religion, handicap or status as a veteran in any of its policies, practices, or procedures. This includes, but is not limited to, admissions, employment, financial aid and educational services.

This publication, duplicated by the State Regents' central services, is issued by the Oklahoma State Regents for Higher Education as authorized by 70 O.S. 2001, Section 3206. Copies have been prepared and distributed internally. Copies have been deposited with the Publications Clearinghouse of the Oklahoma Department of Libraries.

#### Oklahoma State Regents for Higher Education Student Data Report 2006-07

#### Introduction

The Student Data Report for 2005-06 is the 24th annual comprehensive publication of student data derived from the Oklahoma State Regents' Unitized Data System (UDS), which has been in place since 1977. Over time, the Student Data Report has developed into a useful policy and planning tool. Each semester, approximately 75 data elements are gathered for each student (a person who enrolled, had a class/grade action, and paid fees) in Oklahoma higher education. From these data, the UDS constructs state and federal reports and State Regents' studies.

The annual Student Data Report uses the UDS to produce many of the primary measures of student involvement in higher education such as movement into college, enrollments, student transfer, persistence, and semester credit hours. The enclosed tables and figures are intended for use by public officials, institutional administrators, faculty, staff, and regents in the development of higher education plans and programs.

In 2005-06, there were 30 data reporting entities, institutions, and branch campuses in The Oklahoma State System for Higher Education. The University of Oklahoma Health Sciences Center and Oklahoma State University's Center for Health Sciences in Tulsa, Technical Branch in Okmulgee, and OSU-Oklahoma City are reported as individual institutions. The enrollments for all other entities were reported with the parent institution. Students and courses located at the Ardmore Higher Education Program, Greater Oklahoma City Downtown Consortium, OSU-Tulsa, as well as other learning sites were reported with the institution of record or the institution that taught the courses. In 2005-06, some of the private institutions did not participate in the UDS, thus grand totals including private institutions are not complete.

The enclosed tables and figures are summaries of more comprehensive and detailed data reports. For example, most of this information can be provided by race and gender. Thus, the Student Data Report also serves as an index to sources of additional data for further study that are available upon request. Since the UDS is continuously edited, reports generated at different times or using different computer programs may produce slightly different populations. If comparisons between tables are made, it is recommended that the user check the grand totals as well as table headings and footnotes before making specific comparisons.

#### **DEFINITIONS**

Athletically-Related Student Aid: any scholarship, grant, or other form of financial assistance, offered by an institution, the terms of which require the recipient to participate in a program of intercollegiate athletics at the institution in order to be eligible to receive such assistance. If a student receives athletically-related student aid for more than one sport, that student is counted only once using the following hierarchy: football, basketball, baseball, cross-country/track, all other sports.

<u>CIP (Classification of Instructional Programs)</u>: a classification of program terms and descriptions reflecting the manner in which institutional instructional program data are organized, collected, and reported. The CIP codes were developed by the U.S. Department of Education's National Center for Education Statistics (NCES) and is used to report by field of study.

FTE (Full-Time-Equivalent) Enrollment: The numerator used to compute full-time equivalent (FTE) enrollment is the total semester hours (either full-year or semester) in which all applicable students are enrolled. The denominator is the number of semester credit hours a full-time student needs to earn in one year. The annual FTE denominator for undergraduate enrollment is 30, based on the estimate that it takes a full-time student 30 hours per year to complete a 120-hour baccalaureate degree program in 4 years. Graduate students are expected to take 12 credit hours per semester or 24 credit hours per year.

**<u>Fall Cohort</u>**: includes students who enrolled full-time, were degree/certificate-seeking, and were classified as first-time freshmen at an institution during the fall term. Academic activity of the cohort group is tracked for years to determine persistence rates and graduation rates.

<u>First-Time Freshman</u>: an entering freshman who has never attended any college. Includes students enrolled in the fall term who attended college for the first time in the prior summer term. Also includes students who entered with advanced standing (college credits earned before graduation from high school).

<u>Full-Time Student</u>: at the undergraduate level, a student enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more contact hours a week each term.

<u>Graduation Rate</u>: the percentage of students from the original fall cohort who completed a degree program within 150 percent of the normal time. If the degree program normally takes four years to complete, a student would be counted as a completer if he/she received a degree within six years.

Non-Credit Course: a course or activity having no credit applicable toward a degree, diploma, certificate, or other formal award.

<u>Number of Enrollments</u>: This is the cumulative headcount of students enrolled during each semester of the year. It is a duplicated headcount; that is, a student enrolled for the summer, fall, and spring semesters would be counted three times.

**Persistence Rate**: the percentage of students from the original cohort group who are enrolled during the following year.

**<u>Unclassified Student</u>**: a student who is enrolled for credit, but not pursuing a degree or formal award.

<u>Unduplicated Headcount</u>: In the unduplicated headcount, a student is counted only once for the full-year time period or for the fall semester. Headcount is unduplicated only within the institution. Consequently, a student who takes courses at two separate institutions would be counted at both institutions. During the time period under consideration, students are assigned to the class level in which they enrolled during their last active semester (freshman/sophomore-lower division, junior/senior-upper division, graduate, and professional).

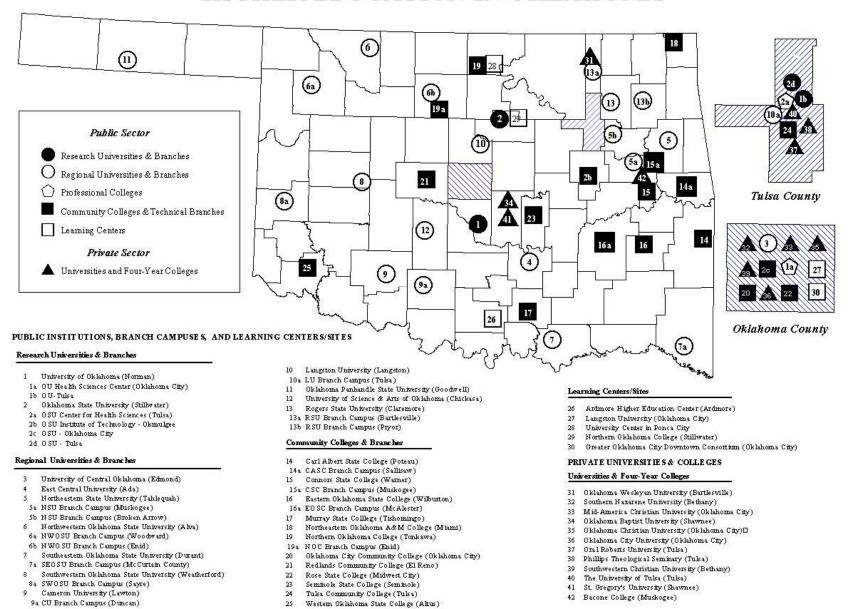

#### Oklahoma State Regents for Higher Education Student Data Report 2006-07

**Section I: Oklahoma Higher Education** 

#### **Higher Education in Oklahoma**

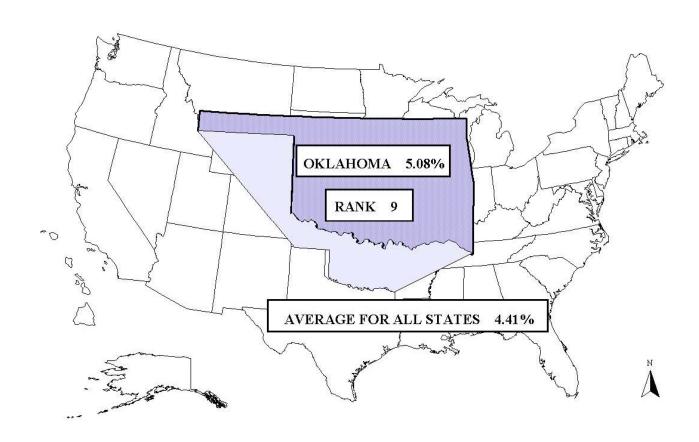

- There are 25 public higher education institutions, 20 branch campuses, and 5 learning centers in Oklahoma.
- Oklahoma has 12 private higher education institutions that are regionally accredited.

### PUBLIC HIGHER EDUCATION ENROLLMENT AS A PERCENTAGE OF TOTAL POPULATION: FALL 2005

#### **Public Enrollments and State Population**

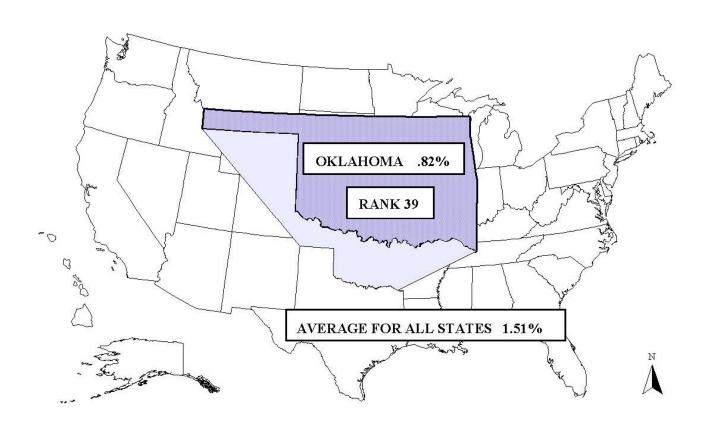

The following tables and graphs are based on the most recent national data available, fall 2005.

- In fall 2005, Oklahoma had 5.08 percent of the state population enrolled in public higher education. This compares to 5.09 percent in fall 2004, and 5.10 percent in fall 2003.
- Compared to other states, Oklahoma ranked ninth in the nation. This compares to tenth in fall 2004, and tenth in fall 2003.

### PRIVATE HIGHER EDUCATION ENROLLMENT AS A PERCENTAGE OF TOTAL POPULATION: FALL 2005

#### **Private Enrollments and State Population**

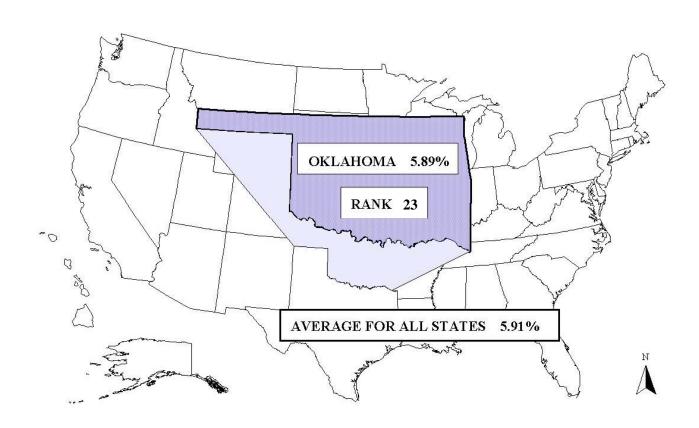

The following tables and graphs are based on the most recent national data available, fall 2005.

- In fall 2005, Oklahoma had 0.82 percent of the state population enrolled in private higher education. This compares to 0.80 percent in fall 2004 and 0.83 percent in fall 2003.
- Compared to other states, Oklahoma ranked 39<sup>th</sup> in the nation. Oklahoma ranked 41<sup>st</sup> in fall 2004 and 37<sup>th</sup> in fall 2003.

### TOTAL HIGHER EDUCATION ENROLLMENT AS A PERCENTAGE OF TOTAL POPULATION: FALL 2005

#### **Public and Private Enrollments and State Population**

The following tables and graphs are based on the most recent national data available, fall 2005.

- In fall 2005, Oklahoma had 5.89 percent of the state population enrolled in higher education. This compares to 5.89 percent in fall 2004 and 5.93 percent in fall 2003.
- Compared to other states, Oklahoma ranked 23<sup>rd</sup> in the nation. Oklahoma ranked 22<sup>nd</sup> in fall 2004, and ranked 22<sup>nd</sup> in fall 2003.

#### **Enrollments in Higher Education by Race**

The following is based on the most recent national data available, fall 2005.

• In Oklahoma, Native Americans had the highest minority percentage of higher education enrollment (10.2 percent). Nationally, Blacks had the highest minority percentage of higher education enrollment (12.7 percent). Oklahoma is below the national percentages in Black, Asian, and Hispanic minority enrollments.

### PERCENT OF STUDENT ENROLLMENTS BY RACE IN OKLHOMA AND THE UNITED STATES FALL 2005

NOTE: In previous years of the Student Data Report, this chart compared enrollments to population by race. Due to changes in census data, this comparison is no longer possible.

### PERCENT OF STUDENT ENROLLMENTS BY RACE IN PUBLIC AND PRIVATE HIGHER EDUCATION BY STATE FALL 2005

Oklahoma State Regents for Higher Education Student Data Report 2006-07

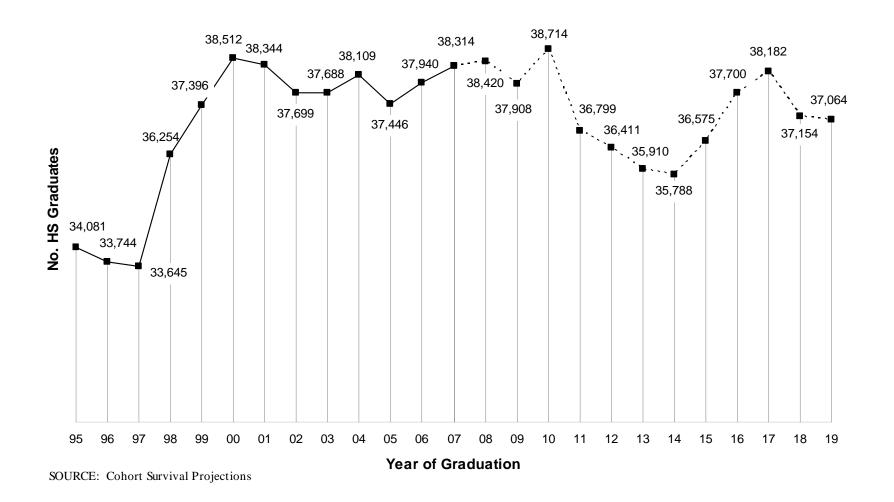

**Section II: Student Preparation** 

#### Oklahoma High School Graduates 1993-94 through 2017-18

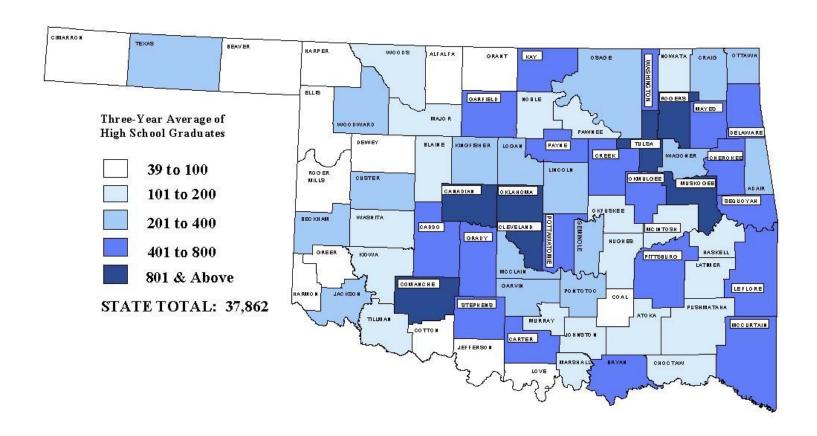

• This graph shows Oklahoma public and private high school graduates from 1994-95 to 2018-19. From 1994-95 through 2006-07, the actual number of graduates is shown. The projected period is 2007-08 through 2018-19. On the whole, this projection of high school graduates shows a small increase from 38,314 in 2006-07 to 38,714 in 2009-10, then declines over the next four years to 35,788 in 2013-14, followed by a sharp rise to 38,182 in 2016-17.

This cohort-survival method projects enrollments and graduates based on the retention or survival of class cohorts from one grade level to the next. Historical data were collected for elementary enrollments, secondary enrollments, and high school graduates for the period 1994-95 through 2006-07. The survival of each cohort, from first grade through graduation, is measured by progression ratios: the change between the number of students enrolled in a grade for a single year and those students who continue to the next grade the following year, (e.g., 2nd Graders 2004 / 1st Graders 2003 = Progression Ratio 2004 [P.R.2004]). Historical Progression Ratios were averaged and a continuous average was applied to each subsequent projected year and class, (e.g., P.R. 1992 + P.R. 1993....+ P.R. 2004 / 11 = P.R. 2005). Projected student enrollment numbers for successive grades are then calculated by multiplying enrollments per grade by the Progression Ratio, (e.g., 1st Graders 2004 [actual] x P.R. 2005 = 2nd Graders 2005 [projected]).

### ACT MEAN SCORE RELATIVE TO ACT CORE CURRICULUM HIGH SCHOOL SENIORS 2002 - 2007

SOURCE: ACT High School Profile Report HS Graduating Class, 2002-2007.

NOTE: The ACT core curriculum includes 13 units as follows: English, 4; Mathematics, 3; Social Science, 3; Natural Science 3.

#### **ACT Scores by Race and Curriculum**

- From 2002 to 2007 Oklahoma students' ACT score averaged 0.42 percentage points below the national ACT score. In 2007, Oklahoma was 0.5 of a point below the national ACT score.
- In Oklahoma, those students taking the core curriculum have consistently scored higher on the ACT than those who did not take the core curriculum. This relationship holds true across the different races.

### HISTORY OF ACT MEAN SCORES: OKLAHOMA VERSUS THE NATION 2002-2007

<b>HS Graduates</b>		2002	2003	2004	2005	2006	2007

#### Oklahoma State Regents for Higher Education Student Data Report 2006-07

**Section III: Enrollments** 

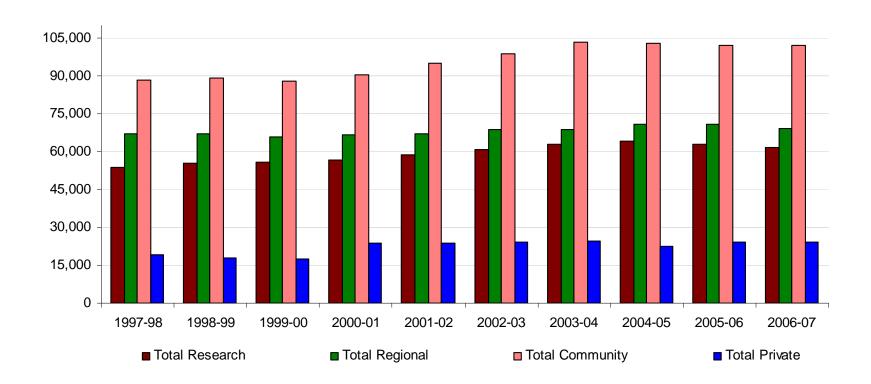

#### **Ten-Year Comparison of Annual Unduplicated Headcount Enrollment**

The table and graph show the total number of unduplicated students enrolled in 37 of the 41 Oklahoma higher education institutions in 2006-07, distributed by class level and by gender. Information from three private and one public institution were not available at the time of this report.

This table and graph compare <u>annual</u> unduplicated headcount for both public and private institutions for ten years. An <u>annual</u> unduplicated headcount counts each student only once for the academic year (summer, fall, and spring).

- Public higher education unduplicated headcount enrollment generally increased from 209,371 in 1997-98 to 238,245 in 2004-05, then decreased over the next two years to 233,203 in 2006-07.
- Public higher education enrollment increased 11.0 percent overall during the 1997-98 to 2006-07 ten-year time period.

TEN-YEAR COMPARISON OF <u>ANNUAL</u> UNDUPLICATED HEADCOUNT ENROLLMENT 1997-98 to 2006-07

### Ten-Year Comparison of Fall Unduplicated Headcount Enrollment at Public Institutions

The table and graph show 10 years of <u>fall</u> unduplicated headcount enrollment for the <u>public</u> institutions by research universities, regional universities, and community colleges. Students enrolled in more than one institution are attributed to only one institution.

- From fall 1997 to fall 2006, enrollments in the <u>public</u> institutions increased by 12.6 percent.
- Fall enrollments at research universities increased 17.4 percent over the ten-year timeframe. The regional universities increased 6.3 percent. The community colleges increased 14.4 percent.

SOURCE: Student Record, 10/15/08. <sup>1</sup>OSU-CHS did not report Fall 2001 data; data are from Fall 2000. <sup>2</sup>RSU began offering bachelor's degrees in fall 2000.

NOTE: Includes first-time freshmen from summer who continued in fall and includes nonresident aliens; does not contain concurrent high school enrollment.

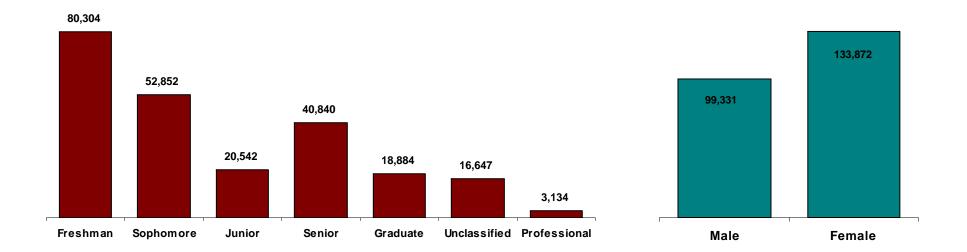

#### Annual Unduplicated Headcount Enrollment by Gender and Class Level

The table and graph show the total number of unduplicated students enrolled in 37 of the 41 Oklahoma higher education institutions in 2006-07, distributed by class level and by gender. Information from three private and one public institution were not available at the time of this report.

- At the <u>public</u> institutions, the freshman class consisted of 80,304 students or 34.4 percent of the <u>public</u> <u>annual</u> unduplicated headcount in 2006-07, the sophomore class consisted of 52,852 students or 22.6 percent, the junior class consisted of 20,542 or 8.8 percent, and the senior class consisted of 40.780 students or 17.4 percent.
- At the <u>public</u> institutions, the graduate and professional class levels consisted of 18,945 students or 8.1 percent and 3,134 students or 1.3 percent, respectively.
- At the <u>public</u> institutions, females outnumbered males in 2006-07 by 57.4 percent to 42.6 percent. In 1962, males outnumbered females in Oklahoma higher education by 65 percent to 35 percent. In the fall of 1972, males outnumbered females by 60 percent to 40 percent.

NOTE: Unduplicated within the institution between semesters. \*May contain first-time unclassified students and concurrent enrollments. \*\*Data unavailable at time of report.

### **Annual Headcount and FTE Enrollment by Division**

The table and graph show headcount and full-time equivalent (FTE) enrollment for 2006-07 by division of study (lower, upper, graduate, and professional). The annual full-time equivalent undergraduate enrollment is calculated by dividing the total number of credit hours enrolled in by undergraduate students by 30 and dividing the total number of credit hours enrolled in by graduate and professional students by 24. The reason for using 30 and 24 is that a full-time undergraduate student must take 15 credit hours per semester or 30 credit hours per year to complete a bachelor's degree in four years. Graduate and professional students must take 12 credit hours per semester or 24 per year to complete most degrees on schedule.

- In 2006-07, <u>public</u> and <u>private</u> institutions had 256,573 students and 151,314 FTEs.
- Total <u>public</u> institutional headcount consisted of 142,949 (61.5 percent) lower division students, 64,724 (27.8 percent) upper division students, 21,364 (9.2 percent) graduate students, and 3,466(1.5 percent) professional students.
- Total <u>public</u> institutional FTE consisted of 75,631 (56.6 percent) lower division FTEs, 45,573 (34.1 percent) upper division FTEs, 8,501 (6.4 percent) graduate FTEs, and 3,969 (3.0 percent) professional FTEs.

SOURCE: UDSENR11, 1/23/08.

NOTE: May contain unclassified students and concurrent high school enrollments.

<sup>\*</sup> Full-time equivalent (FTE): An annual FTE is calculated for an undergraduate by dividing the total number of credit hours enrolled by all undergraduate students by 30.

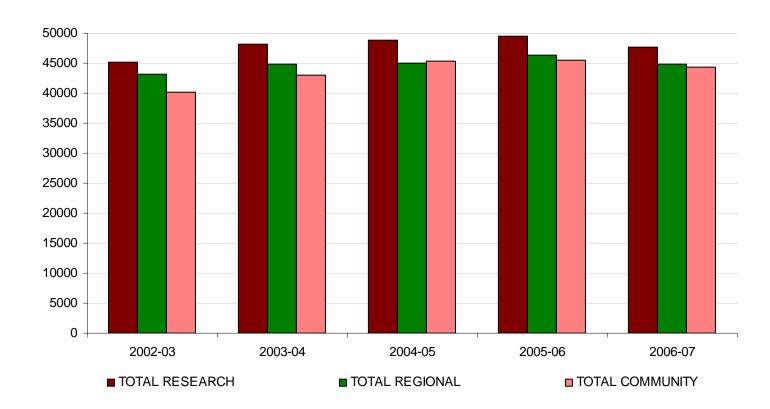

The graduate and professional FTE is calculated by dividing the total number of credit hours enrolled by all graduate and professional students by 24. Totals may not equal sums of columns due to rounding of calculations.

### Five-Year Comparison of Annual Full-Time Equivalent (FTE) Enrollments

The table and graph show a five-year history with year-to-year comparisons of the annual FTE of all institutions.

- The <u>public</u> sector institutions have shown a 0.5 percent increase in <u>annual</u> FTE enrollments from 2002-03 to 2006-07 and a 3.9 percent decrease from 2004-05 to 2006-07.
- The research universities had an 1.2 percent FTE decline from 2002-03 to 2006-07. Regional universities decreased 0.2 percent and community colleges increased 3.2 percent.

<sup>&</sup>lt;sup>1</sup> Full-time equivalent (FTE): An annual FTE is calculated for an undergraduate by dividing the total number of credit hours enrolled by all undergraduate students by 30. The graduate and professional FTE is calculated by dividing the total number of credit hours enrolled by all graduate and professional students by 24. Totals may not equal sums of columns due to rounding of calculations.

### Annualized FTE at Public Institutions 2006-07 Compared to 2005-06

This table compares the <u>annualized</u> FTE enrollments in the <u>public</u> institutions in 2005-06 with the FTE enrollments in 2006-07 by semester and for the academic year.

• The public FTE for each semester during 2006-07 decreased from 2005-06 levels. Public FTE decreased 1,899 (4.1 percent) for the full-year 2006-07.

<sup>1</sup> Full-time equivalent (FTE): An annual FTE is calculated for an undergraduate by dividing the total number of credit hours enrolled by all undergraduate students by 30.

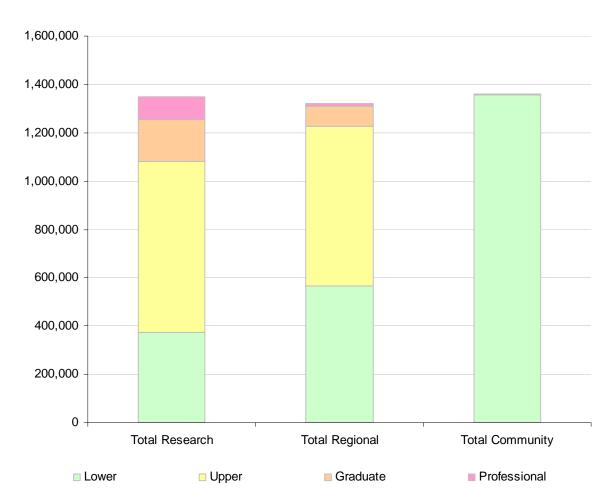

The graduate and professional FTE is calculated by dividing the total number of credit hours enrolled by all graduate and professional students by 24. Totals may not equal sums of columns due to rounding of calculations.

### **Annual Student Credit Hours by Division**

The following graph and table describe <u>annual</u> student credit hours by the division in which the student is classified. For example, the lower division number reflects the number of credit hours in which freshman and sophomore students enrolled.

• Of the 4,028,852 total student credit hours produced in 2006-07 at <u>public</u> institutions, 2,297,833 (57.0 percent) were taken by lower division students, 1,369,695 (34.0 percent) were taken by upper division students, 254,512 (6.3 percent) were taken by graduate students, and 106,812 (2.7 percent) were taken by professional students.

### **Unduplicated Fall Headcount Enrollment by Level, Division, and Credit Hours**

The following graphs and tables describe the fall 2006 unduplicated headcount enrollment by undergraduate and graduate level and by credit hours. Undergraduate level is further disaggregated by lower and upper division.

• The largest percentage of undergraduates at the <u>public</u> institutions (30.2 percent) enrolled in 13 to 15 credit hours in fall 2006: 47.3 percent of the research university students, 34.9 percent of the regional university students, and 16.9 percent of the community college students. The highest percentage (23.4 percent) of community college students enrolled in 10 to 12 credit hours.

At the graduate level, more students at the research universities (34.3 percent) and at the regional universities (36.2 percent) enrolled in 4 to 6 credit hours.

### Annual Unduplicated Enrollment by Field of Study and Class Level

The following tables describe the number of unduplicated headcount enrollments in higher education institutions in 2005-06 by field of study and by class level.

- At the public institutions, Education was the most popular field of study in 2006-07 with 23,642 (10.1 percent) students enrolled. Business Management was second with 21,726 (9.3 percent) students enrolled. It was the same in 2005-06 and 2004-05. Business Management and Education have been the top two fields since the first Student Data Report was published in 1982-83.
- At the private institutions, Business Management was the most popular field of study in 2006-07 with 4,037 (22.5 percent) students enrolled. Education was second with 1,558 (8.7 percent) students enrolled. It was the same in 2005-06, 2004-05 and 2003-04, and these have been the top two fields since the first Student Data Report was published in 1982-83.

NOTE: Unduplicated within the institution between semesters.

### **Unduplicated Headcount Enrollments at Public Institutions 2006-07 Compared to 2005-06**

This table compares 2006-07 and 2005-06 unduplicated headcount enrollments at the <u>public</u> institutions by semester.

- In 2006-07, the summer, fall and spring semester all experienced a decrease from the previous year, resulting in a State System decrease of 4,766 students (2.0 percent) for the year. Over the past five years, public enrollment has increased 5.3 percent with declines totaling 2.4 percent in the last two years.
- Three public institutions with the largest increases were the Oklahoma State University-Okmulgee (496 students 12.6 percent), Northern Oklahoma College (429 students, 6.5 percent), and Oklahoma City Community College (311 students, 1.6 percent).
- The Rogers State University of had the largest decrease in enrollment, with 2,219 fewer students than the previous year.
- From 2004-05 to 2005-06, research universities' enrollment decreased by a total of 1,913 students (3.0 percent); regional universities' enrollment decreased by a total of 3,965 students (5.6 percent); and community colleges increased by a total of 1,112 (1.1 percent).

NOTE: May contain first-time unclassified students and concurrent high school enrollments.

### **Concurrent High School Enrollment at Public Institutions**

This table contains data from <u>public</u> higher education institutions authorized to concurrently enroll high school students in higher education. These students also are included in the other enrollment tables.

- In 2006-07, 6,422 high school students were reported as concurrently enrolled in at least one college course. These students enrolled for a total of 45,690 credit hours or 1,523 FTEs.
- In 2005-06, 5,803 high school students were concurrently enrolled for a total of 39,758 credit hours or 1,325 FTEs.

NOTE: FTE may not total due to rounding of calculated values. \*\* Did not report. \*\*\* Full-year is unduplicated between semesters.

<sup>\*</sup> Full-time equivalent (FTE): An annual FTE is calculated for an undergraduate by dividing the total number of credit hours enrolled by all undergraduate students by 30. The graduate and professional FTE is calculated by dividing the total number of credit hours enrolled by all graduate and professional students by 24.

### **Five-Year Comparison of Full-Time and Part-Time Enrollments**

This table shows a five-year history of fall semester full-time and part-time enrollments at all public institutions. In the fall semester, an undergraduate student must be enrolled in at least 12 credit hours and a graduate student must be enrolled in at least 9 credit hours to be classified as full-time.

• Full-time enrollment at public institutions increased from 105,798 in fall 2002 to 108,097 in fall 2006, or 2.1 percent. Part-time enrollment increased from 62,704 in fall 2002 to 64,127 in fall 2006, or 2.3 percent.

### Five-Year Comparison of Full-Time and Part-Time Percentages

This table shows a five-year history of fall semester full-time and part-time enrollment percentages at all public institutions. In the fall semester, an undergraduate student must be enrolled in at least 12 credit hours and a graduate student must be enrolled in at least 9 credit hours to be classified as full-time.

• The full-time enrollment percentage at public institutions is the same, 62.8 percent for the fall 2002 and the fall of 2006. Part-time enrollment percentage at public institutions is the same, 37.2 percent for the fall 2002 and the fall of 2006..

### PERCENTAGE OF HEADCOUNT ENROLLMENT AT <u>PUBLIC</u> INSTITUTIONS BY FULL-TIME AND PART-TIME STATUS FALL 2002 TO FALL 2006

#### **Non-Credit Activity**

The following tables describe the nature and level of non-credit activity provided by Oklahoma <u>public</u> colleges and universities. The information provided indicates a range of activities and groups served. Participant contacts indicate the number of participants recorded as attending and participating in non-credit activities; therefore, an individual citizen may be counted in more than one activity. In some activities, participant contacts may be estimated, as in large lectures. Non-credit courses and activities are provided on a self-supporting basis and are not reported for state funding.

- During 2006-07, 23 public institutions reported participant contacts totaling 647,156 in non-credit activities at two research universities, nine regional universities, and 12 community colleges. This compares to 699,122 participant contacts for 2002-03.
- Between 2002-03 and 2006-07, non-credit activity participants averaged 496,173 for the state system. At the research universities non-credit activity averaged 392,258 participants; the regional universities, 55,673; and the community colleges, 48,242. Non-credit activity fluctuates widely from year to year.
- The <u>Group Served</u> table reflects the reporting institution's determination of the group to which an activity was primarily directed. According to the table, the major groups served were education, life, physical, and social science, and protective services.
- The Format table shows that special training programs and workshops are the most common formats for non-credit activities.
- The four counties where the most participation took place were Cleveland, Oklahoma, Tulsa and Comanche counties.
- The <u>Major Focus of Activity</u> table reflects the reporting institution's determination of the primary focus of the activity. According to the table, most non-credit activity was focused toward education; healthcare; and public administration.
- The Method of Delivery table indicates that 93.6 percent of non-credit activity participants were traditionally enrolled, while 0.4 percent participated in courses online.

### Oklahoma State Regents for Higher Education Student Data Report 2006-07

**Section IV: Access to Higher Education** 

### **Geographic Origin of Students in Public and Private Institutions**

The following three tables describe the geographic origin of students enrolled in Oklahoma higher education.

- Tulsa, Oklahoma, and Cleveland counties were the top three counties of origin for public institutions.
- Tulsa, Oklahoma, and Cleveland counties were the top three counties of origin for private institutions.
- For public institutions, Texas, Kansas, California, Arkansas, and Missouri were the top five states of origin for out-of-state students.
- For private institutions, Texas, Kansas, Missouri, Arkansas, and Colorado were the top five states of origin for out-of-state students.
- Japan, India, and China were the top countries of origin for public institutions, while Singapore, India, and China were the top countries of origin for private institutions.

#### **Direct from High School-to-College-Going Rate**

The first-time freshmen who entered college directly from high school are estimated from those students who were 17 to 19 years old and were Oklahoma high school graduates. Each category on the map represents approximately one-third of the 77 counties in Oklahoma.

• For 2004-05 through 2006-07, the statewide average college-going rate direct from high school was 57.6 percent.

#### DIRECT FROM HIGH SCHOOL-TO-COLLEGE-GOING RATES INTO OKLAHOMA PUBLIC AND PRIVATE COLLEGES BY COUNTY OF ORIGIN THREE-YEAR AVERAGE 2004-05 THROUGH 2006-07

SOURCE: Oklahoma High School Indicators Project, High School to College-Going Rate, OSRHE, April 2008.

NOTE: First-time freshmen may not sum to total because the total includes unknown high schools that do not relate back to any particular Oklahoma county. Other slight discrepancies may occur because of rounding.

#### <u>First-Time Freshman Enrollments at Public Institutions</u>

- The number of new freshmen decreased 8.8 percent from 31,323 in fall 2005 to 28,581 in fall 2006.
- Research university fall first-time freshmen decreased 0.6 percent from 6,579 to 6,542.
- Regional university fall first-time freshmen decreased 6.8 percent from 8,842 to 8,237.
- Community college fall first-time freshmen decreased 13.2 percent from 15,902 to 13,802.

#### Enrollment in Public Institutions by Race, Gender, Class Level, and Full-Time/Part-Time Status

- In fall 2006, full-time students comprised 62.6 percent of the total headcount enrollment, and part-time students made up the remaining 37.4 percent.
- Most undergraduate students enrolled as full-time students (64.9 percent) and most graduate students enrolled as part-time students (35.1 percent).
- Both male and female students enrolled more often as full-time students (65.9 percent and 60.2 percent, respectively).
- Women outnumbered men in Black, Native American, Asian, Hispanic, and White enrollments. Women comprised 60.5 percent of the Black enrollments, while 39.5 percent were men. Native American enrollments consisted of 60.5 percent women to 39.5 percent men. Women comprised 53.1 percent of Asian enrollments, while 46.9 percent were men. Women made up 57.3 percent of Hispanic enrollments, and men made up 42.7 percent. Men outnumbered women in the Nonresident Alien category by comprising 55.0 percent of the enrollment. White women outnumbered white males 57.2 to 42.8 percent.

#### Percentage of Student Enrollment by Race Within the State System

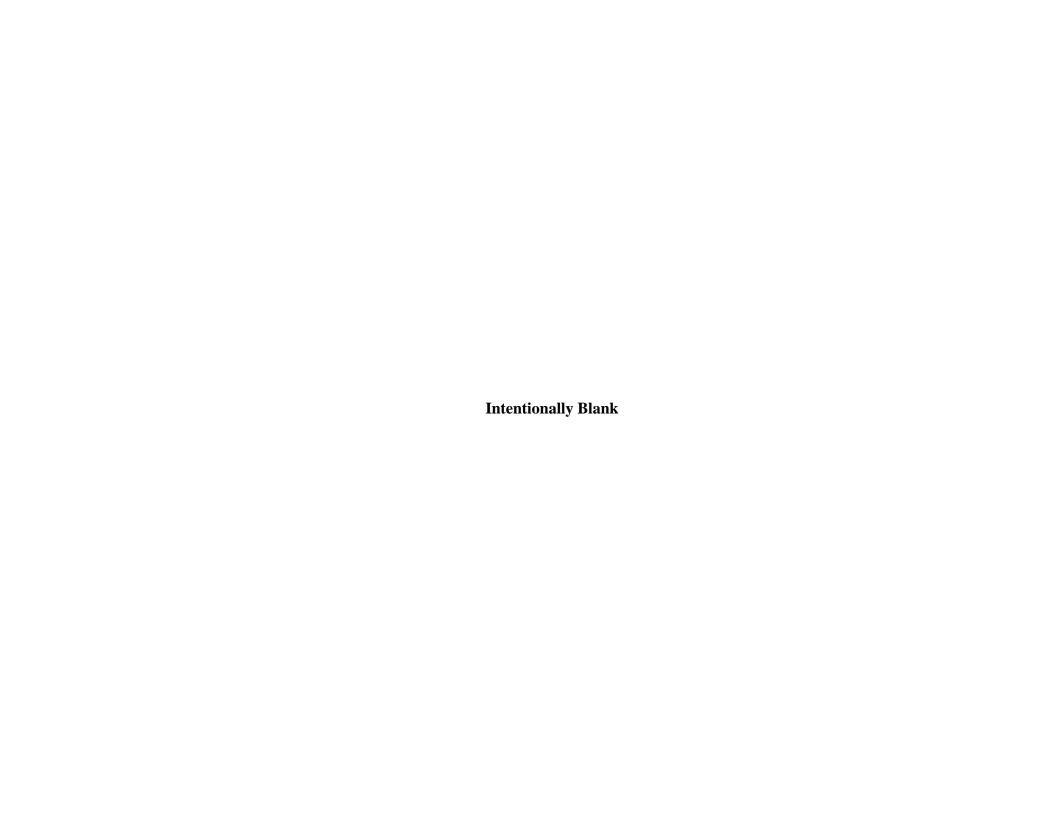

This table distributes the fall 2006 student enrollments by race among the State System institutions.

- Nonresident Aliens and Asians had the majority of their enrollment in research universities (51.1 percent and 46.3 percent, respectively).
- Blacks and Native Americans had the largest percentage of their enrollment in the regional tier (41.1 percent and 41.0 percent, respectively).
- For Hispanics and Whites, enrollment in community colleges made up the largest percentage of their total enrollments (43.2 and 38.1 percent respectively).

#### **Comparison of Fall Headcount Enrollments of Male Students**

There was an increase in enrollment for male students from fall 1997 to fall 2006. The research universities experienced a 10.3 percent increase in male enrollments for this time frame (from 23,623 to 26,323). Enrollment at regional universities increased approximately 2.4 percent while community colleges have seen an increase of 10.0 percent.

\*RSU began offering bachelor's degrees in fall 2000.

#### **Comparison of Fall Headcount Enrollments for Asian Students**

• From 1997 to 2006, Asian enrollments increased at all tiers. The increase was greatest for the research universities with an increase of 273 students from 1,664 to 1,937.

#### Ten Year History of the Mean Age of Students Enrolled in Oklahoma Public Institutions by Gender, Race, Class Level, and Status

This table is a ten year history of the mean age of students enrolled in the public system. The table tracks the mean age of students enrolled in higher education by race, gender, class level and attendance status.

- The mean age of students in all race categories except non-resident alien experienced an overall decrease of 1.17 years from 27.26 to 26.08 during the ten year period.
- The mean age of females and males decreased from 28.07 to 26.84 and 26.29 to 25.06, respectively. In fall 2006, the average age of females enrolled was 1.78 years higher than that of males.
- The mean age of students in all class levels decreased from fall 1997 to fall 2006.

## MEAN AGE OF STUDENTS ENROLLED IN OKLAHOMA <u>PUBLIC</u> INSTITUTIONS BY GENDER, RACE, CLASS LEVEL, AND STATUS FALL 1997 THROUGH FALL 2006

Category	1997	1998	1999	2000	2001	2002	2003	2004	2005	2006

#### Percent First-Time Freshmen in Public Institutions by Age

• This graph provides the percent of first-time freshmen in public institutions by age for fall 2006. This information used in conjunction with the cohort-survival projections may be useful for institutions like The University of Oklahoma which had approximately 98 percent of its first-time freshmen between 17 and 19 years of age in fall 2006. Community colleges would find these projections less useful since a smaller percentage of their first-time freshmen were between 17 and 19 years of age in fall 2006.

### PERCENT OF FIRST-TIME FRESHMEN IN <u>PUBLIC</u> INSTITUTIONS BY AGE FALL 2006

#### Five-year History of Students Receiving Financial Aid

This table reflects the unduplicated recipients for each financial aid category as a percentage of the total unduplicated headcount enrollment at public institutions for five twelve-month time periods.

- In 2002-03, 54.6 percent of all unduplicated students received at least one form of financial aid. By 2006-07, this percentage rose to 63.1, which indicates that more than half of the unduplicated students received some form of financial aid. All categories of financial aid increased in unduplicated recipients since 1950.
- In 2006-07, grants were the most common form of financial aid received (43.3 percent), followed by loans and scholarships (30.9 and 17.3 percent, respectively).
- From 2005-06 to 2006-07, the percent of all unduplicated student receiving loans and/or scholarships increased 2.8 percentage points for all categories

#### **Financial Aid Recipients Compared to Enrollment**

This table shows unduplicated financial aid recipients as a percentage of unduplicated headcount enrollments for each public institution. It also shows the percentage of total public system financial aid recipients per institution and percentage of total public system enrollment per institution.

• Community colleges have the smallest percentage of their student body receiving aid (51.1 percent). Regional universities have the largest percentage of students receiving financial aid (76.3 percent) followed by research universities (72.4 percent).

#### Transfer Activity of Degree-Seeking Students in the Oklahoma State System

The following information describes a cohort flow methodology that tracks first-time, degree-seeking freshmen (full-time and part-time) from the fall semester of one academic year into the next full academic year. Students who are considered first-time transfers include immediate transfers and those who delay transfer for only one year.

- <u>Immediate transfer</u> a student who was enrolled the previous academic year at another Oklahoma institution of higher education and transferred without a break in enrollment to the current institution.
- **Delay transfer** a student who was not enrolled the previous academic year, but transferred hours from another institution.

# **Transfer of Degree-Seeking Students by Race and Gender**

- Both males and females had similar transfer patterns. Males transferred from two-year to four-year institutions at a rate of 29 percent, three percentage points higher than females. Females transferred between four-year institutions at a rate of 25 percent, three percentage points higher than males.
- The Non-resident Alien and Asian categories had the highest percentage of student transfers from two-year to four-year institutions (56 percent and 44 percent, respectively). Hispanics had the highest percentage of transfers from four-year to two-year institutions (39 percent).

# TRANSFER PATTERN OF DEGREE-SEEKING STUDENTS WITHIN OKLAHOMA FROM <u>PUBLIC AND PRIVATE</u> INTITUTIONS TO <u>PUBLIC</u> INSTITUTIONS BY RACE AND GENDER AS OF SPRING 2008 FOR THE 2005-06 COHORT

# Transfer of Community College Degree-Seeking Students to Public Research or Regional Universities

- From 2002-03 to 2006-07, the percentage of students who began as degree-seeking freshmen in community colleges and transferred to a public research or regional institution within six years increased from 35.8 percent to 36.0 percent.
- The percentage of public two-year to four-year transfer students who earned a bachelor's degree within six years increased from 19.8 percent to 38.1 percent from 2002-03 to 2006-07.

# PERCENT OF <u>PUBLIC COMMUNITY COLLEGE</u> COHORT TRANSFERRING WITH A SIX-YEAR PERIOD TO <u>PUBLIC RESEARCH OR REGIONAL</u> INSTITUTIONS 2002-03 THROUGH 2006-07

# **Student Transfer Activity**

The following graph and table describe the transfer of the fall 2005 degree-seeking freshman cohort as of spring 2008. Additional tables by full-time/part-time status, race, and gender are available upon request.

• For fourteen of the public institutions, more students transferred "from other public institutions" than "to other public institutions" which would be considered a net gain for those institutions.

# Oklahoma State Regents for Higher Education Student Data Report 2006-07

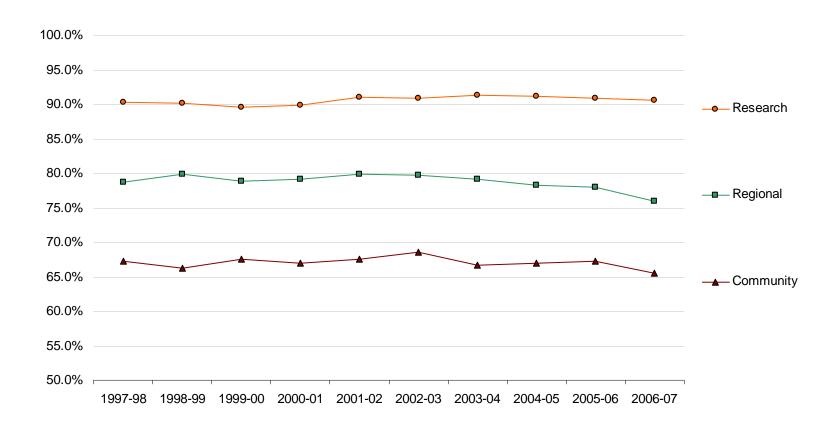

**Section V: Outcomes** 

### <u>First-Year Persistence Rates First-Time Full-Time Freshmen Within the State</u>

The following graph and table show a 10-year summary of persistence rates for the fall cohorts within the state, that is, new freshmen who enrolled at the same or another Oklahoma higher education institution the following year.

• From 1997-98 to 2006-07, persistence rates (within the state) for new freshmen increased from 90.3 to 90.6 percent at the research universities, decreased from 78.7 percent to 75.9 percent at the regional universities, and decreased from 67.2 to 65.5 percent at the community colleges.

### **Graduation Rates First-Time Full-Time Freshmen Within the State**

The following graph and table show a summary of graduation rates for the fall cohorts within the state, that is, new freshmen who graduated in the same or another Oklahoma higher education institution. The graduation rates are six-year rates for research and regional universities, and three-year for community colleges.

• From 1996-97 to 2006-07, six-year graduation rates (within the state) for new freshmen increased from 52.8 to 65.9 percent at the research universities and increased from 37.3 to 38.9 percent at the regional universities. At community colleges, three-year graduation rates (within the state) for new freshmen increased from 17.6 to 18.8 percent.

SOURCE: OSRHE UDS, Cohort2 (July 2008 Brain Gain) reports.

<sup>\*</sup> Institution began offering 4-year degrees fall 2000 and in 2006-07 is included in regional tier. N/A: data not available.

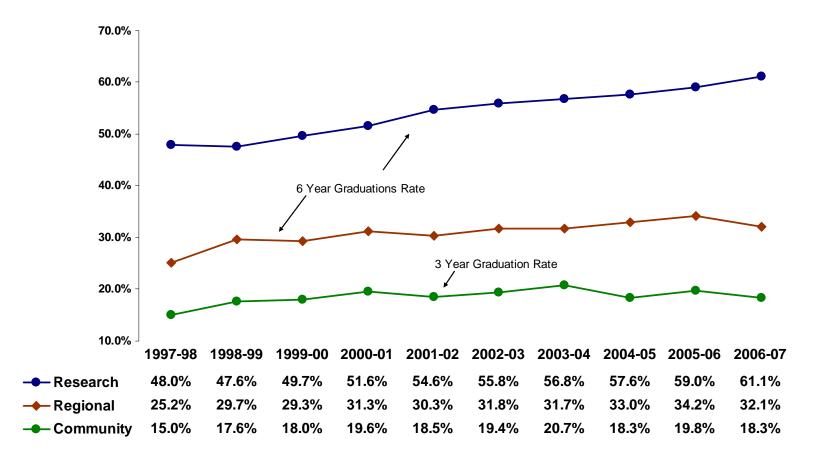

NOTE: The tier graduation rates are calculated by dividing the total number of graduates by the total number of fall first-time, full-time degree-seeking students at all of the institutions in the tier.

### **Graduation Rates of Athletic Scholarship Students**

The following tables show a summary of graduation rates for the fall <u>athletic</u> cohorts within the institution, that is, new freshmen receiving athletic assistance who graduated from the Oklahoma higher education institution where they began their education. The graduation rates are six-year rates for research and regional universities, and three-year rates for community colleges. Tables for all athletes, male athletes, and female athletes are included.

- From 2004-05 to 2006-07, six-year graduation rates for all athletes in all sports decreased from 56.5 percent to 55.7 percent at the research universities, and decreased from 40.0 percent to 37.5 percent at the regional universities. At community colleges, three-year graduation rates for all freshman athletes in all sports decreased from 33.3 percent to 30.3 percent.
- From 2004-05 to 2006-07, six-year graduation rates for male athletes in all sports increased from 46.4 percent to 51.8 percent at the research universities, and decreased from 38.7 percent to 35.6 percent at the regional universities. At community colleges, three-year graduation rates for male freshman athletes in all sports decreased from 28.5 percent to 26.2 percent.
- From 2004-05 to 2006-07, six-year graduation rates for female athletes in all sports decreased from 69.1 percent to 61.4 percent at the research universities, and increased from 44.2 percent to 45.1 percent at the regional universities. At community colleges, three-year graduation rates for female athletes in all sports decreased from 37.0 percent to 35.3 percent.
