Meeting of the
OKLAHOMA STATE REGENTS FOR HIGHER EDUCATION
April 26, 2007

AGENDA ITEM:

Reports

SUBJECT: Financial Aid Update and Annual Student Financial Aid Survey for 2005-06

RECOMMENDATION:

This item is for information purposes. The Annual Student Financial Aid Survey is presented for the State Regents' acceptance.

BACKGROUND:

For 32 consecutive years, the Oklahoma State Regents for Higher Education have compiled an Annual Financial Aid Report (OCR B3) for state system institutions. This report is used to track the amounts and types of financial aid distributed in Oklahoma public higher education institutions. The information is also compiled according to race and gender. The data helps to provide trend information on the long-term changes in the financial aid environment of students attending Oklahoma public colleges and universities. Information concerning grants, scholarships, loans, and employment is collected in aggregate form directly from the institutions.

For the second year, most private/independent colleges also provided aggregate information on students at their institutions.

POLICY ISSUES:

The information provided by this report is critical for monitoring the impact of financial aid on the policy goals of the State Regents to increase the number of students earning college degrees in Oklahoma.

ANALYSIS:

In 2005-06, students attending Oklahoma public and independent (private) colleges and universities received financial aid totaling \$1.2 billion. Students at state system institutions received \$940 million while students at the independent institutions received \$261 million. Over half of the amount, some \$656 million, was in the form of loans.

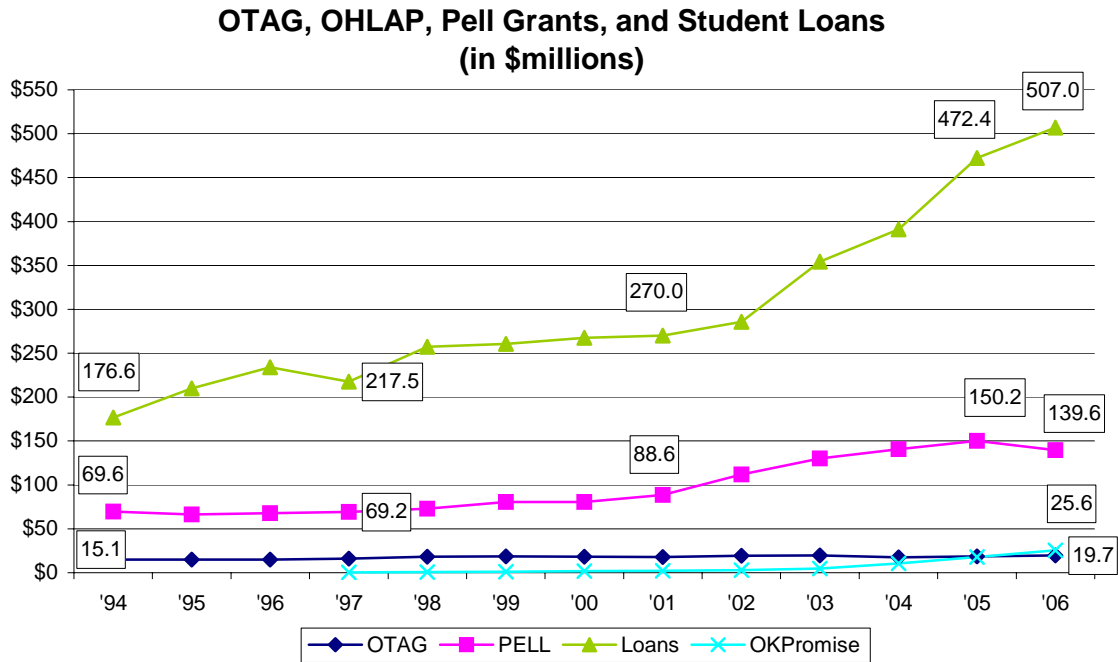

A few highlights of the 2005-06 data are:

- ~ The annual rate of growth in the total amount of state system financial aid slowed in 2005-06 compared to previous years. The increase in 2005-06 was 5%, compared to annual increases of 16%, 11%, and 15% for the three previous years.
- ~ For the first time, the total amount of loans taken out by students within the state system in a single academic year topped a half-billion dollars at \$507 million.
- ~ After four years of steady increases, the number of state system students receiving the federal Pell Grant actually declined by about 2,600 or 4%. The total dollar amount of Pell Grants awarded to state system students declined even more, by \$10.6 million or 7%. This drop was due, at least in part, to a change in the federal formula that determines a student's eligibility for the Pell Grant. The change, which modified a formula factor for state taxes paid, eliminated Pell Grant eligibility for some students and reduced the amount of the grant for others.
- ~ The percentage of students receiving any form of financial aid in the state system increased to 60% from 57% in 2004-05. Overall enrollment in the state system declined slightly from 238,000 in 2004-05 to 236,000 in 2005-06.

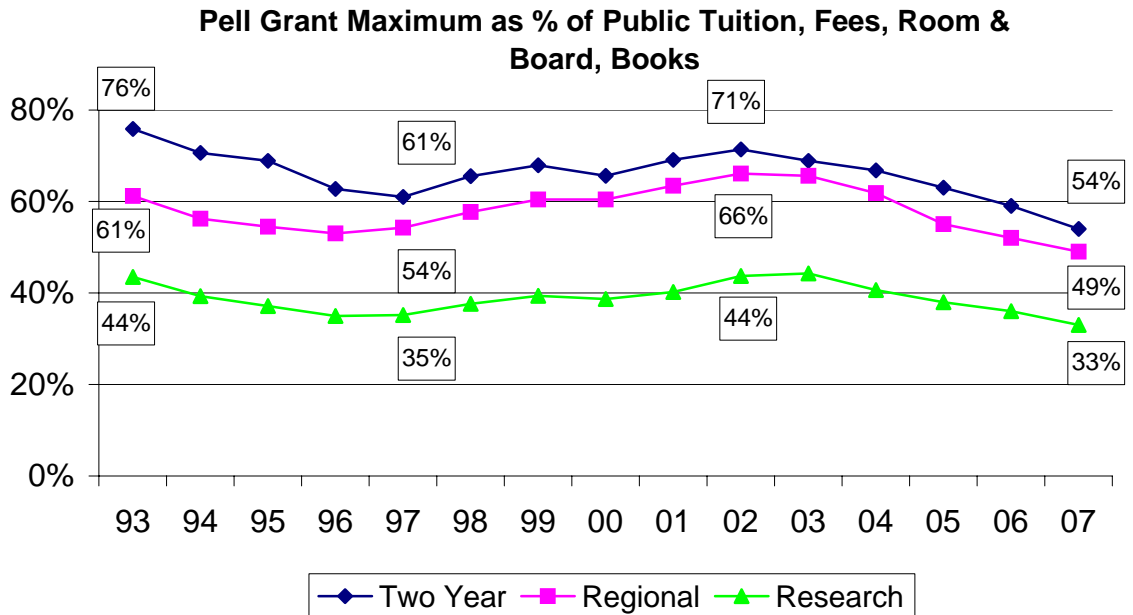

The following pages provide more details.

Trends for Students in the State System for Higher Education:

>> The amount of student loan borrowing continued to grow at a greater rate than grant aid such as federal Pell Grants or Oklahoma Tuition Aid Grants.

>> For the lowest income students, the maximum federal Pell Grant covered a smaller portion of public college costs than at any point since 1992-93. The maximum grant in 2005-06 was \$4,050 and had not increased significantly since 2002-03.

2005-06 Financial Aid for Students Attending State System Institutions:

- ~ More than 142,000 students attending state system institutions received approximately \$940 million dollars in student aid. Just over 60% of the nearly 236,000 students attending state system institutions in 2005-2006 received some form of financial aid.
- ~ Over the past three years, the total amount of financial aid distributed to state system students increased by \$246 million, or 35%. The amount of student loans borrowed by state students increased 43% over those three years.

~ Student Loans:

- o More than half (54%, or \$507 million) of all financial aid dollars awarded were in loans. All other types of financial aid combined— scholarships, grants, and work-study— totaled slightly less than \$433 million (46%).
- o The percentage of all students taking out student loans has increased from 22% in 1994-95 to 32% in 2005-06.

2005-06 Financial Aid for Students Attending Independent/Private Institutions: For the second year, independent colleges participating in the Oklahoma Tuition Equalization Grant (OTEG) program were also required to submit aggregate financial aid data. In 2005-06, students attending independent institutions received \$261 million in total financial aid, of which \$149 million or 57% was in the form of loans. A more detailed summary of the sources of financial aid is included in Attachment B.

Combined 2005-06 Financial Aid for State System and Independent/Private Institutions: A total of \$1.2 billion in financial aid was disbursed to students attending Oklahoma public and independent colleges in 2005-06. The table below shows the proportion of aid coming from each source for the two sectors.
