Meeting of the
OKLAHOMA STATE REGENTS FOR HIGHER EDUCATION
May 25, 2007

AGENDA ITEM #xx:

Student Transfer.

SUBJECT: Acceptance of Course Equivalency Matrix.

RECOMMENDATION:

It is recommended that the State Regents accept the system faculty's 2007-08 Course Equivalency Matrix.

BACKGROUND:

The State Regents' report to the 1996 Legislature, *Facilitating Student Transfer: A Comprehensive Action Plan*, presented a multifaceted plan to improve student transfer. Its four parts included: 1) creating working faculty transfer curriculum committees; 2) proposing the development of a systemwide electronic course transfer guide; 3) emphasizing academic advising; and 4) organizing an evaluation process to monitor transfer students' success. In December 1997, the State Regents submitted a second progress report on student transfer issues to the Legislature. Its focus was the Course Equivalency Project—the implementation phase of the *Comprehensive Action Plan*.

The Course Equivalency Project (CEP) operates on an annual cycle. In late Spring, the Council on Instruction (COI) determines which faculty committees meet in the Fall; not all committees meet every year. Presidents annually nominate faculty to the selected curriculum committees during the Summer. Each Fall, up to 500 faculty representing the entire State System meet by discipline to update curricula and establish new course equivalencies. Faculty committee reports are completed in November. Courses can also be added to course equivalency disciplines that have no faculty meeting in the fall, but the additions are subject to faculty review on respective campuses before being entered into the course equivalency matrices. Academic vice presidents update the course equivalency information twice each year in August and December. In the Winter, COI approves the faculty's course equivalency recommendations. The State Regents approve the matrix each spring and it is then distributed to institutions. Concurrently, the State Regents' web site is updated to include the latest equivalency information. The information is accessible electronically at <http://www.okhighered.org/student-center/transfer-stdnts/course-transfer.shtml>.

Course equivalency is defined as follows: Course "A" is equivalent to course "B" if and only if course "A" satisfies all program requirements that course "B" satisfies—serving exactly the same purpose with respect to content delivery, general education, or program degree requirements. Courses contained within a single equivalency group, or common grouping of courses (e.g., English Composition I), are guaranteed to transfer among institutions that sponsor courses in that group.

From Fall 1995 through Fall 2006, dedicated faculty serving on Faculty Transfer Curriculum Committees consistently generated course equivalencies for this project. The faculty's course equivalency reports represent the heart of the student transfer effort. The course equivalency matrix reinforces student access to the three-tiered higher education system and helps shorten the time it takes students to obtain a degree.

The CEP received the Governor's Commendation Award in 1999 for demonstrating innovation and efficiency.

POLICY ISSUES:

The State Regents' policy on *Undergraduate Transfer and Articulation* provides standards for the articulation of course work between and among State System institutions. The course equivalency matrix provides information that facilitates institutions' compliance with policy guidelines.

ANALYSIS:

The following table illustrates the growing number of course equivalencies that faculty have established since the first meetings in 1995.

Year	Disciplines	Course Groupings	Courses
1996-97	16	Not available	1,594
1997-98	22	Not available	2,875
1998-99	25	221	3,690
1999-2000	30	372	4,187
2000-01	32	394	4,399
2001-02	32	387	4,531
2002-03	32	427	4,926
2003-04	33	485	5,343
2004-05	36	540	6,423
2005-06	39	563	6,668
2006-07	39	570	7,030
2007-08	39	691	7,450

The following chart provides the totals for the current matrix.

Total Number of Courses and Semester Credit Hours with Established Equivalencies (2006-07)	
Total Number of Discipline Groups	39
Total Number of Course Equivalency Groups	691
Total Number of Courses	7,450
Approximate Total Semester Credit Hours	22,350

A bar graph summarizing the performance of individual disciplines for the duration of the course equivalency matrix is attached.

Other positive features of the CEP are listed below.

- ❑ It facilitates articulation of curriculum development as faculty design new courses to meet articulation guidelines and course content descriptions.
- ❑ A tracking system permits registrars to recognize the course changes, deletions, and additions made to the course equivalency matrices from year to year.

- ❑ A course coding identification project allows State Regents' staff to monitor students' use of the courses contained in the course equivalency matrix.
- ❑ The State Regents maintain a student transfer hotline to help students with transfer problems within the State System.

Other State Regents' initiatives related to course transfer include:

- ❑ The development of a similar matrix of institutions' program articulation agreements is in progress.
- ❑ Staff is currently exploring ways to make the course equivalency matrix more user-friendly including: online search, comparison option and a redesigned student portal. Additionally, staff is developing databases for faculty and administrative CEP data entry.
- ❑ Faculty was asked in fall 2003 to begin discussion on ways to facilitate the transfer of blocks of courses within programs among institutions.
- ❑ Higher education and career technology centers have begun course articulation for technology center courses offered as part of cooperative agreements between higher education and technology centers.

The 2007-08 faculty course equivalency information (matrices and course content descriptions) is provided as a supplement to this item. The COI approved the 2007-08 course equivalency matrix on April 12, 2007. It is recommended that the State Regents accept this edition of the course equivalency matrix.

NOTES

- 1 If a student transfers a lower division (1000-2000) course to an institution that offers the course at the upper division level (3000-4000), the lower division course will transfer as equivalent in content but not as upper division hours.
- 2 Courses will transfer as a sequential pair. Single courses will transfer at the discretion of the receiving institution.
- 3 If possible, students taking courses presented in sequence (I.e., I and II) should try to complete both courses at the same institution.
- 4 The degree requirements for history include approximately 15 to 18 semester hours of lower division work and from 21 to 36 hours of upper-division work.
- 5 Students who transfer lower-division courses from this group into four-year programs must take three upper-division credit-hours in addition to the required number of lower division courses.
- 6 If course prerequisites are not equivalent, the receiving department reserves the right to require the course to be taken at the 3000 level.
- 7 No required course sequence is to be inferred from the course numbering.
