Meeting of the  
**OKLAHOMA STATE REGENTS FOR HIGHER EDUCATION**  
June 29, 2006

**AGENDA ITEM:**

**Reports**

**SUBJECT:** Financial Aid Update and Annual Student Financial Aid Survey for 2004-05

**RECOMMENDATION:**

**This item is for information purposes. The Annual Student Financial Aid Survey is presented for the State Regents' acceptance.**

**BACKGROUND:**

Three issues are discussed in this item:

A recent report from the Educational Policy Institute indicates that Oklahoma ranks #2 among the fifty states in affordability of public four-year postsecondary education.

The federal government has created two new student financial aid grants effective for fall 2006 that are expected to have a significant impact.

The 2004-05 Annual Student Financial Aid Report.

**POLICY ISSUES:**

All three items in this report have implications for the issue of affordability of higher education in Oklahoma.

For 31 consecutive years, the Oklahoma State Regents for Higher Education have compiled an Annual Financial Aid Report (OCR B3) for state system institutions. This report is used to track the amounts and types of financial aid distributed in Oklahoma public higher education institutions. The information is also compiled according to race and gender. The data helps to provide trend information on the long-term changes in the financial aid environment of students attending Oklahoma public colleges and universities. Information concerning grants, scholarships, loans, and employment is collected in aggregate form directly from the institutions. For the first time, most private/independent colleges also provided aggregate information on students at their institutions.

## ANALYSIS:

### 1. Report on College Affordability

A recent report [“Beyond the 49<sup>th</sup> Parallel II: The Affordability of University Education,” Usher, A and Steele, Kim, Educational Policy Institute, March 2006] concludes that Oklahoma ranks #2 among all states in affordability of public four-year college education.

The report evaluates education costs (tuition, fees, books) and living costs (room & board), as well as sources of funding support such as student grants, loans, and individual tax benefits. All are measured in relation to median household income. The report notes the following factors in explaining the analysis:

- ~ Federal student financial aid acts as an “equalizing force”. The amount of federal financial aid that a student receives, such as Pell Grants, is largely based on individual income/assets and is not adjusted for local cost of living. Consequently, federal student aid provides greater value in lower-income, lower-cost states.
  - ~ Oklahoma’s overall ranking of #2 in affordability considers the following measures:
    - Median household income (44<sup>th</sup>)
    - Education costs (13<sup>th</sup> lowest)\*
    - Living costs (5<sup>th</sup> lowest)
    - Total costs; education and living (10<sup>th</sup> lowest)\*
    - Grant aid per student (32<sup>nd</sup>)
    - Tax benefits (federal tax credits, deductions) per student (27<sup>th</sup>)
    - Loan aid per student (23<sup>rd</sup>)
    - “Out-of-pocket” costs (2<sup>nd</sup> lowest)\*
- \*adjusted for median household income

### 2. New Federal Student Aid Grants

Two new federal student aid grants will become available in fall 2006 to students eligible for the federal Pell Grant. Currently, there are about 80,000 Pell Grant recipients in Oklahoma, including roughly 66,000 in state system institutions. It remains unclear how many of the students will ultimately receive the new grants.

- ~ The Academic Competitiveness Grants offer an additional \$750 to first-year students and \$1,300 to second-year students. To qualify, students must meet the following criteria:
  - Be a U.S. citizen;
  - Be a Federal Pell Grant recipient;
  - Be enrolled full-time in a degree program;
  - Be enrolled in the first or second academic year of his or her program of study at a two-year or four-year degree-granting institution;
  - Have completed a rigorous secondary school program of study (after January 1, 2006, if a first-year student, and after January 1, 2005, if a second-year student; the Oklahoma’s Promise—OHLAP curriculum is accepted);
  - If a first-year student, not have been previously enrolled in an undergraduate program; and
  - If a second-year student, have at least a cumulative 3.0 grade point average on a 4.0 scale for the first academic year.

- ~ The National Science and Mathematics Access to Retain Talent (SMART) Grants will provide up to \$4,000 for each of the third and fourth academic years of study. To be eligible for each academic year, a student must:
  - Be a U.S. citizen;
  - Be a Federal Pell Grant recipient;
  - Be enrolled full-time in a degree program;
  - Be enrolled in a four-year degree-granting institution;
  - Major in the physical sciences, life sciences, computer science, engineering, mathematics, technology, or a critical foreign language; and
  - Have at least a cumulative 3.0 grade point average on a 4.0 scale.

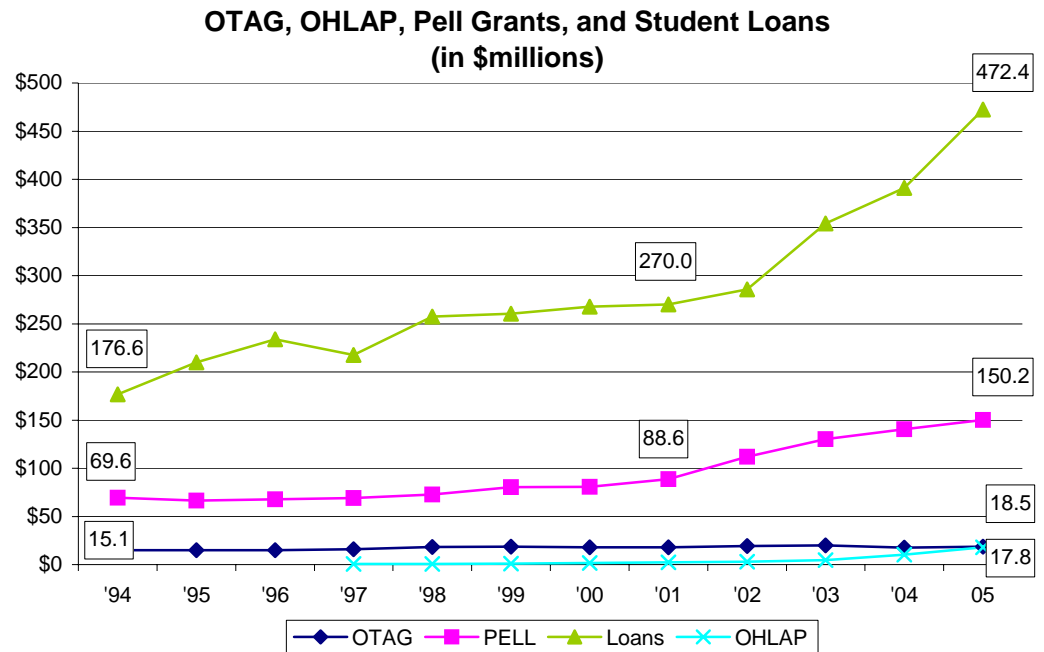

### 3. Annual Student Financial Aid Survey for 2004-05

In 2004-05, students attending Oklahoma public and independent (private) colleges and universities received financial aid totaling more than \$1.1 billion. Students at state system institutions received \$895 million while students at the independent institutions received nearly \$241 million. Over half of the amount, some \$618 million, was in the form of loans.

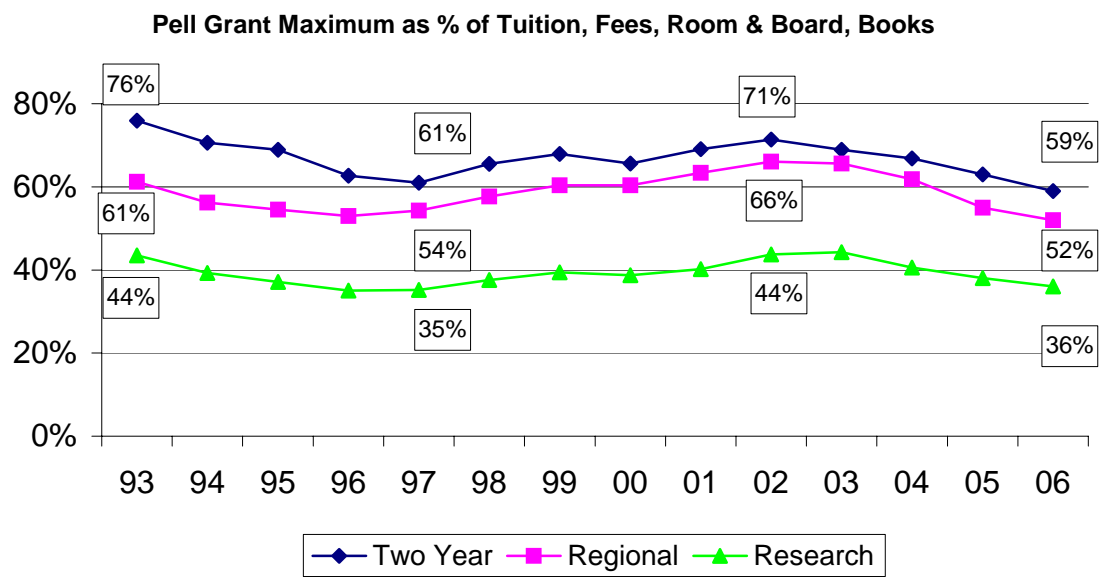

The following pages provide more details.

## Trends for Students in the State System for Higher Education:

>> The amount of student loan borrowing continues to grow at a greater rate than grant aid such as federal Pell Grants or Oklahoma Tuition Aid Grants.

>> For the lowest income students, the maximum federal Pell Grant generally covers a smaller portion of public college costs than at any point since 1992-93. The maximum grant is currently \$4,050 and has not increased significantly since 2002-03.

## 2004-05 Financial Aid for Students Attending State System Institutions:

More than 135,000 students attending state system institutions received \$895 million dollars in student aid. Over half (57%) of the 238,000 students attending state system institutions in 2004-2005 received some form of financial aid, the same percentage as 2003-2004.

Over the past three years, the total amount of financial aid distributed to state system students increased by \$293 million, or 49%. The amount of student loans borrowed by state students increased 65% over those three years.

### Student Loans:

- ~ More than half (53%, or \$472 million) of all financial aid dollars awarded were in loans. All other types of financial aid combined— scholarships, grants, and work study— totaled slightly less than \$423 million (47%).
- ~ The percentage of all students taking out student loans has increased from 22% in 1994-95 to 31% in 2004-05.

**2004-05 Financial Aid for Students Attending Independent/Private Institutions:** For the first time, independent colleges participating in the Oklahoma Tuition Equalization Grant (OTEG) program were also required to submit aggregate financial aid data for 2004-05. In 2004-05, students attending independent institutions received \$241 million in total financial aid. A more detailed summary of the sources of financial aid can be found on page 11.

**Combined 2004-05 Financial Aid for State System and Independent/Private Institutions:** A total of \$1.1 billion in financial aid was disbursed to students attending Oklahoma public and independent colleges in 2004-05. The table below shows the proportion of aid coming from each source for the two sectors.
